

ANNOUNCEMENT

1998 Best Paper Award

The Awards Committee felt that two papers were of exceptional merit and therefore selected co-winners.

Stefan Heinrich, Universität Kaiserslautern, shares the *Journal of Complexity's* Best Paper award for 1998 for his paper, "Monte Carlo Complexity of Global Solution of integral Equations," which appeared in the June 1998 issue, with Peter Kirrinnis, Universität Bonn, for his paper, "Partial Fraction Decomposition in $\mathbb{C}(z)$ and Simultaneous Newton Iteration for Factorization
