Editorials

937  Controversies in cardiothoracic surgery: Should therapeutic cloning be supported to provide stem cells for cardiothoracic surgery research and treatment?
M. McKneally

941  Closed heart surgery: Back to the future
S. V. Lichtenstein

944  Measuring the therapeutic efficacy of coronary revascularization: Implications for future management
J. S. Rankin and F. E. Harrell, Jr

949  Surgery for atrial fibrillation: Are we heading in the right direction?
J. Q. Melo

952  Prosthesis–patient mismatch and clinical outcomes: The evidence continues to accumulate
J. G. Dumesnil and P. Pibarot

Cardiopulmonary Support and Physiology (CSP)

956  Integrated coronary revascularization with drug-eluting stents: Immediate and seven-month outcome

963  Fatal pulmonary microthrombi during surgical therapy for end-stage heart failure: Possible association with antifibrinolytic therapy

969  Importance of endothelial nitric oxide synthase for the hypothermic protection of lungs against ischemia-reperfusion injury

975  Restoration of myocardial β-adrenergic receptor signaling after left ventricular assist device support
P. K. Pandelai, C. F. Bulcau, W. H. Merrill, and S. A. Akhter

General Thoracic Surgery (GTS)

981  The pattern of lymph node involvement influences outcome after extrapleural pneumonectomy for malignant mesothelioma
J. G. Edwards, D. J. Stewart, A. Marin-Ucar, S. Muller, C. Richards, and D. A. Waller

988  Clinicopathologic study of resected, peripheral, small-sized, non–small cell lung cancer tumors of 2 cm or less in diameter: Pleural invasion and increase of serum carcinoembryonic antigen level as predictors of nodal involvement
M. Inoue, M. Minami, H. Shiono, N. Sawabata, K. Ideguchi, and M. Okumura

994  Breath-hold single-photon emission tomography and computed tomography for predicting residual pulmonary function in patients with lung cancer
M. Sudoh, K. Ueda, Y. Kaneda, J. Mitsutaka, T.-S. Li, K. Suga, Y. Kawakami, and K. Hamano

1002  Biologic effects of radiofrequency thermal ablation on non–small cell lung cancer: Results of a pilot study
M. C. Ambrogi, G. Fontanini, R. Cioni, P. Favianna, O. Fanucchi, and A. Mussi

(continued on page 2A)
Surgery for Acquired Cardiovascular Disease (ACD)

1021 How many arterial grafts are enough? A population-based study of midterm outcomes
V. Guru, S. E. Fremes, and J. V. Tu

1029 Surgical ablation as treatment for the elimination of atrial fibrillation: A meta-analysis
S. D. Barnett and N. Ad

1036 Prosthesis–patient mismatch after aortic valve replacement predominantly affects patients with preexisting left ventricular dysfunction: Effect on survival, freedom from heart failure, and left ventricular mass regression

1045 A single nucleotide polymorphism in the matrix metalloproteinase 9 gene (8202A/G) is associated with thoracic aortic aneurysms and thoracic aortic dissection

1053 Immediate endovascular treatment of blunt aortic injury: Our therapeutic strategy
A. Agostinelli, S. Saccani, B. Borrello, F. Nicolini, P. Larini, and T. Gherlli

Surgery for Congenital Heart Disease (CHD)

1099 Inclusion of oxygen consumption improves the accuracy of arterial and venous oxygen saturation interpretation after the Norwood procedure

(continued on page 4A)
Contemporary management of right atrial isomerism: Effect of evolving therapeutic strategies

Extra corporeal life support after staged palliation of a functional single ventricle: Subsequent morbidity and survival
A. Hoskote, D. Bohn, C. Gruenwald, D. Edgell, S. Cai, I. Adatia, and G. Van Arsdell

Impact of preoperative treatment strategies on the early perioperative outcome in neonates with hypoplastic left heart syndrome

Off-label use of an adjustable gastric banding system for pulmonary artery banding
Y. Boudjemline, E. Pineau, C. Bonnet, A. Mollet, S. Abadir, D. Bonnet, D. Sidi, and G. Agnoletti

Surgical management of aortopulmonary window associated with interrupted aortic arch: A Congenital Heart Surgeons Society study

Living donor lobar grafts improve pediatric lung retransplantation survival

Lung regeneration: Implantation of fetal rat lung fragments into adult rat lung parenchyma

