Peer-review under responsibility of the Sociotechnical Systems Engineering Institute of Vidzeme University of Applied Sciences

"Imagination is more important than knowledge"

- Albert Einstein

Annual Proceedings of Vidzeme University of Applied Sciences managed by Sociotechnical Systems Engineering institute serves for experience generalization in ICTE technologies and modelling use in the different areas. The new Proceedings involve articles related with e-learning technologies and software engineering. The authors deal with logistics and technical systems control. There are involved articles related with new approaches in sociotechnical systems sustainability assessment. An aim of the publishers is to encourage the development of regional and interdisciplinary science and especially, socio-technical research, granting free publication possibilities to the young scientists, doctoral students, graduates, and professionals.

Editors
Chief Editors:

Dr. Marco Schumann – Fraunhofer Institute for factory Operation and Automation (Germany)
Prof. Egils Ginters – Sociotechnical Systems Engineering Institute, Vidzeme University of Applied Sciences (Latvia)

Editorial Board:

Prof. Rosa Maria Aguilar Chinea – The University of La Laguna (Spain)
Prof. Eugene Kindler – University of Ostrava (Czech Republic)
Prof. Gaby Neumann – Wildau Technical University of Applied Sciences (Germany), The LogNet group of European Logistics Association (ELA)
Prof. Janis Grundspenkis – Latvian Academy of Sciences
Prof. Klaus G. Troitzsch – European Social Simulation Association (ESSA)
Prof. Krzysztof Amborski – Warsaw University of Technology (Poland)
Prof. Leonid Novitski – Riga Technical University (Latvia)
Prof. Miquel Angel Piera Eroles – The University Autonoma of Barcelona (Spain)
Prof. Vytautas Paulauskas – Klaipeda University (Lithuania)
Prof. Yuri Merkuryev – Latvian Simulation Society

The Proceedings are aimed to introduction on research related with modern solutions and tools of Information Technologies, Telecommunications, and Electronics used for regional development and sociotechnical systems management and control. The Proceedings also deals with some aspects of regional science. Responsibility for the accuracy of all statements in each paper rests solely with the Author(s).

Published in conformity with resolution No. 21 on 24 November 2014 of Sociotechnical Systems Engineering Institute of Vidzeme University of Applied Sciences, Latvia
