Subject index to volume 43

Aggregation operator, 43:90
Aleatory uncertainty, 43:241
Ambiguity, 43:166
Artificial neural networks, 43:202

Bayesian network, 43:1

Coherence, 43:133
Compactness, 43:133
Comparative conditional possibility, 43:133
Completeness theorem, 43:117
Conditional Gaussian network, 43:1
Conditional possibility, 43:133
Consistency degree, 43:117

Data table, 43:179
Decision logic, 43:179
Deduction theorem, 43:117
De Finetti coherence criterion, 43:223
Degree of entailment, 43:117
Dempster–Shafer evidence theory, 43:241
Design procedure, 43:26
Dutch Book, 43:223

Epistemic uncertainty, 43:241, 241
Equidifferent OWA operator, 43:90, 113
Evolutionary computation, 43:59

Filter, 43:1
Finitely additive measure, 43:223
Fuzzy decision, 43:268
Fuzzy logic, 43:133
Fuzzy multiple criteria analysis, 43:268
Fuzzy optimization, 43:59
Fuzzy polynomial neuron (FPN), 43:26
Fuzzy sets, 43:268
Fuzzy systems, 43:202

Generalized $LR$ fuzzy number, 43:166
Genetic algorithms (GAs), 43:26
Graded reasoning, 43:117

Grey relation, 43:268
Group method of data handling (GMDH), 43:26

Information value, 43:179

$k$-Dependence Bayesian classifiers, 43:1

Limit theorem, 43:117
Łukasiewicz logic, 43:223

Many-valued logic, 43:223
Many-valued logics, 43:76
Minimum variance, 43:90
Minimum variance OWA operator, 43:113
Monte Carlo simulation, 43:241
Multi-layer perceptron (MLP), 43:26
Multi-objective optimization, 43:59
MV-algebra, 43:223

Naive Bayes, 43:1

Pairwise comparison, 43:268
Parameterized OWA operator, 43:90
Polynomial neuron (PN), 43:26
Possibility theory, 43:133
Privacy, 43:179
Quantitative models, 43:179

Random sets, 43:241
$R_0$-logic, 43:117

Self-organizing neural networks (SONN), 43:26
Semi naive Bayes, 43:1
State, 43:223
Subjective probability, 43:223

Tree augmented naive Bayes, 43:1
Truth degree, 43:117

Value, 43:166

Wrapper, 43:1
