In the article *Detection of paroxysmal atrial fibrillation by prolonged electrocardiographic recording after ischaemic stroke in patients aged < 60 years: A study with 21-day recording using the SpiderFlash® monitor* published in March 2015 in the 108/3 issue of the *Archives of Cardiovascular Diseases*, an error occurred. Several paragraphs have been accidentally moved, in the printed version but also in the PDF version available from February 7, 2015 to May 18, 2015.

The correct PDF version is available on line since 19 May, 2015 here (<http://dx.doi.org/10.1016/j.acvd.2014.11.003>).

We apologize for this error to the authors and to our readers.

The publisher.
