

MASTER SUBJECT INDEX

Abrin, binding to HeLa cells	89 (1978) 233
Absorption spectroscopy	84 (1977) 296
of cytochrome <i>c</i> oxidase reduction, of oxygen	
of ferredoxin-NADP reductase	85 (1978) 340
of normal and Sétif hemoglobins	84 (1977) 375
of transient state of aquo-methemoglobin	81 (1977) 111
<i>see also</i> , Single cell absorption spectroscopy	
<i>P</i> ¹ -2-Acetamido-2-deoxy- α -D-glucopyranosyl <i>P</i> ² -dolichyl pyrophosphate, effect of bacitracin on synthesis	82 (1977) 215
Acetate, incorporation into acidic regions of adenovirus hexon protein	88 (1978) 237
Acetic anhydride, effect on ribosomes	87 (1978) 125
<i>N</i> -Acetoxy- <i>N</i> -4-acetylaminobiphenyl, binding to DNA	81 (1977) 101
<i>N</i> -Acetoxy-2-acetylaminofluorene, effect on DNA polymerase	86 (1978) 81
Acetylcholine	
accompaniment of presynaptic release by adenosine nucleotides	89 (1978) 51
effect on cyclic nucleotides in perfused rat livers	87 (1978) 196
receptor	
effect of myoblast fusion on synthesis	88 (1978) 327
-enriched membranes, binding of acetylcholine and excitability	81 (1977) 39
<i>see also</i> , Muscarinic receptor	
Acetylcholinesterase	
association with electric organ membranes	89 (1978) 317
effect of ecdysterone in cultured cells of <i>Drosophila melanogaster</i>	82 (1977) 345
kinetic properties after immobilization	88 (1978) 332
light-induced inhibition by methyl(acetoxymethyl)nitrosamine	82 (1977) 151
multiple forms in muscle cells	84 (1977) 257
release from erythrocytes by phospholipase C of <i>S. aureus</i>	82 (1977) 143
release from rat sympathetic ganglia	84 (1977) 253
Acetyl-CoA	
carboxylase, effect of palmityl-CoA and citrate on proteolysis	82 (1977) 85
dehydrogenase, effect of pent-4-enoate	88 (1978) 219
effect on pyruvate carboxylase	89 (1978) 1
<i>N</i> -Acetylglucosamine, effect on insulin synthesis and release	87 (1978) 115
<i>N</i> -Acetylglucosaminyl- <i>N</i> -acetylmuramyl-(pentapeptide)-pyrophosphoryl-undecaprenol, use as substrate for peptidoglycan synthesis	89 (1978) 141
<i>N</i> -Acetyl-glutamate	
deacylase, in rat liver	81 (1977) 13
relation with citrulline synthesis in rat liver mitochondria	86 (1978) 117
<i>N</i> -Acetyl- β -hexosaminidases A and B	
effect on oligosaccharides and glycopeptide core of glycoproteins	84 (1977) 379
α - <i>N</i> -Acetyl-ornithine L-glutamate <i>N</i> -acetyl transferase, in rat liver	81 (1977) 13
Acid lipase, of rat liver, effect of thyroxine	86 (1978) 45
Acriflarine, effect on oxidative phosphorylation in mitochondria	87 (1978) 87
Actin	
complex formation with adenylyl-imidophosphate and myosin subfragment 1	89 (1978) 169
interaction with aldolase	89 (1978) 276
subcellular distribution in platelets	90 (1978) 84
Actomyosin ATPase of chicken gizzard smooth muscle	86 (1978) 167
Adenine nucleotide translocase, evidence against role in ATP synthesis	87 (1978) 139
Adenine nucleotides, interaction with catecholamines	88 (1978) 283

Adenosine	
deaminase, of <i>Pseudomonas iodinum</i> IFO 3558	86 (1978) 174
effect on adenylate cyclase of turkey erythrocytes	81 (1977) 339
inhibition of fatty acid oxidation, effect on NAD/NADH system	83 (1977) 321
-5'-O-(3-thiotriphosphate) (ATP-γS), effect on adenylate cyclase triphosphatase (ATPase)	90 (1978) 157
effect of dibutyltin dichloride	82 (1977) 23
hysteretic changes in activity	89 (1978) 173
inhibitor of <i>Candida utilis</i> mitochondria	84 (1977) 129
kinetics of chloroplast coupling factor 1	89 (1978) 211
of chromaffin granule membranes	85 (1978) 254
of <i>Chromatium vinosum</i> chromatophores	85 (1978) 219
of chromatophores of <i>Rhodospirillum rubrum</i>	87 (1978) 257
of cytoplasmic microtubules	88 (1978) 197
of <i>Micrococcus lysodeikticus</i> and chloroplasts	86 (1978) 1
of myosin and actomyosin of chicken gizzard smooth muscle	86 (1978) 167
of rat brain, calcium-dependent phosphorylation	87 (1978) 261
see also,	
Chloroplast ATPase; Chromatophore ATPase; Coupling factor; Mitochondrial ATPase; Plasma membrane ATPase	
S-Adenosylmethionine	
decarboxylase	
presence of pyruvate	84 (1977) 33
subcellular localization in rat liver	84 (1977) 385
uptake by rat liver cells	90 (1978) 331
Adenovirus	
hexon protein incorporation of [¹⁴ C]acetate	88 (1978) 237
type 2, CD-study of hexon capsomeres	85 (1978) 52
Adenylate cyclase	
effect of ATP and GTP analogues on activation	90 (1978) 157
effect of chloride and azide on fluoride and guanylyl-imidodiphosphate stimulation	86 (1978) 230
effect of GTP	
on adrenaline inhibition in blood platelets	85 (1978) 167
-protein on adrenaline stimulation	83 (1977) 93
effect of heparin on lutropin activation	83 (1977) 263
excitability in <i>Dictyostelium discoideum</i>	89 (1978) 237
in normal and neoplastic human mammary tissue	82 (1977) 102
localization in sarcoplasmic reticulum of skeletal muscle and relation to calcium accumulation of rat liver	85 (1978) 149
effect of ethoxymethylene-ATP	81 (1977) 331
plasma membranes, effect of cytoplasmic factor	82 (1977) 273
of thyroid, effect of iodide	83 (1977) 33
of turkey erythrocytes, effect of adenosine and catecholamines	81 (1977) 339
sensitive to vasoactive intestinal polypeptide in guinea pig brain	83 (1977) 76
Adenylyl-imidodiphosphate, complex formation with actin and myosin subfragment 1	89 (1978) 169
Adipocytes, effect of noradrenaline on phosphatidate phosphohydrolase	87 (1978) 65
Adipose tissue	
effect of adrenaline on glycerol phosphate acyltransferase	90 (1978) 141
fatty acids release in obese mice	90 (1978) 132
ADP, ATP translocator protein, purification and reconstitution of adenine nucleotide transport	82 (1977) 363
ADP	
different states of aggregability of platelets	89 (1978) 227
role of membrane potential in binding to chloroplast coupling factor (CF ₁)	81 (1977) 105
transport in mitochondria, effect of ionophore A23187	86 (1978) 9
transport in plasma membranes, of <i>Rhodopseudomonas capsulata</i>	89 (1978) 21
see also, N-4-Azido-2-nitrophenylaminobutyl-ADP	

Adrenal	
cortex	
cytochrome <i>P</i> -450 in microsomes	89 (1978) 215
degradation of cyclic AMP	85 (1978) 77
effect of corticotropin and cyclic AMP on protein degradation	83 (1977) 307
gland, purification of cholesterol-binding protein	89 (1978) 283
Adrenaline	
effect of GTP on inhibition of adenylate cyclase	85 (1978) 167
effect on adenylate cyclase of turkey erythrocytes	81 (1977) 339
effect on glycerol phosphate acyltransferase	90 (1978) 141
effect on phosphate incorporation into phosphatidyl inositol	83 (1977) 267
-stimulated adenylate cyclase, effect of GTP-protein	83 (1977) 93
α -Adrenergic antagonists, effect on cyclic AMP, cyclic GMP and lipolysis in hamster fat cells	83 (1977) 225
β -Adrenergic hormones <i>see</i> , isoprotenerol	
β -Adrenergic receptors, visualization by fluorescent probes of β -blockers	85 (1978) 158
Adrenocorticotrophic hormone-secreting pituitary tumor, synthesis of β -endorphin and β -lipotropin	90 (1978) 353
Adrenocorticotropin (ACTH) <i>see</i> , corticotropin	
Adrenodoxin, a resonance raman spectroscopy study	84 (1977) 214
Affinity chromatography	
electrophoretic recovery from affinity matrix of albumin, ferritin and estradiol-16 α -glucuronide	87 (1978) 239
electrophoretic recovery from affinity matrix of sex hormone-binding globulin	87 (1978) 235
interaction of alcohol dehydrogenase with an immobilized NADH analogue	88 (1978) 167
of C-reactive protein and complement C1t	88 (1978) 172
of enzymes and whole cells using lectin-glycoprotein interactions	85 (1978) 119
of ferritin, electrophoretic desorption from adsorbent	83 (1977) 256
of heavy meromyosin	81 (1977) 81
of heavy meromyosin isoenzymes	83 (1977) 141
of histone H ₃	81 (1977) 419
of lipase and colipase	86 (1978) 179
of <i>N</i> ⁵ -methyltetrahydrofolate-homocysteine methyltransferase on cobalamine-Sepharose	85 (1978) 73
of nuclear protein kinase	84 (1977) 313
of pepsinogen	86 (1978) 33
of pyruvate dehydrogenase	85 (1978) 81
of RNA polymerase III	82 (1977) 77
of spermine synthase	90 (1978) 153
of thyrotrophin receptor	88 (1978) 292
on columns containing nucleic acids	88 (1978) 161
use of polyacrylamide activated with thiophosgene	83 (1977) 329
Age-related changes, in nematode aldolase and rat liver superoxide dismutase	84 (1978) 83
Agglutinin of platelet plasma membranes	90 (1978) 283
Agglutinin	
of <i>Ricinus communis</i> , interaction with concanavalin A	84 (1977) 391
of soybean, requirement of manganese and replacement by transition metals	82 (1977) 191
<i>see also</i> , <i>Ricinus communis</i> agglutinin	
L-Alanine, incorporation of ¹⁵ N by a linked enzyme system	81 (1977) 286
Albumin	
effect on aggregation of platelets	88 (1978) 317
effect on thromboxane A ₂	82 (1977) 321
electrophoretic recovery from affinity matrix	87 (1978) 239
NMR study of chloride binding site	86 (1978) 25
Alcohol dehydrogenase	
identification of blocked N-terminus	90 (1978) 324
interaction with coenzyme fragments	87 (1978) 80
interaction with immobilized NADH analogue	88 (1978) 167
of chicken liver	89 (1978) 293
pressure relaxation study of isomerisation	84 (1977) 25

Aldolase, interaction with G-actin	89 (1978) 276
Aldosterone-receptor binding, statistical test of binding model	88 (1978) 295
Alkanes, synthesis in sciatic nerve	82 (1977) 51
<i>n</i> -Alkylamine, EPR-study of binding to cytochrome <i>P</i> -450	83 (1977) 15
Allopurinol, effect on xanthine dehydrogenase of turkey liver	90 (1978) 305
2-Allyl-2-isopropylacetamide, effect on porphobilinogen oxygenase	84 (1977) 29
Alpha-fetoprotein, binding of estrogens	81 (1977) 363
Aluminium, calorimetric study of binding to ovotransferrin	83 (1977) 19
α -Amanitin	
effect on melanin synthesis in developing chicken retinal pigment epithelium	81 (1977) 161
effect on synthesis of small molecular weight RNA	78 (1978) 227
D-Amino acid oxidase	88 (1978) 231
Amino acid	
sequence analysis on solid phase,	
measurement of coupling capacity	81 (1977) 403
use of phenylene diisothiocyanate-activated glass beads	84 (1977) 187
starvation, effect on β -galactosidase synthesis in <i>Escherichia coli</i> K-12	81 (1977) 299
Amino acids, separation by HPLC after derivatization with phenylthiohydantoin	85 (1978) 68
γ -Aminobutyric acid	
release, effect of concanavalin A on black widow spider toxin stimulation	85 (1978) 241
transport protein of rat brain	89 (1978) 47
<i>L</i> - α -Amino- ϵ -caprolactamase, of <i>Cryptococcus laurentii</i>	89 (1978) 298
<i>N</i> ⁶ -[<i>N</i> -(6-Amino hexyl) carbamoylmethyl] NADH interaction with alcohol dehydrogenase	88 (1978) 167
5-Aminolevulinic acid synthetase, effect of 2-allyl-2-isopropylacetamide	84 (1977) 29
Aminopyrine, oxidation by metmyoglobin-cumene hydroperoxide system	89 (1978) 196
5'-AMP	
NMR-study of interaction with histidine and thyrotropin-releasing hormone	86 (1978) 57
role of outer membrane protein b in transport in <i>Escherichia coli</i>	85 (1978) 133
Amphiphilic proteins, binding of Triton X-100	81 (1977) 151
α -Amylase, effect of conjugation with dextran on circulatory lifetime	83 (1977) 249
Anesthetics, effect on succinate oxidase	90 (1978) 21
Angiotensin, effect on cyclic nucleotides in perfused rat livers	87 (1978) 196
1-Anilino-naphthalene-8-sulphonate	
binding to microsomes, effect on mono-oxygenase complex	86 (1978) 273
-glycophorin complex, effect of phospholipids of fluorescence	84 (1977) 159
Anterior lens capsule	
characterization of basement membrane collagen	85 (1978) 326
isolation of collagen-like components	85 (1978) 153
Antibiotic 11837 R.P., inhibition of transglycosylation reaction for peptidoglycan synthesis	89 (1978) 141
Antibodies	
against amino-terminal region of glycogen phosphorylase	82 (1977) 232
against histone H ₃ , use in affinity chromatography	81 (1977) 419
against lipotropin C-fragment	81 (1977) 427
Antimalarial activity of <i>S</i> -isobutyl adenosine	85 (1978) 264
Antimycin, effect on oxidation-reduction kinetics of cytochrome <i>b</i> in <i>Paracoccus denitrificans</i>	85 (1978) 179
α -1-Antitrypsin, comparison of genetic variants	88 (1978) 234
Aquomethemoglobin, absorption spectroscopy of transient state	81 (1977) 111
Arachidonic acid	
-containing liposomes, effect of α -tocopherol on permeability of glucose and chromate	82 (1977) 341
effect on 3',5'-cyclic AMP concentration in 3T3 fibroblasts	81 (1977) 415
Arginine	
-induced insulin and glucagon release from rat pancreas effect of phosphate	84 (1977) 141
phosphate, effect on pyruvate kinase	89 (1978) 301
Arrhenius plot of 5'-nucleotidase activity, effect of detergents	89 (1978) 153
Arsenate transport in <i>Micrococcus lysodeikticus</i> , effect of ionophores	81 (1978) 264
Ascorbic acid	
effect on biosynthesis of hydroxyproline-containing proteins	82 (1977) 135

removal of copper from ceruloplasmin	90 (1978) 174
Aspartate	
aminotransferase, primary structure of mitochondrial and cytoplasmic isoenzyme	83 (1977) 241
carbamoyltransferase, comparison with primary structure of ornithine carbamoyltransferase	81 (1977) 28
Assimilation regulatory protein of rabbit liver, identification as thioredoxin	82 (1977) 351
Astrocytoma cell line 1321 N1, effect of prostaglandin on cAMP and cGMP synthesis	90 (1978) 348
Astroglial cells, synthesis of glial fibrillary acidic protein	83 (1977) 207
ATP	
association with presynaptic acetylcholine release	89 (1978) 51
effect on 3-hydroxy-3-methyl-glutaryl-CoA reductase	82 (1977) 97
effect on tyrosine hydroxylase	84 (1978) 101
formation from poly(A) region of mRNA	87 (1978) 121
γ -4-(<i>N</i> -2-chloroethyl- <i>N</i> -methylamino) benzylamide, effect on mitochondrial ATPase	83 (1977) 11
-induced luminescence of chloroplasts	82 (1977) 159
role in glutamine synthetase action	90 (1978) 115
role of membrane potential in binding to chloroplast coupling factor (CF ₁)	81 (1977) 105
synthesis	
by energised protons	85 (1978) 9
role of adenine nucleotide translocase	78 (1978) 139
transport in mitochondria, effect of ionophore A23187	86 (1978) 9
see also, 2',3'- <i>O</i> -Ethoxymethylene-ATP; 2',3'-Isopropylidene adenosine 5'-dibromohydrogen succinate	
dATP, effect on DNA ligase of chick embryo	84 (1977) 156
Atractylate, effect on mitochondrial NADH dehydrogenase	89 (1978) 165
Aurintricarboxylic acid dimers, effect on ribosomes	83 (1977) 288
Autoradiography, enhanced detection of ³² P and ¹²⁵ I	82 (1977) 314
Axonal membranes, interaction with cardiotoxin	85 (1978) 103
Azide	
effect on fluoride and guanylyl-imidodiphosphate stimulated adenylate cyclase activity	86 (1978) 230
effect on methemocyanin of <i>Limulus polyphemus</i>	88 (1978) 358
<i>N</i> ,4-Azido-2-nitrophenylaminobutyl-ADP, effect on photophosphorylation	87 (1978) 318
<i>p</i> -Azidopuromycin, photoaffinity labelling of ribosomes	90 (1978) 203
Bacillomycin L , effect on bacterial cytoplasmic membranes	90 (1978) 36
Bacitracin	
effect on biosynthesis of dolichol derivatives	82 (1977) 215
effect on glycosylation of surface glycoprotein of <i>Halobacterium salinarium</i>	89 (1978) 37
synthetase	
preparation of the three complementary enzymes	84 (1977) 22
synthesis in <i>Bacillus licheniformis</i> ATCC 10716	81 (1977) 315
Bacterial membranes	
effect of mycosubtilin and bacillomycin L	90 (1978) 36
interaction between teichoic acid and peptidoglycan	88 (1978) 1
associated polypeptide of chromatophore membranes of <i>Rhodospirillum rubrum</i> G-9	88 (1978) 309
synthesis in <i>Protaminobacter ruber</i> and <i>Pseudomonas</i> AM1	85 (1978) 207
Bacteriophage	
λ	
DNA-membrane complex	90 (1978) 313
receptor protein of <i>E. coli</i> major outer membrane	88 (1978) 71
PM2, effect on β -galactoside transport in <i>Pseudomonas</i> BAL-31	81 (1977) 289
T-4	
-infected cells, incorporation of thymidine	87 (1978) 12
infection-triggered release of tempocholine	89 (1978) 29
Bacterio-opsin , trimer formation in purple membranes	90 (1978) 123
Bacteriorhodopsin	
<i>cis-trans</i> isomerization	82 (1977) 7
-containing membranes, generation of electrical current	81 (1977) 77
efficiency of energy conversion in halobacteria	82 (1977) 1