Extended donor criteria in lung transplantation: Impact on organ allocation
P. Botha, D. Trivedi, C. J. Weir, C. P. Searl, P. A. Corris, J. H. Dark, and S. V. B. Schueller

Clopidogrel reduces the development of transplant arteriosclerosis

Incidence and outcome of cardiopulmonary resuscitation in patients with shunted single ventricle: Advantage of right ventricle to pulmonary artery shunt
E. M. Graham, G. A. Forbus, S. M. Bradley, G. S. Shirali, and A. M. Atz

Surgical repair of a large coronary artery aneurysm with arteriovenous fistula
P. Saxena, I. E. Konstantinov, D. Burstow, and R. Tam

Two distinct clinical presentations in adult unicuspid aortic valve

Thromboembolism from the noncoronary cusp of a patient with a normal aortic valve and protein C deficiency
S. Shindo, K. Kubota, and M. Matsumoto

Lower extremity compartment syndrome after off-pump aortocoronary bypass

Polydioxane (PDS) cord has insufficient reliability to securely close the sternum
A. Usui, H. Oshima, T. Akita, and Y. Ueda

Intraoperative finding of structural abnormality of bovine pericardial aortic prosthesis
U. Da Col, D. Di Lazzaro, G. Di Manici, I. Di Bella, and T. Ragni

Valve-sparing excision of aortic valve papillary fibroelastoma
P. A. Vagefi, N. R. Bates, L. M. Ptaszek, M. S. Adams, and J. D. Walker

Pulmonary artery myxoma as a rare cause of dyspnea for a young female patient
S.-C. Huang, M.-L. Lee, S.-J. Chen, M.-Z. Wu, and C.-I Chang

Fungal prosthetic mitral valve endocarditis caused by Scopulariopsis species: Case report and review of the literature
A. M. B. Isidro, V. Amorosa, G. A. Stopyra, H. L. Rutenberg, W. H. Pentz, and C. R. Bridges

(continued on page 6A)
1183 Erosion of a retroesophageal subclavian artery by an esophageal prosthesis
F. V. Eynden, J. Devière, M. Laureys, and D. de Cannière

1185 Transaortic correction of tetralogy of Fallot and similar defects
A. S. Kumar, S. Talwar, and D. Velayoudam

1187 Aneurysmal sac located between right pulmonary artery and left atrium
A. Pac, U. Kızıltepe, O. Ozeke, Z. Golbasi, and M. Pac

1188 Use of the endoclamp device in a patient with a native mitral valve endocarditis and a previous arch replacement with a modified Griep technique
S. Mohammadi, P. Voisine, P. Mathieu, and F. Dagenais

1190 Ventricular assist device use for the treatment of acute viral myocarditis

1192 Off-pump pulmonary valve replacement with the new Shelhigh Injectable Stented Pulmonic Valve
P. A. Berdat and T. Carrel

1194 Transapical aortic valve implantation in humans

1196 Nourishing vascularization of a thymoma issued from a left internal thoracic artery graft
P. A. Thomas, F. Collart, C. Doddoli, V. Gariboldi, and G. Moulin

1198 Giant gastrointestinal stromal tumor of the esophagus presenting with dyspnea
A. Basoglu, E. Kaya, B. Celik, and L. Yildiz

1200 Stenotic bridging bronchus: A very rare entity
S. Topcu, S. T. Liman, H. T. Sarısoy, A. Babaoglu, and E. Ozker

1202 Aseptic mediastinal cyst caused by BioGlue 7 months after cardiac surgery
A. Szafrańek, S. R. Podila, W. Al-Khyatt, and E. N. Kulatilake

1204 Hiatal herniation of the pancreas: Diagnosis and surgical management

1205 Duopleural fistula as a consequence of Gorham-Stout syndrome: A combination of 2 rare conditions
R. Agrawal, I. Mohammed, and P. G. Reilly

1207 Diffuse idiopathic pulmonary neuroendocrine cell hyperplasia and a typical carcinoid tumor

Cover Photograph

Intraoperative view of an unusually large aneurysm of the right coronary artery (A) with a fistula into the right ventricle. The aneurysm was opened (B) and resected. The fistula was visualized and closed under direct vision. The right coronary artery was bypassed. The patient had an uneventful recovery.

Pankaj Saxena
