Original articles

Oral information in orthopaedics: How should the patient's understanding be assessed?
  K. Giudici, P. Gillois, H. Coudane and F. Claudot ................................................................. 133

Titanium-titanium modular neck for primary THA. Result of a prospective series of 170 cemented
THA with a minimum follow-up of 5 years
  M. Ollivier, S. Parratte, A. Galland, A. Lunebourg, X. Flecher and J.-N. Argenson .................. 137

The Asia proximal femoral nail antitrotation versus the standard proximal femoral antitrotation nail
for unstable intertrochanteric fractures in elderly Chinese patients
  J. Li, L. Cheng and J. Jing ........................................................................................................... 143

Simultaneous bilateral total knee arthroplasty in severe hemophilia: A retrospective
cost-effectiveness analysis
  A. Thès, V. Molina and T. Lambert ........................................................................................... 147

Staged reimplantation for the treatment of fungal peri-prosthetic joint infection following primary
total knee arthroplasty

Does pelvic width influence patellar tracking? A radiological comparison between sexes
  C.-C. Wu ...................................................................................................................................... 157

Postoperative discomfort after outpatient anterior cruciate ligament reconstruction: A prospective
comparative study
  N. Lefevre, S. Klouche, O. de Pamphilis, C. Devaux, S. Herman and Y. Bohu ............................ 163

Minimally invasive posterior approach in the popliteal fossa for semitendinosus and gracilis tendon
harvesting: An anatomic study
  X. Roussignol, S. Bertiaux, S. Rahali, D. Potage, F. Duparc and F. Dujardin ............................... 167

Isolated meniscal injuries in paediatric patients: Outcomes after arthroscopic repair
  G. Lucas, F. Accadbled, P. Violas, J. Sales de Gauzy and J. Knörr ........................................... 173

Percutaneous bunionette correction: Results of a 49-case retrospective study at a mean 34 months’
follow-up
  O. Laffenêtre, B. Millet-Barbé, V. Darcel, J. Lucas y Hernandez and D. Chauveaux .................... 179

Evaluation of a new baseplate in reverse total shoulder arthroplasty – comparison of biomechanical
testing of stability with roentgenological follow up criteria
  U. Irlenbusch and G. Kohut ....................................................................................................... 185

doi:10.1016/S1877-0568(15)00075-4
Can reverse shoulder arthroplasty in post-traumatic revision surgery restore the ability to perform activities of daily living?  

Intrinsic and extrinsic risk factors for nonunion after nonoperative treatment of midshaft clavicle fractures  
W. Liu, J. Xiao, F. Ji, Y. Xie and Y. Hao  

Critical analysis of olecranon fracture management by pre-contoured locking plates  
L. Niglis, F. Bonnomet, B. Schenck, D. Brinkert, A. Di Marco, P. Adam and M. Ehlinger  

Clinically relevant heterotopic ossification after elbow fracture surgery: A risk factors study  
C.C. Hong, N. Nashi, H.W. Hey, Y.H. Chee and D. Murphy  

Biomechanical study of dynamic changes in L4-L5 foramen surface area in flexion and extension after implantation of four interspinous process devices  

Relationship between autologous bone graft osteointegration and correction loss after antero-posterior spondylodesis of traumatic vertebral body fracture  
D. Kubosch, L. Konstantinidis, P. Helwig, A. Hirschmüller, P.C. Strohm and N.P. Südkamp  

Short-segment posterior instrumentation combined with calcium sulfate cement vertebroplasty for thoracolumbar compression fractures: Radiographic outcomes including nonunion and other complications  

Review article  
Dynamic balance assessment during gait in spinal pathologies – A literature review  
A.L. Simon, B. Ilharreborde, P. Souchet and K.R. Kaufman  

Technical notes  
Femoral lengthening during hip resurfacing arthroplasty: A new surgical procedure  
L. Vasseur, B. Ayoub, P. Mesnil, G. Pasquier, H. Migaud and J. Girard  

Tantalum cones and bone defects in revision total knee arthroplasty  
F. Boureau, S. Putman, A. Arnould, G. Dereudre, H. Migaud and G. Pasquier  

Flexor digitorum brevis tendon transfer to the flexor digitorum longus tendon according to Valtin in posttraumatic flexible claw toe deformity due to extrinsic toe flexor shortening  
H. Gonçalves, C. Kajetanek, W. Graff, M. Thiongo and C. Laporte  

Letters to the Editor  
S. Ekinci, M. Agilli, G. Horzum Ekinci and O. Erser  

Response to the letter by Safak Ekinci et al.  
Y.P. Charles  

B. Masson  

Response to the letter by B. Masson  
J. Girard  

Erratum  
P. Boyer, B. Villain, A. Pelissier, P. Loriault, B. Dallaudière, P. Massin and P. Ravaud
