Efficient Differentiation of Human Pluripotent Stem Cells to Endothelial Progenitors via Small-Molecule Activation of WNT Signaling

Xiaojun Lian, Xiaoping Bao, Abraham Al-Ahmad, Jialu Liu, Yue Wu, Wentao Dong, Kaitlin K. Dunn, Eric V. Shusta, and Sean P. Palecek*

*Correspondence: palecek@engr.wisc.edu http://dx.doi.org/10.1016/j.stemcr.2014.12.011

(Stem Cell Reports 3, 804–816, November 11, 2014)

The Supplemental Information originally published with this Article contained two inadvertent figure duplications. A revised PDF has now been published online. We apologize for any inconvenience this may have caused.

Involvement of ER Stress in Dysmyelination of Pelizaeus-Merzbacher Disease with PLPI Missense Mutations Shown by iPSC-Derived Oligodendrocytes

Yuko Numasawa-Kuroiwa, Yohei Okada,* Shinsuke Shibata, Noriyuki Kishi, Wado Akamatsu, Masanobu Shoji, Atsushi Nakanishi, Manabu Oyama, Hitoshi Osaka, Ken Inoue, Kazutoshi Takahashi, Shinya Yamanaka, Kenjiro Kosaki, Takao Takahashi, and Hideyuki Okano*

*Correspondence: yohei@a6.keio.jp (Y.O.), hidokano@a2.keio.jp (H.O.) http://dx.doi.org/10.1016/j.stemcr.2014.12.010

(Stem Cell Reports 2, 648–661, May 6, 2014)

The article was printed with an error in the Experimental Procedures. The gift of the antibody PLP1 was wrongly attributed to Inoue; the antibody was gifted by Masayuki Itoh (National Center of Neurology and Psychiatry, Japan). Dr. Itoh should also have been included in the Acknowledgements. The corrected article is available online. We apologize to Dr. Itoh for the omission.