immobilization and orientation in purple membrane	89 (1978) 15
Bacteriorhodopsin	
intermediate steps of light-induced proton transport	87 (1978) 161
native structure within purple membrane	84 (1977) 1
proton transport	89 (1978) 333
by proteolytic fragments	90 (1978) 190
Basement membrane, characterization of collagen in anterior lens capsule	85 (1978) 326
Beauvericin, effect on purple membranes of <i>Halobacterium halobium</i>	81 (1977) 267
Benzodiazepine, <i>see</i> , Diazepam	
Benzo[a]pyrene 4,5-oxide reductase, effect of cytochrome <i>P</i> -450 on activity	88 (1978) 337
<i>p</i> -Benzyl-4-[1-oxo-2-(4-chlorobenzyl)-3-phenyl propyl]phenyl phosphonate (N-0164)	
effect on thromboxane synthase	82 (1977) 107
Bicarbonate, incorporation into lipids of chloroplasts	88 (1978) 192
Bilayer membranes, interaction of ganglioside GT ₁ with thyrotropin	86 (1978) 160
Bleomycin, NMR study of zinc binding	89 (1978) 187
Blood group	
glycolipids, characterization in meconium	87 (1978) 283
A-B-active glycopeptides of human erythrocyte membranes	89 (1978) 111
A-B-H	
Bombay and Parabombay individuals, activity of 2- α -L-fucosyltransferase	84 (1977) 74
glycosyltransferases in sera and erythrocyte membranes of Hz and Hm phenotypes	90 (1978) 233
A-H fucolipids	90 (1978) 293
Bone	
cells, presence of latent collagenase	88 (1978) 53
matrix, presence of <i>O</i> -phosphothreonine in phosphoproteins	89 (1978) 107
Bowman-Birk inhibitor of soybean	90 (1978) 89
Brain membranes	
binding of diazepam and flunitrazepam	87 (1978) 199
binding of haloperidol and spiroperidol	87 (1978) 152
Branched chain 2-oxo-acid dehydrogenase	90 (1978) 183
Bromide, effect on oxygen affinity of hemoglobin	90 (1978) 247
<i>p</i> -Bromophenacyl bromide, effect on histidine residue of crotoxin	87 (1978) 295
Brush border membranes, of suckling rat intestine, presence of lactase	84 (1977) 233
2,3-Butanedione, effect on porphobilinogen deaminase	90 (1978) 47
<i>n</i> -Butanol, effect on succinate oxidase	90 (1978) 21
Caffeine	
effect on <i>N</i> -acetylglucosamine-stimulated insulin release	87 (1978) 115
effect on poly(ADP-ribose) polymerase	88 (1978) 144
Calcium	
accumulation in sarcoplasmic reticulum, relation to adenylate cyclase	85 (1978) 149
-binding properties of cardiac and skeletal muscle	81 (1977) 381
binding protein	
effect of cortison of intestinal concentration in rat	82 (1977) 115
localization in sarcoplasmic reticulum membranes	90 (1978) 215
binding proteins	88 (1978) 80
-binding subunit of myosin light chain kinase	90 (1978) 301
effect on ADP-induced aggregability of platelets	89 (1978) 227
effect on ATPase activity of chloroplast coupling factor 1	89 (1978) 211
effect on chlorophyll- <i>a</i> -protein	89 (1978) 201
effect on interferon synthesis in cultured human cells	87 (1978) 303
effect on membrane-dependent processing of prelactogen	84 (1977) 115
effect on microtubules assembly from tubulin of Ehrlich ascites tumour cells	89 (1978) 157
effect on myosin light chain kinase	88 (1978) 242
γ -hydroxy butyrate cotransport in mitochondria, effect of lanthanum	84 (1977) 135
NMR study of binding to parvalbumin	87 (1978) 191
replacement by europium in concanavalin A	87 (1978) 69

release from rod outer segment membranes, effect of photoexcitation	81 (1977) 229
role in myosin 'regulatory' light chains	81 (1977) 386
transport	
effect of <i>N</i> -ethylmaleimide in mitochondria	87 (1978) 186
effect of phagocytosis in polymorphonuclear leucocytes	82 (1977) 283
effect of phosphate in mitochondria	83 (1977) 155
in inside-out erythrocyte membranes	89 (1978) 78
in lymphocytes	88 (1978) 305
in mitochondria, effect of Ruthenium Red	81 (1977) 142
in mitochondria, kinetic measurement in situ	82 (1977) 197
in synaptosomal membranes	89 (1978) 223
relation to glutamate transport in rat liver mitochondria	85 (1978) 25
Calorimetry	
of interaction of coenzyme fragments with dehydrogenases	87 (1978) 80; 87 (1978) 83
of iron and aluminium binding to ovotransferrin	83 (1977) 19
Calsequestrin, localization in sarcoplasmic reticulum membranes	90 (1978) 215
Capsomeres of adenovirus type 2, a CD-study	85 (1978) 52
Carbamoyl-phosphate synthase relation with citrulline synthesis in rat liver mitochondria	86 (1978) 117
Carbohydrate uptake by <i>Escherichia coli</i> , role of <i>ccr</i> -gene products	89 (1978) 329
Carbon dioxide release from malate and aspartate decarboxylation, reassimilation by PEP carboxylase	82 (1977) 288
Carbon monoxide, kinetics of reaction with hemoglobin in erythrocytes	86 (1978) 209
Carbonic anhydrase, proton exchange in manganese-containing enzyme	87 (1978) 92
Carboxin, effect on higher plant mitochondria	85 (1978) 99
DD-Carboxypeptidase-transpeptidase of <i>Streptomyces</i> , effect on penicillin	88 (1978) 147
Cardiolipin, metabolism in <i>Bacillus subtilis</i>	89 (1978) 131
Cardiotoxin of <i>Naja mossambica mossambica</i> , interaction with phospholipids	85 (1978) 103
Carnitine acetyltransferase, effect on tris(hydroxymethyl)-aminomethane and its derivatives	86 (1978) 99
β -Carotene synthesis, in <i>Rhodospirillum rubrum</i>	89 (1978) 248
Cartilage cells	
presence of collagen type I at the articular surface in chickens	85 (1978) 259
presence of protein disulphide isomerase	88 (1978) 46
Catabolite inactivation of malate dehydrogenase without synthesis of specific proteins	85 (1978) 233
Catalase	
absence from chicken polymorphonuclear leucocytes	81 (1977) 73
activity of chloroplasts, effect of washing and osmotic shock	84 (1977) 221
-containing nucleoprotein of baker's yeast	85 (1978) 305
effect of chloride	83 (1977) 281
effect of conjugation with dextran on circulatory lifetime	83 (1977) 249
hydrophobic chromatography	87 (1978) 232
presence in matrix of rat-heart mitochondria	89 (1978) 126
Catecholamines	
effect on iodide transport in thyroid cells	88 (1978) 287
interaction with adenine nucleotides	88 (1978) 283
Cathepsin D, effect on collagen	88 (1978) 41
Cell differentiation, poly(A)-containing RNA in neuroblastoma cells	83 (1977) 163
Cell division cycle	
3',5'-cyclic GMP metabolism in <i>Tetrahema pyriformis</i>	81 (1977) 311
phosphorylation of histone H1	84 (1977) 163
synthesis of protein in <i>Physarum polycephalum</i>	84 (1977) 317
Cell enzyme activity, measurement by cytofluorimetry	81 (1977) 179
Cell-free system	
effect of modeccin on protein synthesis	85 (1978) 65
effect of <i>Penicillium roqueforti</i> toxin	88 (1978) 341
effect of phosphorylated sugars	88 (1978) 37
synthesis of cytochrome <i>P</i> -450	89 (1978) 337
synthesis of β -endorphin from ACTH mRNA	84 (1978) 105
synthesis of globin, effect of colicin E ₃	89 (1978) 121

synthesis of 6-hydroxy-D-nicotine oxidase	86 (1978) 243
synthesis of prelactogen and processing to lactogen	84 (1977) 115
translation of encephalomyocarditis virus RNA	87 (1978) 7
translation of TYMV RNA	86 (1978) 268
Cell membranes	
effect of adsorption of viruses on microviscosity	85 (1978) 245
modulation of cholesterol levels	85 (1978) 317
Cellulose biosynthesis, effect of coumarin	86 (1978) 259
Centrifugation, <i>see</i> Density gradient centrifugation; Zonal centrifugation	
Ceruloplasmin, removal of copper	90 (1978) 174
Cesium, effect on oxygen affinity of hemoglobin	90 (1978) 247
Chemiluminescence, inhibition by prostaglandins in macrophages	89 (1978) 136
Chemotaxis, role of guanylate cyclase	90 (1978) 119
Chloride	
effect on catalase	83 (1977) 281
effect on fluoride- and guanylyl-imidodiphosphate-stimulated adenylate cyclase activity	86 (1978) 230
effect on oxygen affinity of hemoglobin	90 (1978) 247
NMR study of binding to albumin	86 (1978) 25
2',3'-O-[4-(N-2-Chloroethyl-N-methylamino)-benzylidene]uridine-5'-methylphosphate	90 (1978) 103
Chlorophyll	
-a-protein, effect of calcium on orientation	89 (1978) 201
-aII, recovery kinetics after photo-oxidation	90 (1978) 10
fluorescence, effect of magnesium in chloroplast photosystem II particles	81 (1978) 259
protein complex, light-induced electron transport	88 (1978) 275
Chloroplast	
ATPase role in oleoyl phosphate-dependent ATP synthesis	82 (1977) 307
coupling factor (CF ₁)	
effect of pyridoxal phosphate	85 (1978) 211
effect of quercetin	85 (1978) 215
kinetics of ATPase activity	89 (1978) 211
role of arginine residue	84 (1977) 304
role of membrane potential in binding of adenine nucleotides	81 (1977) 105
X-ray scattering and circular dichroism	87 (1978) 265
Chloroplasts	
ATP-induced luminescence	82 (1977) 159
control of NADP-malate dehydrogenase by ferredoxin-thioredoxin system	81 (1977) 253
effect of 3'-aryl-N ³ -ADP on photophosphorylation and electron transport	87 (1978) 318
effect of redox potential on light-induced ΔA_{518}	87 (1978) 329
effect of washing and osmotic shock on catalase activity	84 (1977) 221
hydrogen peroxide synthesis by photosystem II	86 (1978) 143
incorporation of bicarbonate into lipids	88 (1978) 192
oscillation of thermoluminescence at medium-low temperature	85 (1978) 193
photo-oxidation of chlorophyll-aII	90 (1978) 10
picosecond fluorescence study	83 (1977) 316
relation between redox-state of P700 and photosystem I-mediated proton transport	81 (1977) 65
thermoluminescence study of oxygen-evolving system	82 (1977) 303
Cholecalciferol, <i>see</i> Vitamin D	
Cholesterol	
-binding protein, of adrenal gland	89 (1978) 283
effect of sensitization with Folch's proteolipid in brain	86 (1978) 29
modulation of levels in cell membranes	85 (1978) 317
<i>see also</i> , Hydroxycholesterol	
Cholic acid-binding proteins, of rat liver	82 (1977) 255
Cholinergic drugs, effect on 3-quinuclidinyl benzilate binding to muscarinic receptor	84 (1977) 110
Chondrocytes, effect of pyrophosphate on collagen synthesis	89 (1978) 230
Chromaffin granule membranes, localization of synaptin	82 (1977) 175

Chromatin	
conformation of DNA and protein	82 (1977) 63
distribution of nuclease-sensitive sites	82 (1977) 58
of <i>Dictyostelium discoideum</i> , DNA repeat length	84 (1977) 63
localization of poly(ADP-ribose) polymerase	86 (1978) 85
NMR study of sodium binding	89 (1978) 183
phosphorylation of proteins	89 (1978) 93
repeat length in cortical neurons during development	90 (1978) 167
structure of <i>Physarum polycephalum</i>	90 (1978) 223
Chromatography, <i>see</i> Affinity chromatography; High pressure liquid chromatography; Hydrophobic chromatography; Thin layer chromatography	
Chromatophore, ATPase, role in oleoyl phosphate-dependent ATP synthesis	82 (1977) 307
Chromatophore, membranes, localization of light-harvesting polypeptide	88 (1978) 309
Chromatophores	
measurement of electrical potential using ion-selective electrodes	86 (1978) 294
of <i>Rhodospseudomonas sphaeroides</i> ,	
electrical capacitance values	89 (1978) 205
proton and electron transport	84 (1977) 299
of <i>Rhodospirillum rubrum</i> , isolation of oligomycin-sensitive ATPase complex	87 (1978) 257
relation between photophosphorylation and electron transport	87 (1978) 323
Chromosomal proteins, <i>see</i> Histone; Non-histone chromosomal proteins	
Chymotrypsin	
effect of nitration on specificity	81 (1977) 129
hydrophobic chromatography	87 (1978) 232
A, hydrophobic chromatography	87 (1978) 232
Cinnamic acid, electrophilic intermediate in microsomal hydroxylation	85 (1978) 333
Circular dichroism (CD)	
interaction between poly(AU) and peptide Lys-Trp-Lys	88 (1978) 33
of chloroplast coupling factor (CF ₁)	87 (1978) 265
of diphtheria toxin and fragment A	89 (1978) 59
of echinomycin-DNA complex	88 (1978) 349
of hexon capsomeres of adenovirus type 2	85 (1978) 52
of interaction of azide with methemocyanin	88 (1978) 358
of <i>lac</i> repressor binding to poly(A)	83 (1977) 107
of neurotoxins of elapidae	83 (1977) 202
of normal and Sétif hemoglobins	84 (1977) 375
of phospholipid interaction with glycophorin	84 (1977) 159
of ribosomal proteins L7/L12 and halophile ribosomal acidic proteins	85 (1978) 279
of troponin hybrid complexes	83 (1977) 131
<i>see also</i> , Magnetic circular dichroism (MCD)	
Citraconic anhydride, effect on lipase-colipase complex	84 (1978) 79
effect on proteolysis of acetyl-CoA carboxylase	82 (1977) 85
lyase ligase, of <i>Rhodospseudomonas gelatinosa</i>	88 (1978) 67
transport, in submitochondrial particles	81 (1977) 249
Citrulline synthesis, relation with <i>N</i> -acetylglutamate concentration and carbamoyl-phosphate synthase activity	86 (1978) 117
Cleland's reagent, effect on nitrate reductase	87 (1978) 212
Clupeine, phosphorylation site of cyclic AMP-dependent protein kinase	86 (1978) 92
CMP-ribonuclease A complexes, study by infrared spectroscopy	81 (1977) 183
Coat protein, stripping from RNA in tobacco mosaic virus by dimethylsulphoxide	87 (1978) 17
Cobalamine-Sepharose, affinity chromatography of <i>N</i> ⁵ -methyltetrahydrofolate-homocysteine methyltransferase	85 (1978) 73
Cobalt-containing superoxide dismutase, electron paramagnetic resonance study	89 (1978) 83
Colicin E ₃	
effect on cell-free synthesis of globin	89 (1978) 121
role of 50 S ribosomal subunit on activity	83 (1977) 293
Colipase	
immobilization for use in affinity chromatography	86 (1978) 179

interaction with lipase and triglycerides	83 (1977)	23
NMR study of tyrosine and histidine residues	85 (1978)	271
effect of cathepsin D	88 (1978)	41
isolation of crosslinked peptide	87 (1978)	251
-like components, of anterior lens capsule	85 (1978)	153
of bovine anterior lens capsule basement membranes	85 (1978)	326
synthesis, effect of pyrophosphate	89 (1978)	230
-synthesising tissue, presence of protein disulphide isomerase	88 (1978)	46
type I, presence in chicken articular cartilage	85 (1978)	259
type III, in osteogenesis imperfecta	82 (1977)	251
Collagenase, of embryonic chick bones	88 (1978)	53
Colony stimulating factor, of human lung cell culture	90 (1978)	279
Complement		
C1q, effect of 2,2'-dipyridyl on release from macrophages	90 (1978)	218
C1t, purification by affinity chromatography	88 (1978)	172
Concanavalin A		
effect on black widow spider toxin stimulation of GABA release	85 (1978)	241
effect on cap formation	90 (1978)	69
effect on capsid glycoproteins of rotavirus	87 (1978)	26
interaction with agglutinin of <i>Ricinus communis</i>	84 (1977)	391
replacement of europium for calcium	87 (1978)	69
Copper		
cytochrome <i>c</i> , luminescence properties	88 (1978)	273
removal from ceruloplasmin	90 (1978)	174
thermistor analysis with use of immobilized urease	85 (1978)	203
Corticosteroid-binding globulin, binding of cortisol and progesterone	86 (1978)	61
Corticotropin		
effect on protein degradation in adrenal cortex	83 (1977)	307
mRNA, translation product containing corticotropin and β -endorphin sequences	84 (1977)	105
Cortisol		
binding to corticosteroid-binding globulin	86 (1978)	61
effect on vitamin D metabolism in rat	82 (1977)	115
Coumarin, effect on cellulose biosynthesis	86 (1978)	259
Coupling factor, <i>see</i> Adenosine triphosphatase (ATPase); Chloroplast coupling factor (CF ₁)		
Coupling factors, identification as glycoproteins	86 (1978)	1
C-reactive protein, purification by affinity chromatography	88 (1978)	172
Crotoxin, chemical modification of histidine and lysine residues	87 (1978)	291
Crystal structure, of two variants of trypsinogen	90 (1978)	265
Crystallization		
of adenosine deaminase	86 (1978)	174
of maltodextrin phosphorylase	85 (1978)	91
of NADPH-adrenodoxin reductase	82 (1977)	201
of ribosomal proteins L7/L12 of <i>E. coli</i>	88 (1978)	300
Cumene hydroperoxide-metmyoglobin, oxidation of aminopyrine	89 (1978)	196
Cyanide		
NMR study of binding to myoglobin and cytochrome <i>c</i>	81 (1977)	57
X-ray absorption spectroscopy of binding to cytochrome <i>c</i> oxidase	84 (1977)	287
3',5'-Cyclic AMP		
analysis of biological degradation by thin-layer chromatography	85 (1978)	77
effect of α -adrenergic antagonists in hamster fat cells	83 (1977)	225
effect of arachidonic acid in 3T3 fibroblasts	81 (1977)	415
effect of fusidic acid	86 (1978)	219
effect of hormones in perfused rat livers	87 (1978)	196
effect of microtubules on β -adrenergic stimulation	90 (1978)	69
effect of temperature change on synthesis	90 (1978)	239
effect of thyrotropin in porcine thyroid cells	84 (1977)	191
effect on biosynthesis of cytochrome oxidase in yeast	87 (1978)	52

