(Cancer Cell 14, 408-419; November 4, 2008)

In the first paragraph of the Introduction of this paper, the sentence "Gastric adenocarcinoma is the second most common cancer in the world and is strongly linked to chronic inflammation (Fox and Wang, 2007)" is incorrect. The correct sentence should read "Gastric adenocarcinoma is the second most common cause of cancer-related mortality in the world and is strongly linked to chronic inflammation (Fox and Wang, 2007)." The phrase "-related mortality" was inadvertently deleted; the authors sincerely apologize for this inaccuracy.
