(Current Biology 25, 455–466; February 16, 2015)

It has been brought to the authors' attention that some of the data presented in Figure 3D of this article were duplicated across genotypes. We have confirmed that graphs were indeed inadvertently mixed up during the final figure preparations. In addition, the correct n value for the oviposition experiment in Figure 3D is n = 5, not n = 6 as originally stated. The article has been corrected online to include an updated and corrected version of Figure 3. The authors apologize for any confusion these errors may have caused.