- effect on guanylate cyclase 90 (1978) 119
 effect on protein synthesis 83 (1977) 68
 in *dna-B* mutants of *Escherichia coli* 83 (1977) 332
 in normal and neoplastic human mammary tissue 82 (1977) 102
 phosphodiesterase
 immuno-histochemical characterization in *Dictyostelium discoideum* 84 (1977) 174
 in normal and neoplastic human mammary tissue 82 (1977) 102
 phosphorylation of myosin-comigrating polypeptide in *Dictyostelium discoideum* 88 (1978) 322
 relation with protein kinase activity 90 (1978) 127
 subcellular distribution in rat liver 83 (1977) 253
 synthesis, effect of prostacyclin (PGI₂) and prostaglandin endoperoxide analogues 90 (1978) 348
see also, Dibutyl 3',5'-cyclic AMP
- 3',5'-Cyclic GMP
 effect of α -adrenergic antagonists in hamster fat cells 83 (1977) 225
 effect of fusidic acid 86 (1978) 219
 effect of hormones in perfused rat livers 87 (1978) 196
 in normal and neoplastic human mammary tissue 82 (1977) 102
 metabolism, in synchronized *Tetrahema pyriformis* 81 (1977) 311
 receptors in *Dictyostelium discoideum* 90 (1978) 261
 relation with rat uterus contractility 86 (1978) 183
 synthesis, effect of prostacyclin (PGI₂) and prostaglandin endoperoxide analogues 90 (1978) 348
- Cyclic photophosphorylation, role of oxygen 82 (1977) 297
- Cycloheximide, effect on rRNA synthesis in amino acid-starved ascites tumor cells 88 (1978) 135
- Cyclopentanoid analogs of trilauroidin 81 (1977) 97
- Cystathionase, role of arginine in active center 81 (1977) 335
- Cysteine, effect on nitrate reductase 87 (1978) 212
- Cystinosis, levels of glutathione and thioredoxin in fibroblasts 87 (1978) 61
- Cytochalasin B, binding to glucose transport related plasma membrane glycoprotein 83 (1977) 71
- Cytochrome
a, role in proton transport of mitochondrial membranes 87 (1978) 180
b, oxygen-induced reduction in *Paracoccus denitrificans* 85 (1978) 179
*b*_s, incorporation into liposomes 87 (1978) 269
c
 domain of electron transfer 86 (1978) 14
 NMR study of cyanide-binding 81 (1977) 57
- c* oxidase
 covalent binding of 4-nitrophenylazide derivative of cytochrome *c* 81 (1977) 147
 effect of crosslinking on function 85 (1978) 30
 effect of cyclic AMP on biosynthesis 87 (1978) 52
 EPR study 84 (1977) 388
 incorporation into liposomes 85 (1978) 175
 intermediates in oxygen reduction 84 (1977) 296
 properties after incorporation into phospholipid membranes 84 (1977) 291
 relation to proton transport 88 (1978) 268
 role in proton transport in submitochondrial particles 90 (1978) 178
 subcellular localization of synthesis 81 (1977) 7
 X-ray absorption spectroscopy of cyanide binding 84 (1977) 287
- c* reductase-ubiquinone complex 83 (1977) 99
- c*₂, role in respiratory photosynthetic chain *Rhodospseudomonas capsulata* 86 (1978) 151
- c*₃, effect of ferredoxin on oxidation-reduction properties in *Desulphovibrio gigas* 81 (1977) 275
- c*-553, relation with plastocyanin in *Scenedesmus acutus* 85 (1978) 337
- c*, *see also*, Copper cytochrome *c*; Ferric cytochrome *c*; Iso-I-cytochrome *c*
- P-450
 of adrenal cortex microsomes 89 (1978) 215
 binding of spin-labelled *n*-alkylamines 83 (1977) 15
 EPR study 86 (1978) 213
 role in activity of benzo[a]pyrene 4,5-oxide reductase 88 (1978) 337

role of endoplasmic reticulum in biosynthesis	88 (1978) 62
role in formation of hydroxycholesterol	85 (1978) 35
study of oxygen ligand	88 (1978) 127
synthesis in cell-free system of rat liver	89 (1978) 337
Cytofluorimetry, measurement of enzyme activity in intact cells	81 (1977) 179
Cytokinin, <i>see</i> , <i>N</i> ⁶ -[Δ^2 -Isopentenyl]adenine	
D600, effect on 3-quinuclidinyl benzilate binding to muscarinic receptor	84 (1977) 110
Deazaflavoproteins, mechanism of redox biocatalysis	84 (1977) 5
Dehydrogenase, <i>see</i> Branched chain 2-oxo-acid dehydrogenase	
Delayed hyper sensitivity, immunoadjuvant activity of phospholipids	83 (1977) 237
5-Demethoxyubiquinone-6, synthesis from 3-hexaprenyl-4-hydroxybenzoate in yeast mitochondria	85 (1978) 249
Density gradient centrifugation	
in glycerol, purification of glycogen particles	81 (1977) 166
of bacteriophage λ DNA-membrane complex	90 (1978) 313
Deoxycholate	
effect on protein disulphide isomerase	88 (1978) 49
effect on reaction kinetics of 5'-nucleotidase	89 (1978) 153
2-Deoxyglucose-6-phosphate, characterization of specific phosphatase	83 (1977) 245
Deoxynucleoside diphosphate : oligonucleotide deoxynucleotidyl transferase, <i>see</i> dNDP-deoxynucleotidyl transferase	
Deoxyribonucleotides, effect on thymidine incorporation in bacteriophage T4-infected cells	87 (1978) 12
Dermatosparaxis, procollagen peptidase cleavage site	89 (1978) 279
Development	
changes in histone acetylation and RNA synthesis	85 (1978) 301
chromatin repeat length of cortical neurons	90 (1978) 167
dexamethasone-binding proteins of rat liver cytoplasm	82 (1977) 329
effect of α -amanitin on melanin synthesis in chicken retinal pigment epithelium	81 (1977) 161
Dexamethasone	
-binding proteins of rat liver cytoplasm	82 (1977) 329
effect on 3-hydroxy-3-methylglutaryl CoA reductase in rat hepatocytes	83 (1977) 89
effect on mouse mammary tumor virus RNA synthesis from chromatin of infected cells	84 (1977) 266
Dextran, effect of conjugation to α -amylase or catalase on circulatory lifetime	83 (1977) 249
Diabetes	
glycerol phosphate acyltransferase activity in rat livers	84 (1977) 229
levels of somatostatin in dog plasma	81 (1977) 69
Diacylglyceryl-(3)-O-4'-(<i>N,N,N</i> -trimethyl)-homoserine in <i>Chlamydomonas reinhardtii</i>	88 (1978) 201
1,3-Diamino-2-propanol, effect on rat liver regeneration	89 (1978) 307
Diazepam	
binding to brain membranes	87 (1978) 199
binding to rat brain sections	82 (1977) 368
Dibromothymoquinone, effect on hydrogen peroxide synthesis in chloroplast lamellae	86 (1978) 143
Dibutyltin dichloride, effect on thiol compounds	82 (1977) 23
Dibutyryl 3',5'-cyclic AMP	
effect on <i>N</i> -acetylglucosamine-stimulated insulin release	87 (1978) 115
effect on protein degradation in adrenal cortex	83 (1977) 307
effect on release of gonadotropin from rat pituitary	83 (1977) 222
Dicarboxylate transport in mitochondria	89 (1978) 161
2,4-Dichlorophenoxyacetate, cellular mechanism of induction of myopathy	82 (1977) 219
3-(3,4-Dichlorophenyl)-1,1-dimethylurea, effect on hydrogen peroxide synthesis in chloroplast lamellae	86 (1978) 143
Dictyosomes of brown alga, isolation of flucosyl transferase	81 (1977) 33
Diethyldithiocarbamate, removal of copper from ceruloplasmin	90 (1978) 174
Diethylene triaminepentaacetic acid (DTPA), removal of copper from ceruloplasmin	90 (1978) 174
Diethylmitrosamine, effect on UDP-glucuronyltransferase of Gunn rat liver	87 (1978) 207
Differentiation of lens cells, changes in plasma membrane proteins	83 (1977) 301
Dihydrodicolinate synthase, role in lysine biosynthesis in higher plants	84 (1977) 236

- 5,6-Dihydro-2-methyl-1,4-oxathin-3-carboxanilide, *see* Carboxin

- Dolichol
 derivatives, effect of bacitracin on biosynthesis 82 (1977) 215
 phosphate, synthesis by subcellular fractions of rabbit and chicken liver 81 (1977) 411

Ecdysone, radioimmunoassay	81 (1977) 319
Ecdysterone, induction of acetylcholine sterase in cultured cells of <i>Drosophila melanogaster</i>	82 (1977) 345
Ecdysterone-induced protein 0.29, preparation of antiserum	89 (1978) 86
Echinomycin-DNA complex, circular dichroism study	88 (1978) 349
Ectosialyltransferase, effect of intracellular inhibitor of lymphocytes	81 (1977) 53
5,8,11,14-Eicosate traynoic acid, effect on thromboxane synthase	82 (1977) 107
Electric organ membranes, association of acetylcholinesterase	89 (1978) 317
Electrical current, generation in bacteriorhodopsin-containing membranes	81 (1977) 77
Electrical potential across energy-transducing membranes using ion-selective electrodes	86 (1978) 294
Electron microscopy (EM)	
of aurintricarboxylic acid action on ribosomes	83 (1977) 288
of basement membrane collagen	85 (1978) 326
of erythrocyte microvesicles	90 (1978) 289
of ferritin-conjugated protein A as an immunocytochemical reagent	85 (1978) 95
of microtubules assembled from tubulin of Ehrlich ascites tumour cells	89 (1978) 157
of ribosomal 16 S RNA protein S4 complex	84 (1977) 43
Electron paramagnetic resonance (EPR)	
of cobalt-containing superoxide dismutase	89 (1978) 83
of cytochrome <i>c</i> oxidase	84 (1977) 388
of metal-binding sites of serotransferrin and lactotransferrin	81 (1977) 371
of microsomal cytochrome <i>P</i> -450	86 (1978) 213
of myeloperoxidase in polymorphonuclear leukocytes	86 (1978) 37
of <i>n</i> -alkylamine binding to cytochrome <i>P</i> -450	83 (1977) 15
of nitrate reductase	90 (1978) 107
of nitrite reductase	81 (1977) 271
of plastocyanin reduction in non-aqueous media	82 (1977) 147
of quinone pair in succinate dehydrogenase-cytochrome <i>b</i> transmembrane region	82 (1977) 179
of reaction center of <i>Rhodospirillum rubrum</i>	81 (1977) 333
of tobacco mosaic virus protein	85 (1978) 171
role of free radicals in oxidation of aminopyrine	89 (1978) 196
Electron spin resonance (ESR)	
effect of gramicidin A on lipid membranes	90 (1978) 29
ionization of fatty acids in lipid membranes	89 (1978) 313
of immunoglobulin G	89 (1978) 191
of reaction center of <i>Rhodopseudomonas sphaeroide</i> :	85 (1978) 183
of tempocholine release from bacteriophage T4	89 (1978) 29
of ubisemiquinone in submitochondrial particles	81 (1977) 137
Electron transport	
between photosystems I and II	90 (1978) 15
effect of 3'-aryl- <i>N</i> ₃ -ADP	87 (1978) 318
in chlorophyll <i>a</i> -protein complex	88 (1978) 275
in chromatophores of <i>Rhodopseudomonas sphaeroides</i>	84 (1977) 299
in membranes	85 (1978) 9
relation with photophosphorylation in chromatophores	87 (1978) 323
role in photophosphorylation	87 (1978) 73
Electrophoresis	
desorption of ferritin from affinity column	83 (1977) 256
recovery of albumin, ferritin and estradiol-16 α -glucuronide from affinity matrix	87 (1978) 239
recovery of sex hormone-binding globulin from affinity matrix	87 (1978) 235
<i>see also</i> , Polyacrylamide gel electrophoresis; Two-dimensional gel electrophoresis	
Elongation factor	
I (EF-1), of silk gland of silk worm	82 (1977) 111
G (EF-G), localization of GTP-binding center	85 (1978) 283; 85 (1978) 287
Tu (EF-Tu), alteration in mocimycin-resistant mutant of <i>Escherichia coli</i>	81 (1977) 303
-Tu and -I (EF-Tu and -I), interchangeability in aminoacyl-tRNA binding to ribosomes	82 (1977) 237
Elongation factors, role as RNA-binding proteins	88 (1978) 21
Encephalomyocarditis virus RNA, translation in cell-free system	87 (1978) 7

Endonuclease	
<i>Eco</i> RI, optimization of activity	90 (1978) 341
of <i>Agrobacterium tumefaciens</i>	82 (1977) 69
use in mapping of DNA	89 (1978) 267
Endoplasmic reticulum	
biosynthesis of cytochrome P-450	88 (1978) 62
mannose incorporation in procollagen	87 (1978) 222
membranes, localization of newly synthesized glycoproteins	82 (1977) 359
Endotoxin, observation of clotting of <i>Limulus</i> lysate by measurement of pH	84 (1977) 275
β -Endorphin	
synthesis in ACTH-secreting pituitary tumor	90 (1978) 353
translation product of corticotropin mRNA	84 (1977) 105
[³ Car ¹ , ³ Leu ⁵]-Enkephalin, binding to opioid receptor	82 (1977) 325
(D-Ala ² , D-Leu ⁵)-Enkephalinamide, effect on release of growth hormone and prolactin	88 (1978) 208
Enkephalins biosynthesis	84 (1977) 195
Enzyme-linked immunoassay (ELISA) of myoglobin	90 (1978) 51
Epinephrine, <i>see</i> Adrenaline	
Ergot alkaloids, cell-free synthesis of 4-(<i>E</i> -4'-hydroxy-3'-methyl-but-2'-enyl)-L-tryptophan	82 (1977) 55
Erucic acid, metabolism in isolated liver cells	88 (1978) 353
Erythrocyte	
ghosts, microinjection of IgG into Friend erythroleukemic cells	83 (1977) 48
membrane proteins, crosslinking in β -thalassemia	85 (1978) 267
membranes	
effect of sialogangliosides	90 (1978) 149
2- α -L-fucosyltransferase in normal, 'Bombay' and 'Parabombay' individuals	84 (1977) 74
kinetics of calcium transport	89 (1978) 78
presence of blood group A, B and H glycosyl transferases	90 (1978) 233
use in purification of lectins	90 (1978) 145
microvesicles, segregation of membrane proteins	90 (1978) 289
Erythrocytes	
binding of hemoglobin to spectrin	85 (1978) 357
methemoglobin formation after glucose depletion	88 (1978) 247
NMR study of metabolism	82 (1977) 12
Estradiol	
-16 α -glucuronide, electrophoretic recovery from affinity matrix	87 (1978) 239
induction of specific protein in rat pineal cells	87 (1978) 45
17 β -Estradiol receptor	
complex, effect of RNA polymerase I	81 (1977) 91
transport from cytoplasm to nucleus in rat pituitary	81 (1977) 342
Estrogens	
binding to alpha-fetoprotein	81 (1977) 363
effect of peroxidases and ferricyanide	86 (1978) 163
Ethanol	
intoxication, effect on palmitic acid transport in rat liver Golgi apparatus	86 (1978) 53
oxidation, role of α -glycerophosphate oxidase	83 (1977) 285
Ethanolamine, use in affinity chromatography of pyruvate dehydrogenase	85 (1978) 81
Ethidium bromide, binding to microsomes, effect on mono-oxygenase complex	86 (1978) 273
Ethoxyformic anhydride, effect on lysine residues of crotoxin	87 (1978) 291
Ethoxymethylene-ATP, effect on adenylate cyclase	81 (1977) 335
Ethylenediaminetetraacetic acid (EDTA), removal of copper from ceruloplasmin	90 (1978) 174
<i>N</i> -Ethylmaleimide	
and mersalyl sensitive protein of pig heart mitochondria	84 (1977) 119
effect on calcium release of mitochondria	87 (1978) 186
effect on mitochondrial proton transport	90 (1978) 361
Europium, replacement for calcium in concanavalin A	87 (1978) 69
Experimental allergic encephalomyelitis, effect of sensitization with Folch's proteolipid on brain cholesterol	86 (1978) 29

