Corrigendum

Corrigendum to “Comparison of the interaction of tomatine with mixed monolayers containing phospholipid, egg sphingomyelin, and sterols” [Biochim. Biophys. Acta 1778 (2008) 2244–2257]

Barry W. Walker, Nathan Manhanke, Keith J. Stine *

The authors wish to clarify one detail in the ‘Materials and methods’ section of this article. On page 2246, the first sentence of paragraph 2, column 2, should read as follows:

Monolayers were spread from solutions in chloroform (Fisher Scientific, Optima grade), except those containing tomatine or egg sphingomyelin were spread from 9:1 solutions of chloroform and methanol (Fisher Scientific, Optima grade).
