EDITOR'S FOREWORD

This issue contains the journal versions of eight papers from the *10th ACM SIGACT–SIGMOD–SIGART Symposium on Principles of Database Systems*, held in Denver, Colorado, May 29–31, 1991. The papers were selected from the preliminary versions in the proceedings and refereed in the usual manner. I thank the referees and authors for their efforts and their patience.

I note with deep regret that one of the authors, Donald B. Johnson, passed away in September of 1994.