FAD, prosthetic group of hydroxynitrile lyase	90 (1978) 255
Fat cells, uptake of triiodothyronine and thyroxine	83 (1977) 145
Fatty acid synthetase, localization of transferase sites	82 (1977) 139
Fatty acids	
effect of adenosine inhibition of oxidation on NAD/NADH system	83 (1977) 321
effect on triglyceride lipase of yeast mitochondria	85 (1978) 109
incorporation of bicarbonate in chloroplasts	88 (1978) 192
ionization in lipid membranes	89 (1978) 313
release from adipose tissue of obese mice	90 (1978) 132
synthesis	
by sciatic nerve	90 (1978) 336
by sub-cellular fractions of guinea pig liver	85 (1978) 237
Fatty acyl CoA synthetase, effect of insulin in perfused rat liver	84 (1977) 225
Ferredoxin	
-catalyzed cyclic photo-phosphorylation role of oxygen	82 (1977) 297
coenzyme of α -ketoacid oxido-reductase in <i>Halobacterium halobium</i>	83 (1977) 197
complex formation with nitrite reductase	90 (1978) 195
effect of oligomerization	89 (1978) 177
effect of rhodanese	84 (1977) 149
effect on cytochrome <i>c</i> , oxidation-reduction properties in <i>Desulphovibrio gigas</i>	81 (1977) 275
isolation from <i>Clostridia</i>	89 (1978) 219
-NADP reductase, absorption changes under light-pulse excitation in <i>Chlorella pyrenoidosa</i>	85 (1978) 340
presence of two types in <i>Petunia</i> species	85 (1978) 198
thioredoxin system of chloroplasts, control of NADP-malate dehydrogenase	81 (1977) 253
see also, Adrenodoxin	
Ferric cytochrome <i>c</i> , effect of dithionite	82 (1977) 293
Ferricyanide, effect on estrogens	86 (1978) 163
Ferrihemoproteins, photodissociation of complexes with nitric oxide	88 (1978) 124
Ferritin	
-conjugated protein A, cytochemical reagent for electron microscopy	85 (1978) 95
electrophoretic recovery from affinity matrix	83 (1977) 256; 87 (1978) 239
stoichiometry of iron oxidation	86 (1978) 136
Fibroblasts	
synthesis of glial fibrillary acidic-like protein	83 (1977) 212
transformed by SV40, post-translational modification of procollagen	85 (1978) 47
Fibronectin, isolation from human plasma and fibroblast culture medium	82 (1977) 227
Flavin hydroxylase, origin of sulfur removable by cyanide	81 (1977) 1
Flavoproteins, mechanism of redox biocatalysis	84 (1977) 5
Flunitrazepam, binding to brain membranes	87 (1978) 199
Fluorescence	
microscopy, of β -adrenergic receptors on cell surfaces	85 (1978) 158
polarization	
of cell membranes, effect of adsorption of viruses	85 (1978) 245
of 1,6-diphenyl-13,5-hexatriene incorporated in membranes	88 (1978) 187
of immunoglobulins	89 (1978) 89
of initiation factor 3 binding to 30 S ribosomal subunits	87 (1978) 103
spectroscopy	
of reaction of DNA with 3-methyl-chlolanthrene and 7,12-dimethylbenz[a]anthracene	82 (1977) 278
see also, Picosecond fluorescence; Pulse fluorescence	
temperature jump relaxation of the interaction between <i>p</i> -nitrophenyl- β -D-galactose and <i>Ricinus communis</i> agglutinin	85 (1978) 313
Fluoride-stimulated adenylate cyclase activity, effect of chloride and azide	86 (1978) 230
Folch's proteolipid, effect of sensitization on brain cholesterol	86 (1978) 29
Follitropin (FSH)	
receptors	
affinity of pregnant mare serum gonadotropin	90 (1978) 65
of rat testis	81 (1977) 359

Formate, binding to metmyoglobin	83 (1977) 148
<i>N</i> -Formyl methionyl tRNA, recognition of tetranucleotide codon	90 (1978) 162
Forsman glycolipids, of dog gastric mucosa	81 (1977) 157
Friend erythroleukemia cells, effect of hemin on the expression of β -globin genes	81 (1977) 366
Fructose	
-1,6-bisphosphatase	
heterogeneous distribution in rat liver tissue	83 (1977) 272
regulation of activity by anomeric specificity	84 (1977) 207
-1,6-diphosphate	
aldolase, of nematodes, age-related changes	84 (1977) 83
effect on cell-free protein synthesis	88 (1978) 37
effect on hemoglobin glycosylation	85 (1978) 86
Fucolipids of blood group A+H gastric mucosa	90 (1978) 293
Fucoproteins, degradation in plasma membranes of normal and regenerating liver	87 (1978) 135
Fucosterol-24,28 epoxide, intermediate in cholesterol synthesis from fucosterol in <i>Locusta migratoria</i>	82 (1977) 333
Fucosyltransferase	
in serum and erythrocyte membranes of normal, 'Bombay' and 'Parabombay' individuals	84 (1977) 74
of dictyosomes of brown alga <i>Fucus serratus</i>	81 (1977) 33
Fusidic acid, effect on cAMP and cGMP concentrations in rat	86 (1978) 219
Galactokinase	83 (1977) 45
D-Galactosamine, effect on rRNA processing	84 (1977) 48
Galactose	
effect on hemoglobin glycosylation	85 (1978) 86
microcalorimetric study of binding to ricin	81 (1977) 23
β -Galactosidase synthesis, in <i>Escherichia coli</i> K-12, during amino acid starvation	81 (1977) 299
β -Galactoside transport, in <i>Pseudomonas</i> BAL-31, effect of bacteriophage PM 2	81 (1977) 289
Ganglioside	
GM ₁ , susceptibility to neuraminidase	89 (1978) 321
GT ₁ , incorporated into bilayer membranes, interaction with thyrotropin	86 (1978) 160
Germination inhibitor, of <i>Dictyostelium discoideum</i>	89 (1978) 326
Glial fibrillary acidic	
-like protein in fibroblasts	83 (1977) 212
protein, in astroglial cell cultures	83 (1977) 207
Globin	
β , genes, effect of hemin on the expression in Friend cells	81 (1977) 366
mRNA	
effect of translational control RNA on translation	90 (1978) 209
synthesis of α and β species in fetal mouse erythroid cells	85 (1978) 43
thermal denaturation characteristics	84 (1977) 320
synthesis in cell-free system, effect of colicin E3	89 (1978) 121
Glucagon	
effect on cyclic nucleotides in perfused rat livers	87 (1978) 196
effect on glycogen synthase and glycogen phosphorylase in hepatocytes	82 (1977) 317
effect on synthesis of glycerolipids in rat hepatocytes	90 (1978) 57
effect on transport of protein kinase	90 (1978) 127
release from rat pancreas, effect of phosphate on arginine induction	84 (1977) 141
Glucocorticoid receptor	
binding of sex hormone analogs and relation to antigluconeogenic effect	82 (1977) 172
proteins	85 (1978) 1
Glucokinase, heterogeneous distribution in rat liver tissue	83 (1977) 272
7- β -D-Glucopyranosylzeatin, <i>see</i> Raphanatin	
Glucose	
dehydrogenase, use of immobilized enzyme in automated analysis	81 (1977) 326
effect on hemoglobin glycosylation	85 (1978) 86
effect on potassium transport in islets of Langerhans	83 (1977) 151

inactivation of malate dehydrogenase without synthesis of specific proteins	85 (1978) 233
-6-phosphate	
dehydrogenase-deficient erythrocytes, effect of aging on NADP(H)-binding protein	82 (1977) 223
effect on cell-free protein synthesis	88 (1978) 37
effect on hemoglobin glycosylation	85 (1978) 86
transport-related plasma membrane glycoprotein of fat cells	83 (1977) 71
Glutamate	
effect on <i>N</i> -acetylglutamate synthesis	86 (1978) 117
transport	
in mitochondria, effect of pyruvate	85 (1978) 321
relation to calcium transport in rat liver mitochondria	85 (1978) 25
Glutamine synthetase, role of magnesium and ATP	90 (1978) 115
γ -Glutamyltranspeptidase, in hepatocytes	85 (1978) 310
Glutathione	
entrapment of electrophilic intermediate in hydroxylation of cinnamic acid	85 (1978) 333
(synthetase), in fibroblasts of patients with 5-oxoprolinaria and cystinosis	87 (1978) 61
transport from rat liver	86 (1978) 89
Glycan, characterization of branching type by NMR	89 (1978) 149
Glycerol phosphate acyltransferase	
effect of adrenaline	90 (1978) 141
Glycerol phosphate acyltransferase	
effect of insulin in perfused rat liver	84 (1977) 225
Glycerol phosphate acyltransferase	
in livers of diabetic rats	84 (1977) 229
α -Glycerophosphate oxidase, role in α -glycerophosphate shuttle during ethanol oxidation	83 (1977) 285
Glyceryl monooleate, effect on erythrocyte membranes	90 (1978) 149
Glycine transport, in <i>Lemna gibba</i> L.	88 (1978) 264
Glycogen	
particles, purification by glycerol density gradient centrifugation	81 (1977) 166
phosphorylase, antibodies against amino-terminal region	82 (1977) 232
phosphorylase <i>b</i> , effect of phenothiazines	88 (1978) 313
synthase and phosphorylase in hepatocytes, effect of insulin and glucagon	82 (1977) 317
Glycolipid synthesis, in <i>Acetobacter xylinum</i>	81 (1977) 294
Glycolipids, characterization by mass fragmentography in cat small intestine	89 (1978) 42
Glycolysis	
in erythrocytes, functional compartmentation of enzymes	84 (1977) 183
Glycopeptides, of human erythrocyte membranes	89 (1978) 111
Glycophorin	
demonstration of lectin activity	82 (1977) 34
interaction with phospholipids	84 (1977) 159
Glycoprotein	
of <i>Halobacterium salinarium</i> , glycosylation by a polyprenol lipid carrier	89 (1978) 37
of human platelet plasma membranes causing agglutination	90 (1978) 283
Glycoproteins	
characterization by NMR of branching type of glycan chains	89 (1978) 149
effect of <i>N</i> -acetyl- β -hexosaminidases A and B	84 (1977) 379
of glyoxysomal membranes	90 (1978) 275
location of synthesis in endoplasmic reticulum membranes	82 (1977) 359
of rotavirus capsid, effect of concanavalin A	87 (1978) 26
of <i>Trypanosoma equiperdum</i> variants, chemical and immunological characterization	82 (1977) 93
specific clearance from rat plasma	85 (1978) 345
Glycyl tRNA of silk glands, of <i>Bombyx mori</i>	87 (1978) 288
Glyoxal, modification of oligodeoxyribonucleotides	90 (1978) 112
Glyoxalase I, subunit structure	85 (1978) 275
Glyoxysomal membranes, occurrence of glycoproteins	90 (1978) 275
Glyoxysome	
-associated DNA in <i>Candida tropicalis</i>	90 (1978) 309

biosynthesis, relation with malate synthase activity	88 (1978)	83
Golgi apparatus, effect of ethanol intoxication on palmitate transport	86 (1978)	53
Gonadotropin		
of pregnant mare serum, effect on lutropin and follitropin receptors	90 (1978)	65
release from rat pituitary, effect of dibutyryl 3',5'-cyclic AMP	83 (1977)	222
Gramicidin		
A, effect on lipid membranes	90 (1978)	29
S-synthetase		
effect of D- and L-phenylalanine	87 (1978)	244
purification of heavy subunit enzyme	81 (1977)	121
Griseofulvin analogues, interaction with microtubules	88 (1978)	259
Growth hormone		
effect of D-Ala ² ,D-Leu ⁵ -enkephalinamide on release	88 (1978)	208
<i>see also</i> Somatotropin		
GTP		
effect on adrenaline inhibition of adenylate cyclase in platelets	85 (1978)	167
protein, effect on adrenaline-stimulated adenylate cyclase	83 (1977)	93
Guanosine		
pentaphosphate (pppGpp)		
in cyanobacteria	81 (1977)	48
requirements for ribosomal synthesis	83 (1977)	125
tetraphosphate (ppGpp)		
degradation by enzyme associated with ribosomes of <i>Escherichia coli</i>	84 (1977)	357
effect on DNA-dependent synthesis of ribosomal protein S20 and isoleucyl-tRNA synthetase	83 (1977)	103
in cyanobacteria	81 (1977)	48
requirements for ribosomal synthesis	83 (1977)	125
Guanylate cyclase, effect of chemotactic stimulation in <i>Dictyostelium discoideum</i>	90 (1978)	119
Guanlyl-imidodiphosphate (GMP-PNP)		
effect on adenylate cyclase	90 (1978)	157
of turkey erythrocytes	81 (1977)	339
stimulated adenylate cyclase activity, effect of chloride and azide	86 (1978)	230
L-Gulono- γ -lactone oxidase, polyacrylamide gel electrophoresis	81 (1977)	323
Haloperidol, binding to receptors of brain membranes	87 (1978)	152
HeLa cells, binding of abrin	89 (1978)	233
Heat-stable inhibitory protein, effect on protein kinase activity	83 (1977)	53; 83 (1977) 59
Heavy meromyosin, separation of isoenzymes by differential actin binding	83 (1977)	141
Heme, <i>see</i> Protoheme		
Hemin		
effect on chromatin protein kinase of rat liver	81 (1977)	423
effect on expression of β globin genes in Friend cells	81 (1977)	366
Hemoglobin		
binding to spectrin	85 (1978)	357
effect of anions and cations of oxygen affinity	90 (1978)	247
glycosylation, by carbohydrates and carbohydrate phosphates	85 (1978)	86

H ₁ , phosphorylation sites	84 (1977) 163
H ₂ B, H ₃ and H ₄ antibodies, study of nucleosome structure	85 (1978) 61
H ₃ , antigenic determinants and purification by affinity chromatography	81 (1977) 419
Histones	
bound to DNA, effect of protein kinase	89 (1978) 253
significance of phosphorylation	89 (1978) 93
Homogentisic acid, effect on aromatic aminoacyl-tRNAs	81 (1977) 86
Horseradish peroxidase, specific clearance from rat plasma	85 (1978) 345
<i>p</i> -Hydrazinobenzenesulphonic acid, use nucleotide sequence analysis of oligonucleotides	83 (1977) 85
Hydrogen	
formation in blue-green algae	83 (1977) 159
peroxide, synthesis by photosystem II of spinach chloroplast lamellae	86 (1978) 143
recycling in <i>Rhodospseudomonas capsulata</i>	81 (1977) 281
Hydrogenase of <i>Desulfovibrio vulgaris</i>	86 (1978) 122
Hydrophobic chromatography	
elution of proteins at subzero temperature	78 (1978) 232
of RNA polymerase III	82 (1977) 77
Hydroxamate-sensitive respiration, requirement of transcription of nuclear DNA	85 (1978) 40
β -Hydroxybutyrate-calcium cotransport in mitochondria, effect of lanthanum	84 (1977) 135
Hydroxycholesterol, formation catalyzed by cytochrome <i>P</i> -450	85 (1978) 35
12L-Hydroxy-5,8,10-heptadecatrienoic acid, synthesis by thromboxane synthase of human platelets	84 (1977) 271
Hydroxyindole- <i>O</i> -methyl transferase	87 (1978) 45
Hydroxyl radical, effect of iron-EDTA complex on formation from superoxide radical	86 (1978) 139
4-(<i>E</i> -4'-Hydroxy-3'-methyl-but-2'-enyl)- <i>L</i> -tryptophan, cell-free synthesis	82 (1977) 55
3-Hydroxy-3-methylglutaryl CoA reductase	
activity in rat hepatocytes and effect of dexamethasone	83 (1977) 89
effect of ATP	82 (1977) 97
of human lymphocytes, kinetic properties	86 (1978) 225
reversible phosphorylation-dephosphorylation	90 (1978) 198
<i>N</i> -(2-Hydroxy-3-naphthoxypropyl)- <i>N'</i> -9-acridino-isopropylenediamine, fluorescent probe for β -adrenergic receptors	85 (1978) 158
<i>N</i> -(2-Hydroxy-3-naphthoxypropyl)- <i>N'</i> -dansylethylenediamine, fluorescent probe for β -adrenergic receptors	85 (1978) 158
6-Hydroxy-D-nicotine oxidase, synthesis in cell-free system	86 (1978) 243
Hydroxynitrile lyase, role of FAD as prosthetic group	90 (1978) 255
17 α -Hydroxy progesterone, binding to cytochrome <i>P</i> -450 of adrenal cortex microsomes	89 (1978) 215
Hydroxyproline-containing proteins, role of ascorbic acid in biosynthesis	82 (1977) 135
6 α -Hydroxytetrahydrocortisol, identification in urine of baboons	88 (1978) 215
Hydroxyvitamin D ₃ , role of cytochrome <i>P</i> -450 in 1 α -hydroxylation	86 (1978) 213

