Primary Aortoenteric Fistula: Two New Case Reports and a Review of 44 Previously Reported Cases, A. H. Tareen and T. V. Schroede ............................................................................................................................ 5

ORIGINAL ARTICLES

Saphenous Vein Bypass: An Alternative to Internal Carotid Reconstruction, A. Branchereau, P. Pietri, P. E. Magnan and E. Rosset ........................................................................................................................................ 26

The Long-term Outcome of Proximal Vein Thrombosis during Pregnancy is not Improved by the Addition of Surgical Thrombectomy to Anticoagulant Treatment, S. Törnqvist, R. Hjertberg, S. Rosfors, K. Bremme, M. Eriksson and J. Swedenborg ................................................................................................................................... 31

Computerised Tomography Findings as a Risk Factor in Carotid Endarterectomy: Early and Late Results, P. Cao, G. Giordano, P. De Rango, G. Carlini, F. Verzini, B. Parente and L. Moggi ....................................................... 37

Recovery of Endothelial Cells and Prostanoid Production in Endothelial Cell-Seeded Grafts, N. Jensen, J. Brunkwall, K. Fält, B. Lindblad and D. Bergqvist .................................................................................................. 54

National History of Infringuinal Vein Bypass Stenoses: Early Lesions Increase the Risk of Thrombosis, T. G. Nielsen ............................................................................................................................................................. 60

Combined Vascular Reconstruction and Microvascular Muscle Flap Transfer for Salvage of Ischaemic Legs with Major Tissue Loss and Wound Complications, M. Lepäntalo and E. Tukiainen .................................................................................. 65

Aspirin Increases Tissue Oedema after Skeletal Muscle Ischaemia and Reperfusion, B. D. Braithwaite, P. V. Petri, W. S. Moore, H. Gelabert, D. N. Pollen, J. J. Earnshaw and W. J. Quinones-Baldrich ............................................................................ 76

Cerebral Haemodynamics During Thoracic- and Thoracoabdominal Aortic Aneurysm Repair, O. D. Sæther, R. Juul, P. Aadahl, T. Størenholm and H. O. Myhre ........................................................................................................ 81

Peripheral Arterial Occlusions: Local Low-Dose Thrombolytic Therapy with Recombinant Tissue-Type Plasminogen Activator (rt-PA), H. Hess, A. Mietaschk, P. von Bilderling and P. Neller ............................................................ 97

ENDOVASCULAR AND SURGICAL TECHNIQUES

The Varicid: A New Device for Saphenous Sclerotherapy, P. Cadet ............................................................ 113

Endovascular Exclusion of Juxtarenal Anastomotic Pseudoaneurysm, B. Lindblad, K. Ivanov, T. A. M. Chuter, M. Malina, J. Brunkwall and B. Risberg ............................................................ 116

Embolisation and residual iliac artery aneurysms 482
Endoluminal repair following abdominal aortic aneurysms 11
Endoprothesis of abdominal aortic aneurysms 182
Endothelial cells attachment on ePTFE vascular grafts 321
and prostanol production 54
seeding of de-endothelialised human arteries 46
Endovascular aneurysm repair, oxygen free radicals in 70
Endovascular aortic aneurysm surgery 18
Endovascular exclusion of juxtarenal anastomotic pseudoaneurysm 116
Endovascular intervention, duplex surveillance after 145
Endovascular remote endarterectomy, ring strip cutter in 105
Endovascular repair of residual iliac artery aneurysms 482
Endovascular stents on dilating aortas 287
of internal carotid artery false aneurysm 375
European Union: regulatory requirements for medical devices in 3
Extraluminal recanalisation of femoropopliteal segment 246
Femoral artery, PTA on 167
Femorodistal bypass
grafts, perioperative iloprost on 363
patency rates 464
Femorofemoral crossover grafting
to aortic occlusion treated by 372
for claudication 437
Femoropedal bypass, patency rates 464
Femoropopliteal arteries, duplex ultrasound after angioplasty 418
Femoropopliteal obstructive disease 145
Femoropopliteal occlusive disease, ring strip cutter device in 105
Femoropopliteal segment, extraluminal recanalisation of 246
Fibrillin and aneurysmal disease 162
Fibronecitin, endothelial cell attachment on ePTFE vascular grafts 321
Follow-up studies after femoropopliteal vascular surgery 282
Free tissue transfer and vascular reconstruction 65
Graft occlusion, complete follow-up for 282
Graft stenosis, early lesions and thrombosis 60
Graft-covered self-expandable stent on arteriovenous fistula 243
Haemodialysis access, failure of arteriovenous fistulae for 207
Helical computed tomography on abdominal aortic aneurysms 354
Heparinisation during aortic aneurysm surgery 86
Homografts 272
Hyperhomocysteinaemia in vein graft stenosis 304
Hypertension, familial 162
Hypertrrophic osteoarthropathy of lower limb 497
Hypoxia and atherosclerosis 218
