The authors regret that two errors have been identified in this paper.

The formula for the group specificity score on page 564 contains an error. The formula should read:

$$S = \sum_{i=x}^{\min(s_1, s_2)} \frac{\binom{s_1}{i} \binom{N - s_1}{s_2 - i}}{\binom{N}{s_2}}.$$

The reference for Davidson (2001) should read:

The authors apologize to the readers and to the author of the book for these errors.
