Mathematical publications of Helge Tverberg

1. A new derivation of the information function, *Math. Scand.* 6 (1958) 297–298.
2. On two inequalities by S. Selberg, *Math. Scand.* 6 (1958) 308–310.
3. On the irreducibility of the trinomials $x^n \pm x^m \pm 1$, *Math. Scand.* 8 (1960) 121–126.
4. Om en sats fra kombinatorikken, *Nord. Mat. Tidsskr.* 10 (1962) 53–54 (in Norwegian).
5. En setning om multilineære polynomer, *Nord. Mat. Tidsskr.* 11 (1963) 11–12 (in Norwegian).
6. On the permanent of a bistochastic matrix, *Math. Scand.* 12 (1963) 25–35.
7. A remark on Ehrenfeucht's criterion for irreducibility of polynomials, *Prace Mat.* 8 (1963/64) 117–118.
8. Über den Wilsonschen Satz, *Elem. Math.* 20 (1965) 112.
9. A generalization of Radon's theorem, *J. London Math. Soc.* 41 (1966) 123–128.
10. On the irreducibility of polynomials $f(x) + g(y) + h(z)$, *Quart. J. Math. Oxford Ser. (2)* 17 (1966) 364–366.
11. On Dilworth's decomposition theorem for partially ordered sets, *J. Combin. Theory* 3 (1967) 305–306.
12. A further generalization of Radon's theorem, *J. London Math. Soc.* 43 (1968) 352–354.
13. A Study in Irreducibility of Polynomials, Department of Mathematics, University of Bergen, 1968.
14. On equal unions of sets, in: L. Mirsky (Ed.), *Studies in Pure Mathematics: Papers Presented to Richard Rado on the Occasion of his Sixty-fifth Birthday*, Academic Press, London, 1971, pp. 249–250.
15. A problem in combinatorial geometry on the line, in: R. K. Guy, H. Hanani, N. W. Sauer, J. Schönheim (Eds.), *Combinatorial Structures and Their Applications: Proceedings of The Calgary International Conference, June 1969*, Gordon and Breach, New York, NY, 1970, p. 455.
16. On the irreducibility of polynomials taking small values, *Math. Scand.* 32 (1973) 5–21.
17. How to cut a convex polytope into simplices, *Geom. Dedicata* 3 (1974) 239–240.

E-mail address: tverberg@mi.uib.no (H. Tverberg).

18. On Sinkhorn's representation of non-negative matrices, *J. Math. Anal. Appl.* 54 (1976) 674–677.
19. On the Milner–Shelah condition for transversals, *J. London Math. Soc.* (2) 13 (1976) 520–524.
20. On a four-colour theorem, *Math Scand.* 39 (1976) 267–270.
21. Kvadratets kvadratur og annen kombinatorisk geometri: I– II, *Normat* 27 (1979) 21–26; 68–75 (in Norwegian).
22. A separation property of plane convex sets, *Math. Scand.* 45 (1979) 255–260.
23. A proof of the Jordan curve theorem, *Bull. London Math. Soc.* 12 (1980) 34–38.
24. (with L. Rubel and A. Schinzel) On difference polynomials and hereditarily irreducible polynomials, *J. Number Theory* 12 (1980) 230–235.
25. A generalization of Radon's theorem: II, *Bull. Austral. Math. Soc.* 24 (1981) 321–325.
26. On the decomposition of K_n into complete bipartite graphs, *J. Graph Theory* 6 (1982) 493–494.
27. On Brooks' theorem and some related results, *Math. Scand.* 52 (1983) 37–40.
28. On cubic factors of certain trinomials, *Math. Scand.* 53 (1983) 178–184.
29. On Schmerl's effective version of Brooks' theorem, *J. Combin. Theory Ser. B* 37 (1984) 27–30
30. A proof of Kuratowski's theorem, in: L. D. Andersen, I. T. Jakobsen, C. Thomassen, B. Toft, P. D. Vestergaard (Eds.), *Graph Theory in Memory of G. A. Dirac: Proceedings*, June 1985, *Ann. Discrete Math.* 41 (1989) 417–419.
31. Proof of Grünbaum's conjecture on common transversals for translates, *Discrete Comput. Geom.* 4 (1989) 191–203.
32. (with A. Holme) Noen tanker on Cramers regel, *Normat* 38 (1990) 197–183 (in Norwegian).
33. On geometric permutations and the Katchalski–Lewis conjecture on partial transversals for translates, in: J. E. Goodman, R. Pollack, W. Steiger, (Eds.), *Discrete and Computational Geometry: Papers from the DIMACS Special Year*, DIMACS Series Discrete Mathematical and Theoretical Computer Science, vol. 6, American Mathematical Society, Providence, RI, 1991, pp. 351–361.
34. On a coin tossing problem by G. Bennett, *Discrete Math.* 115 (1993) 293–294.
35. (with S. Vrećica), On generalizations of Radon's theorem and the ham sandwich theorem, *European J. Combin.* 14 (1993) 259–264.
36. On the finitization of Eckhoff's conjecture, in: H. Barcelò, G. Kalai (Eds.), *Jerusalem Combinatorics '93: Papers from International Conference*, May, 1993, *Contemporary Mathematics*, vol. 178, American Mathematical Society, Providence, RI, 1994, pp. 319–324.
37. 23(+1): Coincidences of birth dates of Prime Ministers, *Newsletter of Statistical Society of Australia* 72 (1995) 16.
38. Om Cadillaccer, fødselsdatoer, geiter og statsministre, *Tangenten* 7 (1996) 43–47 (in Norwegian).

39. Proof of Reay's conjecture on certain positive-dimensional intersections, in: B. Chazelle, J. E. Goodman, R. Pollack (Eds.), *Advances in Discrete and Computational Geometry*, Contemporary Mathematics, vol. 223, American Mathematical Society, Providence, RI, 1999, pp. 369–374.
40. A combinatorial mathematician in Norway: some personal reflections, *Discrete Math.* 241 (this Vol.) (2001) 11–22.
41. (with A. Asinowski, A. Holmsen, and M. Katchalski) Geometric permutations for large families of translates, submitted.
