Contents

IT Development, Big Data and Quantitative Management: Preface for ITQM 2014
F. Aleskerov, Y. Shi, A. Lepskiy ................................................................. 1

Predicting Caesarean Section by Applying Nearest Neighbor Analysis
S. Sodsee .................................................................................................... 5

Optimizing the Electric Charge Station Network of EŞARJ
H. Gavranović, A. Barut, G. Ertek, O.B. Yüzbaşoğlu, O. Pekpostalci, Ö. Tombuş ............................................................... 15

Rule-based Expert Systems for Supporting University Students

Financial Conditions Index’s Construction and its Application on Financial Monitoring and Economic Forecasting
G. Zheng, W. Yu .......................................................................................... 32

Business Mobile-line Selection in Turkey by Using Fuzzy TOPSIS, One of the Multi-criteria Decision Methods
I. Ertugrul, T. Oztas .................................................................................... 40

VAPA: Vehicle Activity Patterns Analysis based on Automatic Number Plate Recognition System Data
Y. Sun, H. Zhu, X. Zhou, L. Sun ................................................................. 48

Parallel Regularized Multiple-criteria Linear Programming
Z. Qi, V. Alexandrov, Y. Shi, Y. Tian ......................................................... 58

Incorporating Community Detection and Clustering Techniques into Collaborative Filtering Model
W. Deng, R. Patil, L. Najjar, Y. Shi, Z. Chen ........................................... 66

Interaction of Generation Companies in the Electricity Market of Russia
A. Natalia ..................................................................................................... 75

Weighted Graph Clustering for Community Detection of Large Social Networks
R. Liu, S. Feng, R. Shi, W. Guo ................................................................... 85

Comparative Analysis of ICT in Public-private Systems: The OHIM Case in the European Union and the Internal Revenue System in Chile.
F.M. Córdova, C. Durán, R. Galindo ............................................................. 95

Critical Factors on Information Technology Acceptance and Use: An Analysis on Small and Medium Brazilian Clothing Industries
R.A. dos Reis, M. do Carmo Duarte Freitas .............................................. 105

Financial Risk as a Good
W.T. Selmier II, H. Penikas, K. Vasilyeva ............................................... 115

Game-theoretic Study of Electricity Market Mechanisms
A. Vasin ...................................................................................................... 124

Effectiveness of Different Trading Strategies for Price-takers
L. Egorova .................................................................................................... 133

A Metaheuristic Approach for the Problem of Motor Fuel Distribution
B. Alexander, S. Sergey ........................................................................... 143

Determination of Transmission Capacity for a Two-node Market
E. Daylova, A. Vasin .................................................................................. 151

How to Improve Divergent Thinking Capability by Information Technology and Extenics
M. Ni, L. Yang, J. Chen, H. Chen, X. Li .................................................... 158

A Novel Shilling Attack Detection Method
A. Bilge, Z. Ozdemir, H. Polat ................................................................. 165

Analysis on the Effect of New Futures Contract Coming into Market: Taking the Related Metal Futures in SHFE for Example
W. Bin, L. Wen ........................................................................................... 175

Models of Network Excitation Control
D.A. Novikov ................................................................................................ 184

A Method for Refining a Taxonomy by Using Annotated Suffix Trees and Wikipedia Resources
E. Chernyak, B. Mirkin ............................................................................... 193

Advancing FCA Workflow in FCART System for Knowledge Discovery in Quantitative Data
A. Neznanov, D. Ilivovsky, A. Parinov ....................................................... 201

Estimating Returns to Education of Chinese Residents: Evidence from Optimal Model Selection
Y. Hu, D. Guo, S. Wang ............................................................................... 211

A Multi-task Multi-kernel Transfer Learning Method for Customer Response Modeling in Social Media
M. Sun, Z.-Y. Chen, Z.-P. Fan ................................................................... 221

doi:10.1016/S1877-0509(14)00575-4

## Contents

Integrating Quality Criteria in a Fuzzy Linguistic Recommender System for Digital Libraries  
A. Tejeda-Lorente, J. Bernabé-Moreno, C. Porcel, E. Herrera-Viedma  

Clustering and Classification of Software Component for Efficient Component Retrieval and Building Component Reuse Libraries  
C. Srinivas, V. Radhakrishna, C.V. Guru Rao  

Leveraging Localized Social Media Insights for Early Warning Systems  
J. Bernabé-Moreno, A. Tejeda-Lorente, C. Porcel, E. Herrera-Viedma  

Application of Rhombic Thinking Mode in Highway Slope Greening Design  
W.-w. Zhu, Y.-y. Tan, G. Xun  

The Search Engine IQ Test based on the Internet IQ Evaluation Algorithm  
F. Liu, Y. Shi  

Heuristics for Minimum Spanning K-tree Problem  
R.E. Shangin, P.M. Pardalos  

Analysis and Detection of Bogus Behavior in Web Crawler Measurement  
Q. Bai, G. Xiong, Y. Zhao, L. He  

A Clique-based WBAN Scheduling for Mobile Wireless Body Area Networks  
Z. Xie, G. Huang, J. He, Y. Zhang  

An Effective Personnel Selection Model  
E. Kalugina, S. Shvydun  

Construction of Clinical Pathway based on Similarity-based Mining in Hospital Information System  
H. Iwata, S. Hirano, S. Tsumoto  

Greedy Modifications of OAC-triclustering Algorithm  
D.V. Gnatyshak  

Offshore Helicopter Routing in a Hub and Spoke Fashion: Minimizing Expected Number of Fatalities  
Ø. Halskau Sr.  

Multi-task Parallel Algorithm for DSRC  
H. Na, H. Luo, W. Ting, B. Wang  

Comparative Analysis of Trust in Online Communities  
H.-Y. Lee, H. Ahn, H.K. Kim, J. Lee  

Finding Optimal Production and Selling Strategies for an Electricity Generator in a Part of a Country’s Electrical Grid  
A.S. Belenky  

A Novel Method in Extracranial Removal of Brain MR Images  
J. Du, G. Zhao, H.L. Zhang, J. He, X. Jin  

E-learning Platforms in Higher Education. Case Study  
D. Benta, G. Bologa, I. Dzitac