Hypoxanthine transport in <i>Saccharomyces cerevisiae</i> , co-transport of protons and potassium	83 (1977) 325
Imidazole, effect on thromboxane synthase	82 (1977) 107
Immobilized enzymes	
lipase and colipase	86 (1978) 179
study of kinetic properties	88 (1978) 332
thermometric measurement of urease activity, effect of heavy metal ions	85 (1978) 203
use of glucose dehydrogenase in automated analyses	81 (1977) 326
use of lectin-glycoprotein interactions for reversible binding	85 (1978) 119
Immunoadjuvant activity of phospholipids in delayed hypersensitivity	83 (1977) 237
Immunoglobulin G	
ESR-study of Fc-fragment	89 (1978) 191
interaction of Fab and Fc regions	90 (1978) 79
microinjection into Friend erythroleukemic cells by fusion with erythrocyte ghosts	83 (1977) 48
Immunoglobulins, fluorescence polarization analysis	89 (1978) 89
Immuno-histochemical characterization, of cyclic AMP phosphodiesterase in <i>Dictyostelium discoideum</i>	84 (1977) 174
Indolyl-3-alkane α -hydroxylase, use in labelling tryptophan residues in peptides and proteins	85 (1978) 296
Informosomes	
presence in cytoplasm	89 (1978) 242
role in ribonucleoproteins	88 (1978) 15
Infrared spectroscopy	
of DNA and protein conformation within chromatin	82 (1977) 63
of ribonuclease A-monomucleotide complexes	81 (1977) 183
proton exchange in rhodopsin	84 (1977) 217
Initiation factor	
-e2 (IF-e2)	
cofactor of <i>Artemia salina</i> and reticulocytes	86 (1978) 155
role of ribosomal protein S2 in binding to 40 S ribosomal subunit	87 (1978) 129
3 (IF-3)	
binding to 30 S ribosomal subunits	87 (1978) 103
Initiation factors, role as RNA-binding proteins	88 (1978) 21
Initiator tRNA, <i>see</i> <i>N</i> -Formyl methionyl tRNA	
Insulin	
effect of <i>N</i> -acetylglucosamine on synthesis and release	87 (1978) 115
effect on cyclic nucleotides in perfused rat livers	87 (1978) 196
effect on glycerol phosphate acyltransferase and fatty acyl CoA synthetase in perfused rat liver	84 (1977) 225
effect on glycogen synthase and glycogen phosphorylase in hepatocytes	82 (1977) 317
effect on synthesis of glycerolipids in rat hepatocytes	90 (1978) 57
-like growth factor II	89 (1978) 283
release from rat pancreas, effect of phosphate on arginine induction	84 (1977) 141
<i>see also</i> , Non-suppressible insulin-like activity (NSILA)	
Interferon synthesis in human cultured cells, effect of calcium	87 (1978) 303
Invertase, specific clearance from rat plasma	85 (1978) 345
Iodide	
effect on thyroid adenylate cyclase	83 (1977) 33
transport in thyroid cells, effect of catecholamines	88 (1978) 287
Iodination, detection of conformational changes in ribosomes	87 (1978) 21
Ion exchange chromatography, of dihydroxyvitamin D receptor protein	86 (1978) 65
Ionophore A23187	
effect on adenine nucleotide transport in mitochondria	86 (1978) 9
effect on prostaglandin release from polymorphonuclear leukocytes	86 (1978) 255
Iron	
-binding peptide, of SV40-transformed cells	88 (1978) 345
calorimetric study of binding to ovotransferrin	83 (1977) 19
-EDTA complex, effect on hydroxyl radical formation from superoxide radical	86 (1978) 139
-protein of nitrogenase oxidative inactivation	89 (1978) 304

Islets of Langerhans	
effect of <i>N</i> -acetylglucosamine on insulin synthesis and release	87 (1978) 115
effect of glucose on potassium transport	83 (1977) 151
release of somatostatin	81 (1977) 355
<i>S</i> -Isobutyl adenosine, antimalarial activity against <i>Plasmodium falciparum</i>	85 (1978) 264
3-Isobutyl-1-methylxanthine, effect on poly(ADP-ribose) polymerase	88 (1978) 144
Iso-I-cytochrome <i>c</i> , interaction with mitochondria	86 (1978) 17
Isoleucyl-tRNA synthetase, effect of ppGpp on DNA-dependent synthesis	83 (1977) 103
<i>N</i> ⁶ -[Δ^2 -Isopentenyl]adenine, effect on poly(ADP-ribose) polymerase	88 (1978) 144
C55-Isoprenyl pyrophosphate, role in glycosylation of surface glycoprotein of <i>Halobacterium salinarium</i>	89 (1978) 37
2',3'-Isopropylidene adenosine 5'-dibromohydrogen succinate, reaction with myosin	84 (1977) 362
2-Isopropyl-3-nicotinyl-indole (L-8027), effect on thromboxane synthase	82 (1977) 107
Isoproterenol, effect of microtubules on cyclic AMP synthesis	90 (1978) 69
Iturin A	90 (1978) 36
α -Ketobutyrate oxidoreductase, ferredoxin as coenzyme in <i>Halobacterium halobium</i>	83 (1977) 197
α -Ketobutyric acid, effect on pyruvate dehydrogenase	84 (1977) 179
Kinetin (riboside), effect on poly(ADP-ribose) polymerase	88 (1978) 144
Laccase, MS-study of oxygen reducing site	89 (1978) 180
<i>Lac</i> repressor, binding to poly(A)	83 (1977) 107
Lactase, of intestinal brush border membranes of suckling rat	84 (1977) 233
Lactate dehydrogenase, interaction with coenzyme fragments	87 (1978) 83
Lactogen, <i>see</i> Prelactogen	
Lactoperoxidase, effect on estrogens	86 (1978) 163
Lactose	
microcalorimetric study of binding to ricin	81 (1977) 23
repressor protein, of <i>Escherichia coli</i>	87 (1978) 215
Lactotransferrin, EPR-study of metal-binding sites	81 (1977) 371
Lamellar bodies, transport of phospholipids	86 (1978) 277
Lanthanium, effect on calcium- β -hydroxybutyrate cotransport in rat liver mitochondria	84 (1977) 135
Laser	
-flash ESR spectroscopy of reaction center of <i>Rhodospseudomonas sphaeroides</i>	85 (1978) 183
Raman spectroscopy, effect of gramicidin A on lipid membranes	90 (1978) 29
Lauroyl ethyl carbonate, effect on phospholipase A ₂	86 (1978) 49
Lectin	
activity of glycophorin	82 (1977) 34
of <i>Dolichos biflorus</i>	82 (1977) 39
Lectins of <i>Phaseolus vulgaris</i> and <i>Phaseolus coccineus</i> , purification on immobilized erythrocyte membranes	90 (1978) 145
Leghemoglobins	84 (1977) 244
Legumin of <i>Pisum sativum</i> L, characterization of glycopeptide bond	89 (1978) 145
Leucyl-tRNA, translation of leucine codons	82 (1977) 71
Light-harvesting	
polypeptide, of chromatophore membranes of <i>Rhodospirillum rubrum</i> G-9	88 (1978) 309
protein complex, of <i>Rhodospseudomonas sphaeroides</i>	87 (1978) 254
<i>Limulus</i> lysate clotting, observation by measurement of pH	84 (1977) 275
Linear dichroism (LD)	
effect of calcium on chlorophyll-a-protein	89 (1978) 201
of bacteriorhodopsin in purple membranes	89 (1978) 15
Linoleic acid, effect on stearyl-CoA desaturase	85 (1978) 114
Lipase	
immobilization for use in affinity chromatography	86 (1978) 179
<i>see also</i> , Acid lipase; Colipase; Salt resistant lipase; Triglyceride lipase	
Lipid	
bilayer, <i>see</i> Lipid membranes	
membranes	
effect of gramicidin A	90 (1978) 29
ionization of fatty acids	89 (1978) 313

peroxidation	
effect on phospholipid membranes	84 (1977) 125
in microsomes, effect of liver cytoplasm	89 (1978) 103
Lipids, incorporation of bicarbonate in chloroplasts	88 (1978) 192
Lipolysis, effect of α -adrenergic antagonists in hamster fat cells	83 (1977) 225
Lipopolysaccharides, of <i>Escherichia coli</i> strains	84 (1977) 327
Lipoprotein	
lipase, purification from post-heparin plasma	83 (1977) 231
of <i>Escherichia coli</i> , mutant deficient in fatty acids	83 (1977) 41
see also, High density lipoproteins; Low density lipoproteins; Very low density lipoproteins	
Liposomes	
effect of α -tocopherol on permeability of glucose and chromate	82 (1977) 341
incorporation of cytochrome <i>b₅</i>	87 (1978) 269
incorporation of cytochrome <i>c</i> oxidase	85 (1978) 175
incorporation of RNA	86 (1978) 289
properties of incorporated cytochrome <i>c</i> oxidase	84 (1977) 291
relation between immunological recognition and lateral lipid phase separation	81 (1977) 406
Lipotropin	
C-fragment	
preparation of specific antiserum	81 (1977) 427
role of lysine residues	81 (1977) 431
location of processing sites	87 (1978) 111
synthesis in ACTH-secreting pituitary tumor	90 (1978) 353
Lithium transport, in phosphatidylcholine vesicles	90 (1978) 357
Liver	
cells	
metabolism of erucic acid	88 (1978) 353
synthesis of protoheme	90 (1978) 250
uptake of <i>S</i> -adenosylmethionine	90 (1978) 331
heterogeneous distribution of fructose-1,6-bisphosphatase and glucokinase	83 (1977) 272
perfusion	
effect of hormones on cyclic nucleotides	87 (1978) 196
release of glutathione	86 (1978) 89
regeneration	
activity of γ -glutamyltranspeptidase	85 (1978) 310
degradation of glycoproteins in plasma membranes	87 (1978) 135
effect of 1,3-diamino-2-propanol	89 (1978) 307
Low density lipoproteins, effect of temperature on density	84 (1977) 171
Low molecular weight RNA, see Small molecular weight RNA	
Lubrol, effect on reaction kinetics of 5'-nucleotidase	89 (1978) 153
Luminescence, of copper cytochrome <i>c</i>	88 (1978) 273
Lung cell culture, purification of colony stimulating factor	90 (1978) 279
Lutropin (LH)	
NMR-study of histidine residues	87 (1978) 247
receptors, affinity of pregnant mare serum gonadotropin	90 (1978) 65
-sensitive adenylate cyclase, effect of heparin	83 (1977) 263
Lymphocytes, energy requirements for calcium transport	88 (1978) 305
Lysine biosynthesis, in higher plants	84 (1977) 236
Lysosomotropic carriers, preparation and use of nanocapsules	84 (1977) 323
Lysozyme	
calculation of proton shifts in NMR-spectrum	82 (1977) 17
of bacteriophage T4, comparison of structure in crystals and in solution	88 (1978) 109
Macrophages	
effect of 2,2'-dipyridyl on complement C1q release	90 (1978) 218
synthesis of prostaglandins and thromboxane	89 (1978) 136

Magnesium	
effect on chlorophyll fluorescence in chloroplast photosystem II particles	81 (1978) 259
role in glutamine synthetase action	90 (1978) 115
role in myosin 'regulatory' light chains	81 (1977) 386
Magnetic circular dichroism (MCD)	
of cytochrome <i>P</i> -450	88 (1978) 127
replacement of europium for calcium in concanavalin A	87 (1978) 69
Major outer membrane proteins, of <i>Escherichia coli</i>	88 (1978) 71
Major outer membrane protein II*, role as transmembrane polypeptide	86 (1978) 21
Malate	
dehydrogenase, catabolite inactivation without synthesis of specific proteins	85 (1978) 233
effect on citrulline synthesis in rat liver mitochondria	86 (1978) 117
synthase, relation with glyoxysome biosynthesis	88 (1978) 83
transport in mitochondria	89 (1978) 161
Maleic anhydride, effect on ribosomes	87 (1978) 125
Malonyl CoA, role in odd-numbered fatty acid synthesis in fetal guinea pig liver	85 (1978) 237
Maltodextrin phosphorylase, crystallization	85 (1978) 91
Maltosyl-lipid synthesis, in <i>Acetobacter xylinum</i>	81 (1977) 294
Manganese	
-containing carbonic anhydrase, exchange of protons	87 (1978) 92
-proton cotransport in submitochondrial particles	81 (1977) 243
requirement for soybean agglutinin and replacement by transition metals	82 (1977) 191
Mannose	
effect on hemoglobin glycosylation	85 (1978) 86
incorporation in procollagen, within the rough endoplasmic reticulum	87 (1978) 222
Mass spectroscopy (MS)	
identification of 6 α -hydroxytetrahydrocortisol in urine of baboons	88 (1978) 215
of blocked N-terminal of trout hemoglobin	85 (1978) 141
of blocked N-terminus peptide of alcohol dehydrogenase	90 (1978) 324
of glycolipids of cat small intestine	89 (1978) 42
of raphanatin of radish seed	82 (1977) 211
of reaction between ¹⁸ O ₂ and tree laccase	89 (1978) 180
Meconium, characterization of blood-group glycolipids	87 (1978) 283
Medium-low temperature, oscillation of thermoluminescence of chloroplasts	85 (1978) 193
Melanin synthesis in developing chicken retinal pigment epithelium, effect of α -aminitin	81 (1977) 161
Membrane	
antigens, of human fetal tissue, characterization in meconium	87 (1978) 283
fluidity, effect of thyroid hormones	84 (1977) 199
protein	
extraction by Tween 20 in <i>Acholeplasma laidlawii</i>	89 (1978) 69
metabolism, in growing yeast cells	86 (1978) 285
segregation, during release of erythrocyte microvesicles	90 (1978) 289
Membranes	
effect of adsorbed charges and dipoles	83 (1977) 7
effect of state of energy on hydrolysis of phosphatidylglycerol	87 (1978) 49
incorporation of 1,6-diphenyl-1,3,5-hexatriene	88 (1978) 181; 88 (1978) 187
interaction between contacting cells	90 (1978) 24
of chromaffin granule, isolation of ATPase	85 (1978) 254
proton-driven ATP formation	85 (1978) 9

Metallothionein, of human liver, primary structure	82 (1977) 247
Met-enkephalin, conformation analysis	86 (1978) 239
Methemocyanin, of <i>Limulus polyphemus</i> , effect of azide	88 (1978) 358
Methemoglobin, in glucose-depleted erythrocytes	88 (1978) 247
L-Methionine γ -lyase, effect on vinylglycine	84 (1977) 309
6-Methoxy-2-hexaprenylphenol, synthesis from 3-hexaprenyl-4-hydroxybenzoate in yeast mitochondria	85 (1978) 249
3-Methoxy-4-hydroxy-5-hexaprenylbenzoic acid, intermediate in ubiquinone biosynthesis	87 (1978) 219
Methyl(acetoxy methyl)nitrosamine, light-induced inhibition of acetylcholine esterase	82 (1977) 151
Methylation, of proteins of 40 S ribosomal subunits	89 (1978) 271
3-Methylcholanthrene, fluorescence spectroscopy of reaction with DNA	82 (1977) 278
O-Methyl-di-N-acetyl- β -chitobioside, interaction with wheat germ agglutinin	88 (1978) 176
3-O-Methyl-D-glucose, transport associated with proton transport in <i>Acholeplasma laidlawii</i>	89 (1978) 73
7-Methylguanosine 5'-triphosphate 2'-O-methylnucleosides ($m^7G^{5'}ppp^5Nm$), effect on satellite tobacco necrosis virus RNA binding to ribosomes	83 (1977) 118
N-Methyl-N-nitrosourea, effect on DNA polymerase	86 (1978) 81
N ⁵ -Methyltetrahydrofolate-homocysteine methyltransferase, purification by cobalamin Sepharose chromatography	85 (1978) 73
Metmyoglobin	
-aumene hydroperoxide system, oxidation of aminopyrine,	89 (1978) 196
NMR-study of formate binding	83 (1977) 148
Microbodies, <i>see</i> Glyoxysomes	
Microcalorimetry, of ricin-saccharide binding	81 (1977) 23
Microsomes	
binding of fluorescent probes, effect on mono-oxygenase complex	86 (1978) 273
cytochrome P-450 in adrenal gland cortex	89 (1978) 215
effect of liver cytoplasm on lipid peroxidation	89 (1978) 103
electrophilic intermediate in hydroxylation of cannamic acid	85 (1978) 333
EPR-study of cytochrome P-450	86 (1978) 213
presence of protein disulphide isomerase	88 (1978) 46; 88 (1978) 49
Microtubules	
assembly from tubulin of Ehrlich ascites tumour cells, effect of calcium	89 (1978) 157
effect on β -adrenergic stimulation of cyclic AMP synthesis	90 (1978) 69
interaction with griseofulvin analogues	88 (1978) 259
interaction with <i>myo</i> -inositol	81 (1977) 173
presence of ATPase	88 (1978) 197
X-ray scattering study of structure in solution	84 (1977) 153
Microvilli, isolation from mammalian cells	85 (1978) 353
Mineralocorticosteroid receptor proteins	85 (1978) 1
Mitochondria	
effect of acriflavin on oxidative phosphorylation	87 (1978) 87
effect of atractylate on NADH dehydrogenase	89 (1978) 165
effect of carboxin in higher plants	85 (1978) 99
effect of N-ethylmaleimide on calcium release	87 (1978) 186
effect of fatty acids on triglyceride lipase activity	85 (1978) 109
effect of ionophore A23187 on transport of adenine nucleotides	86 (1978) 9
effect of lanthanum on calcium- β -hydroxybutyrate cotransport	84 (1977) 135
effect of pent-4-enoate on acyl-CoA dehydrogenase	88 (1978) 219
effect of phosphate on calcium transport	83 (1977) 155
effect of pyruvate on glutamate transport	85 (1978) 321
interaction with iso-1-cytochrome c	86 (1978) 17
presence of catalase in matrix	89 (1978) 126

