Synaptojanin 2 Functions at an Early Step of Clathrin-Mediated Endocytosis

Nicole Rusk, Phuong U. Le, Stefania Mariggio, Ginette Guay,
Cristiano Iurisci, Ivan R. Nabi, Daniela Corda, and Marc Symons

The x axis of the graph in Figure 1B was mislabelled in the Rusk et al. paper published in volume 13, page 659 of *Current Biology*. A corrected version of the graph appears below.

Additionally, the name of the fifth author was unfortunately misspelled. The author's last name should have been "Iurisci," not "Lurisci."

The authors regret the errors.
