(Cell Reports 10, Issue 4, February 3, 2015; pp 574–585)

In the originally published version of this article, although the results were correctly described in the text, the labels for the lower right panel of Figure 6B had been mistakenly transposed during the preparation for final submission. The corrected figure is provided below and now appears within the article online as well.

The authors apologize for any confusion the error may have caused.