relation between citrulline synthesis, <i>N</i> -acetylglutamate concentration and carbamoyl-phosphate synthase activity	86 (1978)	117
relation between glutamate and calcium transport	85 (1978)	25
synthesis of ubiquinone derivatives from 3-hexaprenyl-4-hydroxybenzoate	85 (1978)	249
transport of oxaloacetate	90 (1978)	61
<i>see also</i> , Submitochondrial particles		
Mitochondrial		
ATPase		
association of pantothenic acid	84 (1977)	278
effect of ATP γ -4-(<i>N</i> -2-chloroethyl- <i>N</i> -methylamino)benzylamidate	83 (1977)	11
effect of reconstitution on catalytic properties	84 (1977)	283
role in oleoylphosphate-dependent ATP synthesis	82 (1977)	307
membranes		
protection of structure by phosphate transport system	81 (1977)	18
role as oncotic regulator	88 (1978)	10
role of cytochrome <i>a</i> in proton transport	87 (1978)	180
proteins of ribosomes, comparison of bovine and rat	86 (1978)	76
proton transport, effect of phosphate and <i>N</i> -ethylmaleimide	90 (1978)	361
transport of phosphate and dicarboxylate	89 (1978)	161
Mitomycin C, effect on DNA polymerase of rat fibroblasts	86 (1978)	205
Mocimycin-resistant mutant of <i>Escherichia coli</i> , alteration of elongation factor Tu	81 (1977)	303
Modeccin, effect on cell-free protein synthesis	85 (1978)	65
Moenomycin, inhibition of transglycosylation reaction for peptidoglycan synthesis	89 (1978)	141
Molybdenum, role in nitrate reductase	90 (1978)	107
Mono-oxygenase complex, effect of binding of fluorescent probes to microsomes	86 (1978)	273
Motility of <i>Bacillus subtilis</i> , effect of protonmotive force	82 (1977)	187
Moulting hormone, radioimmunoassay	81 (1977)	319
Mouse mammary tumor virus RNA, synthesis from chromatin of infected cells	84 (1977)	266
MSEL-neurophysin, of whale	88 (1978)	91
Mucopolipidosis, role of α -neuraminidase defects	85 (1978)	20
Mucopolysaccharides, NMR-study	86 (1978)	127
Muscarinic receptor		
effect of cholinergic drugs of 3-quinuclidinyl benzilate binding	84 (1977)	110
of <i>Drosophila melanogaster</i> , binding of quinuclidinyl benzilate	81 (1977)	134
Muscle cells, multiple forms of acetylcholinesterase	84 (1977)	257
Mutant <i>dna-B</i> of <i>Escherichia coli</i> , intracellular 3',5'-cyclic AMP concentration	83 (1977)	332
Mycosubtilin, effect on bacterial cytoplasmic membranes	90 (1978)	36
Myelin, association of proteolipid apoprotein with phospholipid in membranes	84 (1978)	92
Myeloperoxidase, EPR-study in polymorphonuclear leukocytes	86 (1978)	37
Myoblast, synthesis of acetylcholine receptors upon cell fusion	88 (1978)	327
Myoglobin		
NMR-study of cyanide-binding	81 (1977)	57
of sperm whale, comparison of structure in crystals and in solution	88 (1978)	114
<i>Myo</i> -inositol, interaction with microtubules	81 (1977)	173
Myopathy, cellular mechanism of induction by 2,4-dichlorophenoxyacetate	82 (1977)	219
Myosin		
ATPase of chicken gizzard smooth muscle	86 (1978)	167
-comigrating polypeptide in <i>Dictyostelium discoideum</i> , cyclic AMP-induced phosphorylation	88 (1978)	322
light chain		
A', comparison with ribosomal proteins L7/L12	86 (1978)	282
L-2, of chicken skeletal muscle	84 (1977)	53
distribution in isoenzymes	90 (1978)	297
kinase		
calcium-binding subunit	90 (1978)	301
conversion of calcium sensitivity	88 (1978)	242
light chains, coexistence of fast and slow types in single muscle fibres	83 (1977)	128
mRNA, effect of translational control RNA on translation	90 (1978)	209
peptides containing essential thiol groups	83 (1977)	137

of bovine heart, thiol-containing peptides	84 (1977) 261
of cardiac and skeletal muscle structural homologies	87 (1978) 99
of cardiac muscle induction of new species by thyroxine	81 (1977) 391
reaction with bromoalkyl analog of ATP	84 (1977) 362
'regulatory' light chains role of divalent metal ions	81 (1977) 386
subfragment 1, complex formation with actin and myosin subfragment 1	89 (1978) 169
<i>see also</i> , Heavy meromyosin, Meromyosin	
Myosins, of cardiac and skeletal muscle calcium binding properties	81 (1977) 381
NAD, mechanism of redox biocatalysis	84 (1977) 5
NADH	
dehydrogenase, in mitochondria, effect of atractylate	89 (1978) 165
<i>see also</i> , <i>N</i> ⁶ -[<i>N</i> -(6-Aminoethyl)carbamoyl methyl]NADH	
NAD/NADH system, effect of adenosine inhibitor of fatty acid oxidation	83 (1977) 321
NADP-malate dehydrogenase, control by ferredoxin-thioredoxin system of chloroplasts	81 (1977) 253
NADPH	
-adrenodoxin reductase, crystallization from pig adrenocortical mitochondria	82 (1977) 201
-binding protein, effect of aging of normal and glucose-6-phosphate dehydrogenase deficient erythrocytes	82 (1977) 223
-cytochrome <i>P</i> -450 reductase	86 (1978) 273; 88 (1978) 337
involvement of superoxide anion in NBT reduction	89 (1978) 26
effect on nitrate reductase	87 (1978) 212
Nanocapsules, preparation and uptake by rat fibroblasts	84 (1977) 323
dNDP-deoxynucleotidyl transferase, separation from DNA polymerase I	86 (1978) 201
α -Neuraminidase, defects in sialidosis	85 (1978) 20
Neuraminidase, effect on ganglioside GM1	89 (1978) 321
Neuroblastoma	
cell line <i>N</i> ₄ TG3, effect of prostaglandins on cAMP and cGMP synthesis	90 (1978) 348
× glioma hybrid cells	
somatostatin and opioid receptors	81 (1977) 351
turnover of opioid peptide receptors	90 (1978) 345
Neurons, developmental changes of chromatin repeat length	90 (1978) 167
Neurophysins	
interaction with oxytocin	86 (1978) 188
NMR-study of interactions with oxytocin and vasopressin	81 (1977) 347
<i>see also</i> , MSEL-neurophysin	
Neurotoxin V, of scorpion <i>Leiurus quinquestriatus quinquestriatus</i>	89 (1978) 54
Neurotoxins, CD-study of secondary structure	83 (1977) 202
Nigericin, effect on phosphate and arsenate transport in <i>Micrococcus lysodeikticus</i>	81 (1977) 264
Nitrate	
effect on oxygen affinity of hemoglobin	90 (1978) 247
reductase	
effect of reducing agents	87 (1978) 212
EPR study of molybdenum action	90 (1978) 107
Nitrate transport, in <i>Lemna gibba</i> L.	88 (1978) 264
Nitric oxide, photodissociation of complexes with ferrihemoproteins	88 (1978) 124
Nitrite reductase	
complex formation with ferredoxin	90 (1978) 195
oxidation-reduction properties	81 (1977) 271
Nitroblue tetrazolium dye (NBT), effect of NADPH-cytochrome <i>P</i> -450 reductase	89 (1978) 26
Nitrofurantoin, effect on mRNA in <i>Escherichia coli</i>	83 (1977) 337
Nitrogen fixation under aerobic conditions in <i>Rhodopseudomonas capsulata</i>	85 (1978) 224
Nitrogenase, oxidative inactivation of iron-protein	89 (1978) 305
4-Nitrophenylazide derivative of cytochrome <i>c</i> , covalent binding to cytochrome <i>c</i> oxidase	81 (1977) 147
<i>p</i> -Nitrophenyl- β -D-galactose, interaction with <i>Ricinus communis</i> agglutinin	85 (1978) 313
Non-histone chromosomal protein	
enriched fraction from rat liver chromatin	81 (1977) 37
identical with ubiquitin	90 (1978) 327

Non-suppressible insulin-like activity (NSILA), large molecular weight form in human serum	90 (1978) 135
<i>N'</i> -(<i>N''</i> - <i>n</i> -Nonyl-4-sulfamoylphenyl) maleimide-binding protein of mitochondrial phosphorylation complex	83 (1977) 311
Noradrenaline	
effect on fatty acids release from adipose tissue	90 (1978) 132
effect on phosphatidate phosphohydrolase in rat adipocytes	87 (1978) 65
Nuclear magnetic resonance (NMR)	
calculation of proton shifts for lysozyme	82 (1977) 17
identification of hydroxytetrahydrocortisol	88 (1978) 215
interaction of 5'-AMP with histidine and thyrotropin releasing hormone	86 (1978) 57
ionic transport in membranes	90 (1978) 357
ionization of fatty acids in lipid membranes	89 (1978) 313
of calcium binding to parvalbumin	87 (1978) 191
of catecholamine interaction with adenine nucleotides	88 (1978) 283
of chloride binding site of albumin	86 (1978) 25
of colipase	85 (1978) 271
of codon-anticodon interaction in phenylalanyl tRNA	88 (1978) 27
of cyanide binding to hemoproteins	81 (1978) 57
of DNA and protein conformation within chromatin	82 (1977) 63
of formate binding to metmyoglobin	83 (1977) 148
of glycan chains of glycoproteins	89 (1978) 149
of interaction between <i>O</i> -methyl-di- <i>N</i> -acetyl- β -chitobioside and wheat germ agglutinin	88 (1978) 176
of ion binding to chromatin	89 (1978) 183
of lutropin histidine residues	87 (1978) 247
of mucopolysaccharides	86 (1978) 127
of neurophysins interactions with oxytocin and vasopressin	81 (1977) 347
of phospholipid membranes	85 (1978) 124
of phosphorylcholine-phosphorylcholine-binding antibody interaction	84 (1978) 87
of redox states of cytochrome c_3	81 (1977) 275
of ribosomal proteins of <i>Escherichia coli</i>	81 (1977) 435
of trilauroin and cyclopentanoid analogs	81 (1977) 97
of uteroglobin	83 (1977) 217
of zinc binding to bleomycin	89 (1978) 187
study of erythrocyte metabolism	82 (1977) 12
Nuclear mRNA, 28 S, thermal denaturation characteristics	84 (1977) 320
Nuclease, distribution of breakdown sites in chromatin	82 (1977) 58
Nucleic acids, hydrogen exchange	81 (1977) 61
Nucleosomes, study of structure with histone H ₂ B, H ₃ and H ₄ antibodies	85 (1978) 61
5-Nucleotidase, effect of detergents on reaction kinetics	89 (1978) 153
Nucleotide base ratio, determination in submicrogram quantities of RNA	83 (1977) 81
Nucleotide sequence analysis, of oligonucleotides using <i>p</i> -hydrazinobenzene[³⁵ S]sulphonic acid	83 (1977) 85
Ochratoxin A, effect on phenylalanine tRNA synthetase of <i>Bacillus subtilis</i>	83 (1977) 341
Oxytocin, <i>see</i> Oxytocin	
Oleic acid, incorporation into triglycerides of very low density lipoproteins	84 (1977) 167
Oleoyl phosphate-dependent ATP, synthesis of ATPases	82 (1977) 307
Oligodeoxyribonucleotides, modification of guanosine residues	90 (1978) 112
Oligomycin-sensitive ATPase complex, of <i>Rhodospirillum rubrum</i> chromatophores	87 (1978) 257
Oligonucleotides	
binding to the anticodon of tRNA	89 (1978) 263
nucleotide sequence analysis using <i>p</i> -hydrazinobenzene[³⁵ S]sulphonic acid	83 (1977) 85
Opioid receptors	
binding of [Car ⁴ , Leu ⁵]-enkephalin	82 (1977) 325
binding of modified lipotropin C-fragments	81 (1977) 431
in neuroblastoma \times glioma hybrid cells	81 (1977) 351; 90 (1978) 345
Optically detected zero-field magnetic resonance (ODMR), of reaction centers of photosynthetic bacteria	82 (1977) 155

- Ornithine
 carbamoyltransferase
 comparison with primary structure of aspartate carbamoyltransferase 81 (1977) 28
 effect of δ -*N*-(phosphonoacetyl)-L-ornithine and *N*-(phosphonoacetyl)-putrescine 88 (1978) 94
 decarboxylase inhibitor, effect on rat liver regeneration 89 (1978) 307
Osteogenesis imperfecta, increase in collagen type III 82 (1977) 251
Outer membrane
 lipoprotein of *Escherichia coli*, mutant deficient in fatty acids 83 (1977) 41
 protein b, effect on 5'-AMP transport 85 (1978) 133
 proteins, of *Escherichia coli* B/r, effect of the presence of plasmid rRM98 85 (1978) 127
Ovalbumin, hydrophobic chromatography 87 (1978) 232
Ovotransferrin, calorimetric study of binding of iron and aluminium 83 (1977) 19
Oxaloacetate
 regulation of conversion from pyruvate 89 (1978) 1
 transport in mitochondria 90 (1978) 61
Oxidative
 phosphorylation
 effect of acriflavin 87 (1978) 87
 effect of dibutyltin dichloride 82 (1977) 23
 relation to transmembrane transport of protons in *Paracoccus denitrificans* 78 (1978) 145
 stress, effect on cross-linking of red blood cell membrane proteins 85 (1978) 267
5-Oxoprolinuria, levels of glutathione and thioredoxin in fibroblasts 87 (1978) 61
 affinity of hemoglobin, effect of anions and cations 90 (1978) 247
 evolution in photosynthesis, molecular mechanism 81 (1977) 223
 -evolving system of chloroplasts, a thermoluminescence study 82 (1977) 303
 formation of intermediates in reduction by cytochrome *c* oxidase 84 (1977) 296
 in singlet state reaction mechanisms 83 (1977) 1
Oxypurinol, effect on xanthine dehydrogenase of turkey liver 90 (1978) 305
Oxytocin
 effect on cyclic nucleotides in perfused rat livers 87 (1978) 196
 interaction with neurophysin 86 (1978) 188
 NMR-study of interaction with neurophysins 81 (1977) 347

Palmitate transport, in rat liver Golgi apparatus, effect of ethanol intoxication 86 (1978) 53
Palmitic acid, incorporation into triglycerides of very low density lipoproteins 84 (1977) 167
Palmityl-CoA
 effect on proteolysis of acetyl-CoA carboxylase 82 (1977) 85
 effect on pyruvate carboxylase 89 (1978) 1
Pantothenic acid, association with protein subunit of mitochondrial ATPase 84 (1977) 278
Paramyxoviruses, effect on cell membrane microviscosity 85 (1978) 245
Parvalbumin
 binding of sodium to the calcium binding site 81 (1977) 376
 NMR-study of calcium binding 87 (1978) 191
D-Penicillamine, removal of copper from ceruloplasmin 90 (1978) 174
Penicillin, effect of DD-carboxypeptase-transpeptidase of *Streptomyces* 88 (1978) 147
Penicillium roqueforti toxin, effect on protein synthesis 88 (1978) 341
3,3',4',5,7-Pentahydroxyflavone, *see* Quercetin
3 α ,6 α ,11 β ,17 α ,21-Pentahydroxy-5 β -pregnan-20-one, identification in urine of baboons 88 (1978) 215
Pent-4-enoate, effect on acyl-CoA dehydrogenase 88 (1978) 219
Pepsin, mechanism of action 88 (1978) 87
Pepsinogen, purification by affinity chromatography 86 (1978) 33
Peptide
 Lys-Trp-Lys, interaction with poly(AU) 88 (1978) 33
 see also, Iron-binding peptide
Peptidoglycan
 interaction with teichoic acid in bacterial membranes 88 (1978) 1
 intermediates in the biosynthesis of the binding unit with teichoic acid 86 (1978) 193

polymerization reaction by transglycosylation in <i>Escherichia coli</i>	89 (1978) 141
Perchlorate, effect on oxygen affinity of hemoglobin	90 (1978) 247
Perfusion of liver	
incorporation of palmitic and oleic acid into triglycerides of very low density lipoproteins	84 (1977) 167
rat, effect of insulin on glycerol phosphate acyltransferase and fatty acyl CoA synthetase	84 (1977) 225
Perfusion of rat pancreas, effect of phosphate on arginine-induced insulin and glucagon release	84 (1977) 141
Peroxisomes, presence of urate oxidase in nucleoid	88 (1978) 151
Phagocytosis	
effect on calcium transport in polymorphonuclear leucocytes	82 (1977) 283
requirements for recognition, attachment and internalization	81 (1977) 118
Phenothiazine, effect on glycogen phosphorylase <i>b</i>	88 (1978) 313
Phenoxybenzamine	83 (1977) 227
Phentolamine	83 (1977) 225
Phenylalanine, effect on gramicidin <i>S</i> synthetase	87 (1978) 244
Phenylalanyl-tRNA	
codon-anticodon interaction	88 (1978) 27
effect of phenylpyruvate and homogentisate of <i>Bacillus stearothermophilus</i>	81 (1977) 86
of bean chloroplasts, primary structure	84 (1977) 241
synthetase	84 (1977) 351
effect of ochratoxin A in <i>Bacillus subtilis</i>	83 (1977) 341
of baker's yeast	84 (1977) 57
of human placenta	89 (1978) 98
<i>p</i> -Phenylene diisothiocyanate, use in amino acid sequence analysis on solid phase	84 (1977) 187
<i>N</i> -Phenyl-1-naphthylamine, binding to microsomes, effect on mono-oxygenase complex	86 (1978) 273
Phenylpyruvic acid, effect on aromatic aminoacyl-tRNAs	81 (1977) 86
Phenylthiohydantoin (PTH) amino acids, separation by HPLC	85 (1978) 68
Pheophytin, reduction in the primary light reaction of photosystem II	82 (1977) 183
Phloretin, effect on <i>N</i> -acetylglucosamine-stimulated insulin release	87 (1978) 115
Phosphatase, specific for 2-deoxyglucose-6-phosphate	83 (1977) 245
Phosphate	
effect on arginine-induced insulin and glucagon release from rat pancreas	84 (1977) 141
effect on calcium transport in mitochondria	83 (1977) 155
effect on mitochondrial proton transport	90 (1978) 361
incorporation into phosphatidylinositol, effect of vasopressin and adrenaline	83 (1977) 267
transport	
in <i>Micrococcus lysodeikticus</i> , effect of ionophores	81 (1978) 264
in mitochondria	89 (1978) 161
protein of chloroplasts, effect of pyridoxal-5'-phosphate	82 (1977) 29
relation with mersalyl- and <i>N</i> -ethylmaleimide-sensitive protein of pig heart mitochondria	84 (1977) 119
system, protection of structure of mitochondrial membranes	81 (1977) 18
Phosphatidate phosphohydrolase of rat adipocytes, effect of noradrenaline	87 (1978) 65
Phosphatidylcholine	
effect of insulin and glucagon on synthesis	90 (1978) 57
exchange protein of sheep lung	87 (1978) 41
transport between subcellular fractions of lung cells	86 (1978) 277
Phosphatidylethanolamine, effect of insulin and glucagon on synthesis	90 (1978) 57
Phosphatidylglycerol	
effect of state of energy on hydrolysis in <i>Acholeplasma laidlawii</i>	87 (1978) 49
membranes, a NMR-study	85 (1978) 124
Phosphatidylinositol, effect of vasopressin and adrenaline on phosphate incorporation	83 (1977) 267
Phosphoenolpyruvate	
carboxylase re-assimilation of CO ₂ released from malate and aspartate decarboxylation	82 (1977) 288
regulation of conversion to oxaloacetate	89 (1978) 1
role in odd-numbered fatty acid synthesis in fetal guinea pig liver	85 (1978) 237
Phosphofructokinase, regulation of activity by anomeric specificity	84 (1977) 207

