

List of Forthcoming Articles

The circular chromatic index of graphs of high girth. Tomáš Kaiser, Daniel Král', Riste Škrekovski, and Xuding Zhu

Distance-regular Cayley graphs on dihedral groups. Štefko Miklavič and Primož Potočnik

Small subsets inherit sparse ε -regularity. Stefanie Gerke, Yoshiharu Kohayakawa, Vojtěch Rödl, and Angelika Steger

On the chromatic number and independence number of hypergraph products. Dhruv Mubayi and Vojtěch Rödl

Hajós' conjecture for line graphs. Carsten Thomassen
