Editorial
R. Fries .................................................................................................................. 1

Effect of Modified Atmosphere Packaging on the Shelf-life of Common Carp (Cyprinus carpio) Steaks
J. Babic, M. Milijasevic, D. Vranic, S. Veskovic-Moracanin, J. Djinovic-Stojanovic ........................................ 2

When Man Met Meat: Meat in Human Nutrition from Ancient Times Till Today
M.Z. Baltic, M. Boskovic ........................................ 6

Sensory and Microbiological Parameters of Stored Wild Boar Meat

Molecular Characterization of Lactic Acid Bacteria in Levačka Sausage
B. Borovic, B. Velebit, S.V. Moracanin, B. Lakicevic, T. Baltic ........................................ 14

Antimicrobial Activity of Thyme (Tymus vulgaris) and Oregano (Origanum vulgare) Essential Oils Against Some Food-borne Microorganisms

Reducing the Sodium Chloride Content in Chicken Pate by Using Potassium and Ammonium Chloride

Biological Meat Safety: Challenges Today and the Day After Tomorrow
S. Buncic ........................................ 26

Raising Entire Males or Immunocastrates – Outlook on Meat Quality
M. Candek-Potokar, M. Skrlep, N.B. Lukac ........................................ 30

Reduction of Boar Taint Compounds in Krupški prsut through Dry-curing Process
M. Candek-Potokar, M. Skrlep, N.B. Lukac, E. Labussière ........................................ 34

Detection and Identification of S. Carnosus in Starter Cultures Using Real Time PCR and Subsequent HRM Analysis of Amplification Products
I.M. Chernukha, M.Yu. Minaev, K.A. Kurbakov, D.S. Bataeva ........................................ 38

Hazard Analysis and Risk Assessment in Meat Production Practice in Russian Federation
I. Chernukha, O. Kuznetsova, V. Sysoy ........................................ 42

Identification of Biomarkers of Horse Muscle Tissue Using Proteomic Strategy
I. Chernukha, Y. Manyukhin ........................................ 46

Meat By-product is a Source of Tissue-specific Bioactive Proteins and Peptides Against Cardio-vascular Diseases
I.M. Chernukha, L.V. Fedulova, E.A. Kotenkoiva ........................................ 50

Distribution of Niclosamide Residues in Meat and Internal Organs of Common Carp
M. Cirkovic, B. Kartalovic, N. Novakov, M. Pelic, V. Djordjevic, V. Radosavljevic, N. Aleksic ........................................ 54

Safety Aspects of Nanotechnology Applications in Food Packaging
M. Dimitrijevic, N. Karabasil, M. Boskovic, V. Teodorovic, D. Vasiliev, V. Djordjevic, N. Kilibarda, N. Cobanovic ........................................ 57

Environmental Impact of Meat Industry – Current Status and Future Perspectives
I. Djekic ........................................ 61

Distribution of Mercury in Three Marine Fish Species
J. Djinovic-Stojanovic, D. Nikolic, D. Vranic, S. Stefanovic, M. Milijasevic, J. Babic, S. Jankovic ........................................ 65

Fermented Sausage Casings

The Attitudes and Habits of Serbian Schoolchildren to Consumption of Fish
V. Djordjevic, D. Sarcevic, R. Petronijevic ........................................ 73

Some Quality Parameters of Dry Fermented Sausages (Čina kobašica)
N. Dznic, M. Ivec, B. Sojac, M. Jokanovic, V. Tomovic, D. Okanovic, J.P. Raljic ........................................ 77

Control of Food Animals in their Chains: Tools to Detect Unwanted Substances and Factors
R. Fries ........................................ 81

Nanotechnology and Food: Brief Overview of the Current Scenario
F. Galloccchio, S. Bellucco, A. Ricci ........................................ 85