Phospholipase	
A ₂ , effect of fatty acids and fatty acid anhydrides	86 (1978) 49
C	
effect on phospholipids bound to beaded agarose	90 (1978) 243
of <i>Staphylococcus aureus</i> , induction of acetylcholinesterase release from erythrocytes	82 (1977) 143
Phospholipid membranes	
a NMR-study	85 (1978) 124
effect of lipid peroxidation	84 (1977) 125
effect of viscosity of medium on PMR	88 (1978) 97
incorporation of proteolipid apoprotein of myelin	84 (1978) 92
properties of incorporated cytochrome <i>c</i> oxidase	84 (1977) 291
reconstitution of acetylcholinesterase activity	89 (1978) 317
study of ionic transport	90 (1978) 357
Phospholipids	
effect on glycoporphin	84 (1977) 159
immobilized on beaded agarose as substrate for phospholipase C	90 (1978) 243
immunoadjuvant activity in delayed hypersensitivity	83 (1977) 237
interaction with cardiotoxin	85 (1978) 103
transport between subcellular fractions of lung cells	86 (1978) 277
δ - <i>N</i> -(Phosphonoacetyl)-L-ornithine, effect on ornithine carbamoyltransferase	88 (1978) 94
<i>N</i> -(Phosphonoacetyl)-putrescine, effect on ornithine carbamoyltransferase	88 (1978) 94
Phosphopeptides, release from proteolytic digests of rat liver proteins	86 (1978) 250
Phosphoproteins of bone matrix, presence of <i>O</i> -phosphothreonine	89 (1978) 107
Phosphorylase kinase, catalytic centers for phosphorylation of phosphorylase <i>b</i> and troponin T	87 (1978) 297
Phosphorylase phosphatase, effect of cyclic AMP-dependent protein kinase	82 (1977) 269
Phosphorylation	
complex, isolation of maleimide analog-binding protein	83 (1977) 311
of (Ca+Mg)-ATPase, effect of calcium	87 (1978) 261
of DNA-bound histones	89 (1978) 253
of histone H1 at different stages of cell cycle	84 (1977) 163
of histones	89 (1978) 93
of ribosomal proteins in polysomes	86 (1978) 103
sites	
of protein of ribonucleoprotein particles	90 (1978) 54
rapid removal from proteins by proteolytic enzymes	86 (1978) 250
Phosphorylcholine, NMR-study of binding with phosphorylcholine-binding antibody	84 (1978) 87
<i>O</i> -Phosphothreonine, presence in phosphoproteins of bone matrix	89 (1978) 107
Photodissociation, of nitric oxide-ferrihemoprotein complexes	88 (1978) 124
Photophosphorylation	
effect of 3'-aryl- <i>N</i> ₅ -ADP	87 (1978) 318
effect of quercetin	85 (1978) 215
efficiency in halobacteria	82 (1977) 1
relation with electron transport in chromatophores	87 (1978) 323
role of cyclic electron transport	87 (1978) 73
Photorespiration	90 (1978) 1
Photosynthesis	90 (1978) 1
molecular mechanism of oxygen evolution	81 (1977) 223
Photosystem	
I	
kinetics of electron acceptors	85 (1978) 340
relation between proton transport and redox-state of <i>P</i> -700	81 (1977) 65
II	
effect of magnesium on chlorophyll fluorescence	81 (1977) 259
hydrogen peroxide synthesis in spinach chloroplast lamellae	86 (1978) 143
reduction of pheophytin in the primary light reaction	82 (1977) 183
I and II	
characterization of proteins and lipids in <i>Chlamydomonas reinhardtii</i>	84 (1977) 144

effect of redox potential on light-induced absorbance changes at 518nm	87 (1978) 329
electron transport	90 (1978) 15
Phycobiliproteins, role of cysteine in bilin-apoprotein linkage	82 (1977) 206
Picosecond fluorescence, in spinach chloroplasts	83 (1977) 316
Pineal cells, induction of specific protein by estradiol	87 (1978) 45
Pituitary	
effect of dibutyryl cyclic AMP on gonadotropin release	83 (1977) 222
transport of 17 β -estradiol receptor from cytoplasm to nucleus	81 (1977) 342
Plasma membrane	
adenylate cyclase, effect of cytoplasmic factor	82 (1977) 273
ATPase of <i>E. coli</i> , role in oleoyl phosphate-dependent ATP synthesis	82 (1977) 307
glycoprotein with role in hexose transport	83 (1977) 71
proteins of lens cells, changes during differentiation	83 (1977) 301
Plasma membranes	
ADP transport in <i>Rhodospseudomonas capsulata</i>	89 (1978) 21
degradation of glycoproteins in normal and regenerating liver	87 (1978) 135
effect of ATP and GTP analogues on adenylate cyclase	90 (1978) 157
Plasmid	
DNA pBR313 and pCR1, incorporation in plant protoplasts	87 (1978) 277
rRM98, effect on outer membrane proteins of <i>Escherichia coli</i> B/r	85 (1978) 127
2.2 μ m of yeast, DNA sequence of inverted repeat region	82 (1977) 121
Plastocyanin	
EPR-study of reduction in non-aqueous media	82 (1977) 147
PMR-study	86 (1978) 131
relation with cytochrome <i>c</i> -553 in <i>Scenedesmus acutus</i>	85 (1978) 337
Platelet plasma membrane glycoprotein causing agglutination	90 (1978) 283
Platelets	
different states of ADP-induced aggregability	89 (1978) 227
effect of albumin on aggregation	88 (1978) 317
subcellular distribution of actin	90 (1978) 84
Pokeweed antiviral protein, effect on eukaryotic ribosomes	89 (1978) 257
Polarography, electron flow between photosystems I and II	90 (1978) 15
Poly(A)	
binding of <i>Lac</i> repressor	83 (1977) 107
containing RNA in neuroblastoma cells	83 (1977) 163
degradation and formation of ATP	87 (1978) 121
Polyacrylamide gel electrophoresis	
of diptheria toxin and its fragments	87 (1978) 311
of DNA fragments	87 (1978) 107
of DNA fragments vaccinia virus	83 (1977) 111
of erythrocyte membrane proteins	85 (1978) 267
of fatty acid synthetase subunits	82 (1977) 139
of L-gulono- γ -lactone oxidase	81 (1977) 323
of lens cell plasma membrane proteins	83 (1977) 301
of membrane proteins of <i>E. coli</i> B/r	85 (1978) 127
of membrane proteins of growing yeast cells	86 (1978) 285
of spectrin subunits	86 (1978) 247
Poly(ADP-ribose) polymerase	
effect of methylated xanthenes and cytokinins	88 (1978) 144
in lymphoma L5178Y cells made permeable for nucleotides	85 (1978) 349
localization in chromatin	86 (1978) 85
of calf thymus	84 (1977) 331
Polyamine synthesis, effect of 1,3-diamino-2-propanol	89 (1978) 307
Polyamines, effect on protein, RNA and DNA synthesis in <i>Aspergillus nidulans</i>	85 (1978) 229
Poly(AU), interaction with peptide Lys-Trp-Lys	88 (1978) 33
Polyethyleneimine, use in isolation of ferredoxin from <i>Clostridia</i>	89 (1978) 219
Polymorphonuclear leukocytes	
effect of ionophore A23187 on prostaglandin release	86 (1978) 255

effect of phagocytosis on calcium transport	82 (1977) 283
EPR-study of myeloperoxidase	86 (1978) 37
of chicken, absence of catalase	81 (1977) 73
requirements for phagocytosis	81 (1977) 118
Polypeptides	
effect on lipid membranes	90 (1978) 29
highly helical intermediate during protein structure formation	89 (1978) 10
Polypodine B, radioimmunoassay	81 (1977) 319
Polyribosomes, phosphorylation of protein S6	90 (1978) 270
Polysomes, endogenous phosphorylation of proteins	86 (1978) 103
Poly(U), photochemical crosslinking with ribosomal protein S1	88 (1978) 131
Porphobilinogen	
deaminase, effect of butanedione	90 (1978) 47
oxygenase, effect of 2-allyl-2-isopropylacetamide	84 (1977) 29
Potassium transport	
effect of glucose in islets of Langerhans	83 (1977) 151
in membranes, role as energy buffer	87 (1978) 171
in <i>Saccharomyces cerevisiae</i> , co-transport of hypoxanthine and protons	83 (1977) 325
in sarcoplasmic reticulum membranes	82 (1977) 47
Pregnenolone-binding protein of rat prostate	81 (1977) 43
Prelactogen, effect of calcium on membrane-dependent processing	84 (1977) 115
Pressure relaxation, study alcohol dehydrogenase isomerisation	84 (1977) 25
Procollagen	
incorporation of mannose in rough endoplasmic reticulum	87 (1978) 222
localization of peptidase cleavage site	89 (1978) 279
post-translational modification by SV-40 transformed fibroblasts	85 (1978) 47
Profilin	
association with actin in platelets	90 (1978) 84
of platelets, effect on actin polymerisation	88 (1978) 75
Progesterone	
binding to corticosteroid-binding globulin	86 (1978) 61
binding to cytochrome P-450 of adrenal cortex microsomes	89 (1978) 215
Prolactin, effect of D-Ala ² , D-Leu ⁵ -enkephalinamide on release	88 (1978) 208
Prolylhydroxylase, in pulmonary alveolar macrophages	81 (1977) 125
Propionyl CoA, role of odd-numbered fatty acid synthesis in fetal guinea pig liver	85 (1978) 237
Polypeptides, location of processing sites	87 (1978) 111
Prostacyclin (PGI ₂), effect on cyclic AMP and cyclic GMP synthesis	90 (1978) 348
Prostaglandin	
analogs, effect on thromboxane synthase	82 (1977) 107
endoperoxide analogues effect on cyclic AMP and cyclic GMP synthesis	90 (1978) 348
synthesis in macrophages	89 (1978) 136
E ₁ and E ₂ , inhibition of chemiluminescence in macrophages	89 (1978) 136
I ₂ , role in elevation of cyclic AMP levels in 3T3 fibroblasts	81 (1977) 415
Prostaglandins	
release from polymorphonuclear leukocytes, effect of ionophore A23187	86 (1978) 255
see also, Prostacyclin	
Protamine, of herring, phosphorylation site of cyclic AMP-dependent protein kinase	86 (1978) 92
Protease, see Histone-specific protease	
Protein	
A	
conjugated with ferritin cytochemical reagent for electron microscopy	85 (1978) 95
of <i>Staphylococcus aureus</i>	
affinity chromatography on polyacrylamide activated with thiophosgene	83 (1977) 329
interaction of immunoglobulin F _{ab} and Fc	90 (1978) 79
chlorophyll <i>a</i> complex, light-induced electron transport	88 (1978) 275
conformation within chromatin	82 (1977) 63
degradation, effect of corticotropin and cyclic AMP in adrenal cortex	83 (1977) 307

disulphide isomerase	
effect of detergents	88 (1978) 49
presence in collagen-synthesising tissues	88 (1978) 46
HU of <i>Escherichia coli</i>	89 (1978) 116
kinase	
characterization of endogenous substrate in bovine adrenal cortex	83 (1977) 59
dependent on cyclic AMP of skeletal muscle	87 (1978) 77
effect of glucagon on transport	90 (1978) 127
effect on DNA-bound histones	89 (1978) 253
effect on phosphorylase phosphatase	82 (1977) 269
endogenous phosphorylation of ribosomal proteins in polysomes	86 (1978) 103
independent of cyclic AMP of bovine adrenal cortex	83 (1977) 53
Protein kinase	
inhibitor, of bovine brain	86 (1978) 113
of rat liver chromatin, effect of hemin	81 (1977) 423
of rat liver nuclei, purification by affinity chromatography	84 (1977) 313
of thyroid toxic adenoma	88 (1978) 211
phosphorylation site of herring protamine (clupeine)	86 (1978) 92
-M of Sendai virus, study of subunit composition	81 (1977) 395
0.29 of <i>Drosophila melanogaster</i> , preparation of antiserum	89 (1978) 86
receptor binding, statistical test of binding model	88 (1978) 295
sequencing, <i>see</i> Amino acid sequence analysis	
synthesis	
effect of 3',5'-cyclic AMP	83 (1977) 68
effect of modeccin	85 (1978) 65
effect of <i>Penicillium roqueforti</i> toxin	88 (1978) 341
effect of phosphorylated sugars	88 (1978) 37
in herpes virus-infected cells, effect of hypertonic medium	87 (1978) 308
in <i>Physarum polycephalum</i> during nuclear division cycle	84 (1977) 317
role of polyamines in <i>Aspergillus nidulans</i>	85 (1978) 229
<i>see also</i> , Calcium-binding proteins; Coat proteins; Hemoproteins; Major outer membrane proteins;	
Outer membrane proteins; RNA-binding proteins	
Proteolipid protein of myelin, incorporation into phospholipid membranes	84 (1978) 92
Prothrombin Barcelona, abnormal activation pattern	87 (1978) 132
Protoheme, synthesis in liver cells	90 (1978) 250
Proton	
absorption during clotting of <i>Limulus</i> lysate by endotoxin	84 (1977) 275
-hexose co-transport in <i>Chlorella vulgaris</i> , mechanistic role of membrane potential	87 (1978) 157
magnetic resonance (PMR)	
effect of viscosity on the width of methylene line in phospholipid membranes	88 (1978) 97
of plastocyanin	86 (1978) 131
of ribonuclease T ₁	88 (1978) 279
of ribosomal proteins of <i>Escherichia coli</i>	83 (1977) 348
-manganese co-transport in submitochondrial particles	81 (1977) 243
-potassium co-transport, effect on motility of <i>Bacillus subtilis</i> .	82 (1977) 187
transport	
associated with 3-O-methyl-D-glucose uptake in <i>Acholeplasma laidlawii</i>	89 (1978) 73
by bacteriorhodopsin	89 (1978) 333
by proteolytic fragments of bacteriorhodopsin	90 (1978) 190
-driven ATP formation	85 (1978) 9
in chromatophores of <i>Rhodospseudomonas sphaeroides</i>	84 (1977) 299
in mitochondria, effect of phosphate and <i>N</i> -ethylmaleimide	90 (1978) 361
in purple membranes of <i>Halobacterium halobium</i> , effect pH and temperature	81 (1977) 238
in <i>Saccharomyces cerevisiae</i> , cotransport of hypoxanthine and potassium	83 (1977) 325
intermediate steps after light induction in bacteriorhodopsin	87 (1978) 161
relation to oxidative phosphorylation in <i>Paracoccus denitrificans</i>	78 (1978) 145
relation with cytochrome <i>c</i> oxidase	88 (1978) 268

role in binding of adenine nucleotides to chloroplast coupling factor (CF ₁)	81 (1977) 105
role of cytochrome <i>a</i> in mitochondrial membranes	87 (1978) 180
role of cytochrome oxidase	90 (1978) 178
Protoplasts, uptake of plasmid DNA pBR313 and pCR1	87 (1978) 277
Pulmonary alveolar macrophages, presence of prolylhydroxylase	81 (1977) 125
Pulse fluorescence, of 1,6-diphenyl-1,3,5-hexatriene incorporated in membranes	88 (1978) 181
Puromycin, <i>see p</i> -Azidopuromycin	
Purple membranes	
formation of bacterio-opsin trimers	90 (1978) 123
immobilization and orientation of bacteriorhodopsin	89 (1978) 15
native structure of bacteriorhodopsin	84 (1977) 1
of <i>Halobacterium halobium</i>	
effect of pH and temperature on light-induced proton transport	81 (1977) 238
effect of valinomycin and beauvericin	81 (1977) 267
Pyridoxal-5'-phosphate	
effect on chloroplast coupling factor	85 (1978) 211
effect on phosphate transport protein in chloroplasts	82 (1977) 29
Pyridoxamine 5'-phosphate oxidase, presence in wheat seedlings	88 (1978) 205
Pyridoxine 5'-phosphate oxidase presence in wheat seedlings	88 (1978) 205
Pyrophosphate, effect on collagen synthesis	89 (1978) 230
Pyrophosphatase, of <i>Bacillus stearothermophilus</i>	90 (1978) 93
Pyruvate	
conversion into 2,4-dihydroxy-2-methylglutaric acid dehydrogenase	86 (1978) 42
effect of α -ketobutyric acid	84 (1977) 179
mechanism of oxidative carboxylation of pyruvate	86 (1978) 6
properties of 4- and 3-component complexes	82 (1977) 89
use of ethanolamine in affinity chromatography	85 (1978) 81
effect on glutamate transport in mitochondria	85 (1978) 321
kinase	
effect of arginine phosphate	89 (1978) 301
of rat erythrocytes, lack of phosphorylatable sites	88 (1978) 139
oxidoreductase, ferredoxin as coenzyme in <i>Halobacterium halobium</i>	83 (1977) 197
presence in <i>S</i> -adenosylmethionine decarboxylase	84 (1977) 33
regulation of conversion to oxaloacetate	89 (1978) 1
Quercetin, effect on photophosphorylation	85 (1978) 215
Quinone pair, occurrence in succinate dehydrogenase-cytochrome <i>b</i> transmembrane region	82 (1977) 179
Quinuclidinyl benzilate	
binding to cholinergic receptor of <i>Drosophila melanogaster</i>	81 (1977) 134
effect on muscarinic cholinergic receptor	84 (1977) 110
Radioactive labelling	
enhanced autoradiographic detection of ³² P and ¹²⁵ I	82 (1977) 314
of tryptophan residues in peptides and proteins	85 (1978) 296
Radioassay, of tyrosine aminotransferase	83 (1977) 277
Radioimmunoassay (RIA)	
of insect moulting hormone	81 (1977) 319
of thyrotropin-releasing hormone	83 (1977) 37
of toxin I of <i>Androctonus australis Hector</i>	85 (1978) 163
of tubulin	84 (1977) 97
Raman spectroscopy	
of adrenodoxin	84 (1977) 214
<i>see also</i> , Laser Raman spectroscopy	
Raphanatin, occurrence as endogenous cytokinin in radish seed	82 (1977) 211
Reaction center	
of photosynthetic bacteria, ODMR-study of structure	82 (1977) 155

of <i>Rhodospseudomonas sphaeroides</i> , a laser-flash ESR-study	85 (1978) 183
of <i>Rhodospirillum rubrum</i> , an EPR-study	81 (1977) 233
see also, Bacteriochlorophyll	
Reaction centers, study of fluorescence quenching	82 (1977) 355
Reaction kinetics, of 5'-nucleotidase activity, effect of detergents	89 (1978) 153
Receptors, see Acetylcholine receptor; Bacteriophage λ receptor; Steroid hormone receptor	
Redox potential, effect on light-induced absorbance changes at 518 nm in chloroplasts	87 (1978) 329
Regeneration, of rat liver, effect of 1,3-diamino-2-propanol	89 (1978) 307
Respiration sensitive to hydroxamate, requirement of transcription of nuclear DNA	85 (1978) 40
Restriction enzyme, see Endonuclease	
Rhodanese, effect on ferredoxins	84 (1977) 149
Rhodopsin, an infrared spectroscopy study of proton exchange	84 (1977) 217
Ribose, effect on hemoglobin glycosylation	85 (1978) 86
Ribonuclease	
comparison of structure in crystals and in solution	88 (1978) 105
A-monomucleotide complexes, study by infrared spectroscopy	81 (1977) 183
T ₁ , a PMR-study	88 (1978) 279
Ribonucleoprotein particles	
association of translational control RNA	90 (1978) 209
heterogeneity in size	90 (1978) 318
peptide mapping of phosphorylated sites of protein	90 (1978) 54

