

Guest Reviewers

Guest Reviewers for *The Journal of Thoracic and Cardiovascular Surgery*

Rigorous, expert peer review is the core function of *The Journal of Thoracic and Cardiovascular Surgery*. To this end, the *Journal* has received enormous help from many colleagues. The Editor and the Section Editors gratefully acknowledge the critical contributions of the following Distinguished Reviewers, Editorial Board members, and Guest Reviewers. We could not have done the job without their enthusiastic support.

Distinguished Reviewers

The following individuals, by virtue of having provided 5 or more exceptional reviews since 1 July 2000, have achieved the designation "Distinguished Reviewer."

Thomas A. D'Amico
Michael Coady
Malcolm DeCamp
J. William Gaynor*

Alden H. Harken*
Gerhard B. Holt

The Thoracic Surgery Foundation for Research and Education

As the holidays approach, the Thoracic Surgery Foundation for Research and Education (TSFRE) extends best wishes to all its colleagues and friends for a joyous and peaceful season. The generosity and commitment of those who have given to TSFRE have made possible our support of exciting and innovative research projects.

The end of one year and start of another is a time of reflection, introspection and consideration of the legacy we shall be leaving behind. TSFRE would ask, to acknowledge what cardiothoracic surgery has done for you, that you make an annual donation to the Foundation. Annual gifts can include securities that have appreciated in value, thereby providing additional tax relief.

The great progress that cardiothoracic surgery has witnessed in the past decade is the result of extraordinary research and education activities within the specialty. The TSFRE is proud to be a part of that progress through the awarding of research and fellowship awards to leading young men and women within our specialty.

The TSFRE has been able to do so because of the generosity and commitment that the cardiothoracic surgeon community has provided. We need you to continue to demonstrate that commitment as we move forward and seek new avenues of support to further broaden our capabilities to fund research.