Ribosomal acidic proteins	
of halophile bacteria, comparison with ribosomal proteins L7/L12	85 (1978) 279
of HeLa cell and rat 60 S ribosomal subunits	82 (1977) 82
Ribosomal protein	
transcription of ribosomal RNA	82 (1977) 169
L7, tertiary and quaternary structure	82 (1978) 125
L11, primary structure	84 (1977) 342
L15, primary structure	84 (1977) 347
L16, role in conformation of large subunit	88 (1978) 223
L28, primary structure	81 (1977) 214
S1	
hydrodynamic properties	81 (1977) 199
photochemical crosslinking with poly(U)	88 (1978) 131
S2, role in initiation factor-e2 binding to 40 S ribosomal subunit	87 (1978) 129
S4, electron microscopy study of complex with 16 S rRNA	84 (1977) 43
S6, phosphorylation on ribosomes	90 (1978) 270
S17	87 (1978) 37
S19	88 (1978) 227
S20, effect of ppGpp on DNA-dependent synthesis	83 (1977) 103
Ribosomal proteins	
endogenous phosphorylation in polysomes	86 (1978) 103
L7/L12	
comparison with equivalent halophile ribosomal acidic proteins	85 (1978) 279
comparison with myosin light chain A ₁	86 (1978) 282
isolation and crystallization	38 (1978) 300
-type species of <i>Artemia salina</i> and <i>Saccharomyces cerevisiae</i>	81 (1977) 308
NMR-study of conformation in <i>Escherichia coli</i>	81 (1977) 435
of bovine and rat mitochondria	85 (1978) 76
of <i>Escherichia coli</i> , PMR-study	83 (1977) 348
of 30 S subunit, interaction with tRNA	82 (1977) 259
of 50 S subunit	
interaction with transfer RNA	83 (1977) 353
of <i>Escherichia coli</i> , secondary structures	81 (1977) 204
S15 and S18	87 (1978) 31

Ribosomal RNA (rRNA)	
effect of cycloheximide on transcription in amino acid-starved ascites tumor cells	88 (1978) 135
effect of D-galactosamine on processing	84 (1977) 48
specific cleavage in ribosomes of <i>Dictyostelium discoideum</i>	82 (1977) 263
transcription into ribosomal protein	82 (1977) 169
16 S	
electron microscopy study of complex with protein S4	84 (1977) 43
native and denatured structures	84 (1977) 37
of <i>Escherichia coli</i> , primary structure	84 (1977) 337
primary structure of 5'-region in <i>Escherichia coli</i>	81 (1977) 188; 81 (1977) 193
28 S, thermal denaturation characteristics	84 (1977) 320
30 S	
binding of initiation factor 3	87 (1978) 103
codon recognition of <i>N</i> -formyl methionyl tRNA	90 (1978) 162
40 S	
methylation of proteins	89 (1978) 271
role of protein S2 in binding of initiation factor-e2	87 (1978) 129
50 S, role in colicin E3 activity	83 (1977) 293
60 S, acidic phosphoproteins of HeLa cells and rat liver	82 (1977) 85
Ribosomes	
binding domain for tRNA	87 (1978) 315
binding of capped satellite tobacco necrosis virus RNA	83 (1977) 118
effect of aurintricarboxylic acid dimers	83 (1977) 288
effect of pokeweed antiviral protein	89 (1978) 257
effect of streptomycin and viomycin on conformation	87 (1978) 21
effect of succinic, maleic and acetic anhydrides	87 (1978) 125
interchangeability of elongation factor-Tu and -1 in binding of aminoacyl-tRNA	82 (1977) 237
of <i>Dictyostelium discoideum</i> , specific cleavage of ribosomal RNA	82 (1977) 263
phosphorylation of protein S6	90 (1978) 270
photoaffinity labelling with <i>p</i> -azidopuromycin	90 (1978) 203
requirements for synthesis of ppGpp and pppGpp	83 (1977) 125
Ribulose-1,5-biphosphate, carboxylation and oxygenation	90 (1978) 1
Ricin, microcalorimetric study of binding to saccharides	81 (1977) 23
<i>Ricinus communis</i> agglutinin, interaction with <i>p</i> -nitrophenyl- β -D-galactose	85 (1978) 313
RNA	
-binding proteins, additional role of translation factors	88 (1978) 18; 88 (1978) 21
binding to columns for affinity chromatography	88 (1978) 161
entrapment in liposomes	86 (1978) 289
micromethod for determination of nucleotide base ratios	83 (1977) 81
polymerase	
multiple binding sites for nucleoside triphosphates	87 (1978) 273
I, effect of 17 β -estradiol-receptor complex	81 (1977) 91
III, of wheat embryos	82 (1977) 77
B, role of zinc	83 (1977) 297
polymerases, comparison of specificities	86 (1978) 108
synthesis	
change in developing and ageing rat brain	85 (1978) 301
control in nuclei and nucleoli of <i>Physarum polycephalum</i>	86 (1978) 303
role of polyamines in <i>Aspergillus nidulans</i>	85 (1978) 229
see also, Messenger RNA; Ribosomal RNA; Small molecular weight RNA; Transfer RNA; Translational control RNA	
Rod outer segment membranes	
effect of photoexcitation on calcium release	81 (1977) 229
proton exchange in rhodopsin	84 (1977) 217
Rotavirus, effect of concanavalin A on capsid glycoproteins	87 (1978) 26
Rous sarcoma virus, presence of DNA methylase	89 (1978) 33
Rubidium, effect on oxygen affinity of hemoglobin	90 (1978) 247

Ruthenium Red, effect on calcium transport in rat liver mitochondria	81 (1977) 142
Salt resistant lipase, purification from post-heparin plasma	83 (1977) 231
Sarcoplasmic reticulum membranes,	
localization of peripheral proteins	90 (1978) 215
transport sites for sodium and potassium	82 (1977) 42
presence of adenylate cyclase and relation to calcium accumulation	85 (1978) 149
Satellite tobacco necrosis virus RNA, binding to ribosomes	83 (1977) 118
Sciatic nerve	
synthesis of alkanes	82 (1977) 51
synthesis of long chain fatty acids	90 (1978) 336
Semlike forest virus (SFV) 42 S RNA translation	81 (1977) 399
Sendai virus protein-M, study of subunit composition	81 (1977) 395
Serine, binding to tryptophan-synthetase	89 (1978) 64
Serotransferrin, EPR-study of metal-binding	81 (1977) 371
Sex hormone	
analogs, antigluconeogenic effect and binding to glucocorticoid receptor	82 (1977) 172
-binding globulin, electrophoretic recovery from affinity matrix	87 (1978) 235
Sialidosis, role of α -neuraminidase defects	85 (1978) 20
Sialogangliosides, effect on erythrocyte membranes	90 (1978) 149
Sialoproteins, degradation in plasma membranes of normal and regenerating liver	87 (1978) 135
Siderophore-like growth factor, effect on DNA synthesis of SV40-transformed cells	88 (1978) 345

 -ferredoxin system of chloroplasts, control of NADP-malate dehydrogenase 81 (1977) 253
 identity of assimilation regulatory protein 82 (1977) 351
 (synthetase), in fibroblasts of patients with 5-oxoprolinuria and cystinosis 87 (1978) 61
- Threonyl-tRNA synthetase, of yeast 90 (1978) 97
- Thromboxane
 A₂, stabilization by albumin 82 (1977) 321
 synthase
 effect of inhibitors 82 (1977) 107
 of human platelets, role in synthesis of thromboxane B₂ and 12L-hydroxy-5,8,10-heptadecatrienoic acid 84 (1977) 271

synthesis in macrophages	89 (1978) 136
Thymidine	
incorporation in bacteriophage T4-infected cells	87 (1978) 12
kinase	
effect of 1,3-diamino-2-propanol	89 (1978) 307
effect of thymidine analogs	82 (1977) 118
Thyroid	
cells, effect of catecholamines on iodide transport	88 (1978) 287
plasma membranes, purification of thyrotrophin receptor	88 (1978) 292
-stimulating antibodies role as antibody to thyrotropin receptor	83 (1977) 63
toxic adenoma, presence of cyclic AMP-independent protein kinase	88 (1978) 211
Thyrotropin (TSH)	
effect on cyclic AMP in porcine thyroid cells	84 (1977) 191
interaction with ganglioside GT ₁ in bilayer membranes	86 (1978) 160
receptor	
interaction with thyroid-stimulating antibodies	83 (1977) 63
purification by affinity chromatography	88 (1978) 292
-releasing hormone	
NMR-study of interaction with 5'-AMP	86 (1978) 57
radioimmunoassay	83 (1977) 37
Thyroxine	
effect on acid lipase of rat liver	86 (1978) 45
effect on membrane fluidity	84 (1977) 199
induction of new myosin species in cardiac muscle	81 (1977) 391
uptake by rabbit fat cells	83 (1977) 145
Tobacco mosaic virus (TMV)	
protein, an EPR-study	85 (1978) 171
stripping of coat protein from RNA by dimethylsulphoxide	87 (1978) 17
α -Tocopherol	
effect on crosslinking of red blood cell membrane proteins	85 (1978) 267
effect on permeability of glucose and chromate in arachidonic acid-containing liposomes	82 (1977) 341
Toxin	
of black widow spider stimulation of GABA release, effect of concanavalin A	85 (1978) 241
I of <i>Androctonus australis Hector</i> , radioimmunoassay	85 (1978) 163
III of <i>Anemonia sulcata</i>	84 (1977) 247
see also, Cardiotoxin; Crotoxin; Diphteria toxin; Eudotoxin	
Transcription, see RNA synthesis	
Transfer RNA (tRNA)	
binding domain on ribosome	87 (1978) 315
binding of 3,4-dihydroxyphenylamine	88 (1978) 101
binding of oligonucleotides to the anticodon	89 (1978) 263
conformational changes	90 (1978) 187; 90 (1978) 189
effect of codon on conformation	85 (1978) 291
interaction with ribosomal proteins of 30 S subunit	82 (1977) 259
interaction with ribosomal proteins of 50 S subunit	83 (1977) 353
turnover of 5'-end phosphate	89 (1978) 260
Transglycosylation, role in peptidoglycan synthesis	89 (1978) 141
Translation factors, role as RNA-binding proteins	88 (1978) 18
Translational control RNA, effect on translation of myosin and globin mRNA	90 (1978) 209
Triethylene tetramine, removal of copper from ceruloplasmin	90 (1978) 174
Triglyceride lipase	
effect of citroconic anhydride on complex with colipase	84 (1978) 79
effect of fatty acids	85 (1978) 109
interaction with colipase and triglycerides	83 (1977) 23
Triglycerides	
effect of insulin and glucagon on synthesis	90 (1978) 57

of very low density lipoproteins, incorporation of palmitic and oleic acid	84 (1977) 167
Trilauroin, NMR-study	81 (1977) 97
Trimethylamine dehydrogenase, primary structure of active center	85 (1978) 137
Triiodothyronine	
effect on membrane fluidity	84 (1977) 199
uptake by rabbit fat cells	83 (1977) 145
Tris(hydroxymethyl)aminomethane and derivatives, effect of carnitine acetyltransferase	86 (1978) 99
Triton X-100	
binding to amphiphilic proteins	81 (1977) 151
effect on reaction kinetics of 5'-nucleotidase	89 (1978) 153
Tropomyosin	
α , binding to troponin	87 (1978) 95
presence of two polypeptide chains	85 (1978) 145
Troponin	
binding of α -tropomyosin fragments	87 (1978) 95
hybrid complexes from bovine cardiac and rabbit skeletal subunits	83 (1977) 131
Trypsinogen, comparison of crystal structure of two variants	90 (1978) 265
Tryptophan	
labelling in peptides and proteins	85 (1978) 296
-synthetase, substrate binding of β_2 subunit	89 (1978) 64
Tryptophanyl-tRNA,	
alkylation by 2',3'- <i>O</i> -[4-(<i>N</i> -2-chloroethyl- <i>N</i> -methylamino)-benzylidene]-uridine-5'-methylphosphate	90 (1978) 103
effect of phenylpyruvate and homogentisate	81 (1977) 86
synthetase, ATP-pyrophosphate exchange	82 (1977) 130
synthetases, of <i>Bacillus stearothermophilus</i> and <i>Escherichia coli</i> , sequence homologies	82 (1977) 348
Tubulin, radioimmunoassay	84 (1978) 97
Turnip yellow mosaic virus (TYMV) RNA, translation in high molecular weight proteins	86 (1978) 268
Tween 20, use in membrane protein extraction of <i>Acholeplasma laidlawii</i>	89 (1978) 69
Two-dimensional gel electrophoresis, mapping of DNA	89 (1978) 267
Tyrosine	
aminotransferase, radioassay	83 (1977) 277
hydroxylase,	
effect of ATP and other nucleotides	84 (1978) 101
of bovine adrenal medulla	86 (1978) 235
Tyrosyl-tRNA, effect of phenylpyruvate and homogentisate	81 (1977) 86
Ubiquinone	
-cytochrome <i>c</i> reductase, effect of trypsin	83 (1977) 99
role of 3-methoxy-4-hydroxy-5-hexaprenyl-benzoic acid as intermediate in biosynthesis	87 (1978) 219
synthesis from 3-hexaprenyl-4-hydroxybenzoate in yeast mitochondria	85 (1978) 249
Ubisemiquinone, role in electron transport of respiratory chain	81 (1977) 137
UDP	
glucose, effect on hemoglobin glycosylation	85 (1978) 86
-glucuronic acid, synthesis in hepatoma cells	85 (1978) 57
-glucuronyltransferase, of Gunn rat liver, effect of diethylnitrosamine	87 (1978) 207
Urate oxidase, organization in peroxisomal nucleotides	88 (1978) 151
Uricase, kinetic properties after immobilization	88 (1978) 332
Uridine transport, in normal and SV40-transformed 3T3 cells	86 (1978) 71
Uteroglobin, NMR-study	83 (1977) 217
Uterus contractility, relation with 3',5'-cyclic GMP	86 (1978) 183
Vaccinia virus DNA	
effect of endonuclease <i>Bal</i> I, <i>Eco</i> RI and <i>Bam</i> HI	83 (1977) 111
length heterogeneity	90 (1978) 41
Valinomycin	
biosynthesis	82 (1977) 337
effect on motility of <i>Bacillus subtilis</i>	82 (1977) 187

FEBS LETTERS

effect on phosphate and arsenate transport in <i>Micrococcus lysodeikticus</i>	81 (1978) 264
effect on purple membranes of <i>Halobacterium halobium</i>	81 (1977) 267
Vasoactive intestinal peptide	
effect on somatostatin release	90 (1978) 76
effect on adenylate cyclase in guinea pig brain	83 (1977) 76
Vasopressin	
effect on cyclic nucleotides in perfused rat livers	87 (1978) 196
effect on phosphate incorporation into phosphatidyl inositol	83 (1977) 267
NMR-study of interaction with neurophysins	81 (1977) 347
Verapamil, effect on 3-quinuclidinyl benzilate binding to muscarinic receptor	84 (1977) 110
Very low density lipoproteins, incorporation of palmitic and oleic acid into triglycerides	84 (1977) 167
Vinblastine, effect of isoproterenol on cyclic AMP synthesis	90 (1978) 69
Vinylglycine, effect of L-methionine γ -lyase	84 (1977) 309
Viomycin, effect on conformation of ribosomes	87 (1978) 21
Vitamin	
D	
metabolism in rats, effect of cortisol	82 (1977) 115
<i>see also</i> , Dihydroxyvitamin D; Hydroxyvitamin D	
D ₃ , role of cytochrome P-450 in 1 α -hydroxylation	86 (1978) 213
Wheat germ agglutinin	
interaction with agglutinin of <i>Ricinus communis</i>	84 (1977) 391
interaction with <i>O</i> -methyl-di- <i>N</i> -acetyl- β -chitobioside	88 (1978) 176
Xanthine	
dehydrogenase, of turkey liver, effect of allopurinol and oxypurinol	90 (1978) 305
oxidase, origin of sulfur removable by cyanide	81 (1977) 1
X-ray	
absorption spectroscopy, of cyanide-bound cytochrome <i>c</i> oxidase	84 (1977) 287
crystallography, of maltodextrin phosphorylase	85 (1978) 91
scattering	
of bacteriophage T4 lysozyme	88 (1978) 109
of chloroplast coupling factor (CF ₁)	87 (1978) 265
of microtubule structure in solution	84 (1977) 153
of ribonuclease	88 (1978) 105
of sperm whale myoglobin	88 (1978) 114
Zinc	
binding to bleomycin, NMR-study	89 (1978) 187
role in RNA polymerase B	83 (1977) 297
Zonal centrifugation, of <i>Cucumis sativus</i> glyoxysomes	88 (1978) 83
