Contents EATCS Bulletin
Number 56, June 1995

1. **EATCS Matters**
   - Letter from the President .................................................. 1
   - The French Chapter (by Ph. Schnoebelen) .................................. 2
   - The Italian Chapter (by R. Gorrieri) ....................................... 17

2. **Gödel Prize** ........................................................................ 23

3. **ICALP '95**
   - ICALP '95, Scientific and Social Program (by F. Gécseg) ............ 25

4. **Contents of TCS** .................................................................. 34

5. **EATCS Monographs and Texts** .............................................. 39

6. **Sister Organizations**
   - News from the European Association for Computer Science Logic (by E. Börger) .............. 51
   - FACS from the UK (by D. Simpson) ........................................ 53
   - BCS-FACS Xmas Workshop ..................................................... 58

7. **Institutional Sponsors** .......................................................... 59
   - BRICS – Computer Science Departments of University of Aarhus and Aalborg University (by U.H. Engberg, G. Winskel) .............. 59

8. **News from Australia** (by J. Staples) ...................................... 65

9. **News from New Zealand** (by C. Calude) .................................. 71

10. **News from Japan** (by O. Watanabe)
    - Nippon from South to North – Kobe, the big earthquake (by N. Katoh) ..................... 74

11. **News from Latin America** (by R. Baeza-Yates) ...................... 77

12. **Columns**
    - H. Ehrig: The Algebraic Specification Column
    - Correctness of actualization for parameterized implementation concepts based on constructors and abstractors (by H. Ehrig, H.-J. Kreowski, F. Orejas) .................................................. 79
    - M. Nielsen: The Concurrency Column
    - All action-based behavioural equivalences are undecidable for labelled Petri nets (by P. Jančar) .................................................. 86
    - A. Salomaa: The Formal Language Theory Column
    - From Parikh vectors to GO territories ........................................ 89

13. **Technical Contributions**
    - H. Fernau: A predicate for separating language classes .................. 96
    - C.N. Galley: An Omega(log n) time linear cost lower bound for the single function coarsest partition problem ........................................ 97
A. Meduna: A trivial method of characterizing the family of recursively enumerable languages by scattered context grammars .................................................. 104
M. Moshkov: Relationship between depth of deterministic and nondeterministic acyclic programs computing functions of k-valued logic .......................... 106
H. Prodinger: Digital search trees and basic hypergeometric functions .................. 112

14. Surveys and Tutorials
Quantum Computation and Complexity Theory II (by K. Svozil) .......................... 116

15. Reports on Conferences
Twelfth Symposium on Theoretical Aspects of Computer Science (STACS ’95) 2–4 March 1995, Munich, Germany (report by M. Kudlek) ......................... 137
International Workshop on Universal Machines and Computations, (MCU/UMC ’95) 29–31 March 1995, Paris, France (report by M. Kudlek) .............. 141
Latin American Theoretical INformatics (LATIN ’95), 3–7 April 1995, Valparaiso, Chile (report by V. Diekert) ................................................................. 144
Eleventh Annual Meeting of the British Colloquium for Theoretical Computer Science, April 1995, Swansea, UK (report by John Stell)...................... 145

16. Conference Announcements
DIMACS Special Year on Logic and Algorithms .................................................. 146
Twenty-seventh Annual ACM Symposium on Theory of Computing (STOC ’95), Las Vegas, NV, USA 29 May–1 June 1995 ...................................... 148
Tenth Annual IEEE Conference on Structure in Complexity Theory, 19–22 June 1995, Minneapolis, MN, USA ................................................................. 157
Tenth Annual IEEE Symposium on Logic in Computer Science (LICS ’95), 26–29 June 1995, San Diego, CA, USA ......................................................... 161
Sixteenth International Conference on Application and Theory of Petri Nets, 26–30 June 1995, Torino, Italy ............................................................. 166
Conference on Computer-Aided Verification (CAV ’95), 3–5 July 1995, Leige, Belgium 173
Eighth Conference on Computational Learning Theory (COLT ’95), 5–8 July 1995, Santa Cruz, CA, USA ................................................................. 182
Third International Conference on the Mathematics of Program Construction (MPC ’95), 17–21 July 1995, Kloster Irsee, Germany .............. 185
Seventh Annual ACM Symposium on Parallel Algorithms and Architectures (SPAA ’95) and Fifth ACM SIGPLAN Symposium on Principles and Practice of Parallel Programming (PPoPP ’95), User Interface Workshop on Parallel Programming Software, 17–22 July 1995, Santa Barbara, CA, USA ................................. 190
Seventh Canadian Conference on Computational Geometry, 10–14 August 1995, Québec, PQ, Canada ................................................................. 204
Newton Institute Euroconference on Advances in Type Systems for Computing, 14–18 August 1995, Cambridge, UK ............................................. 205
Fourth Workshop on Algorithms and Data Structures (WADS ’95), 16–18 August 1995, Kingston, Canada ................................................................. 206
Workshop on Computability and Complexity in Analysis, 19–20 August 1995, Hagen, Germany ................................................................. 215
Fourteenth ACM SIGACT–SIGOPS Symposium on Principles of Distributed Computing (PODC ’95), 20–23 August 1995, Ottawa, Canada 216
Tenth International Conference on Fundamentals of Computation Theory (FCT ’95), 22–25 August 1995, Dresden, Germany ................................. 222
Twentieth International Symposium on Mathematical Foundations of Computer Science (MFCS '95), 28 August–1 September 1995, Prague, Czech Republic ................. 228
Eleventh ADT Workshop and Eight General Compass Meeting, 19–23 September 1995, Oslo, Norway ........................................................................... 236
Graph Drawing '95 (GD '95), 20–22 September 1995, Passau, Germany .......... 239
International Static Analysis Symposium (SAS '95), 25–27 September 1995, Glasgow, UK ............................................................................. 244
Fifth Italian Conference on Theoretical Computer Science, 9–11 November 1995, Ravello, Italy .............................................................................. 249
Second International Course on Petri Nets for Latin America, 20–28 November 1995, Campina Grande, Brazil .............................................................. 250
Twenty-second international Winter School on Theoretical and Practical Aspects of Computer Science (SOFSEM '95), 25 November–2 December 1995, Milovy, Czech Republic ................................................................. 251
1995 Asian Computing Science Conference (ACSC '95), 11–13 December 1995, Pathumthani, Thailand ................................................................. 254
Fifteenth Conference on the Foundations of Software Technology and Theoretical Computer Science (FST&TCS '95), 18–20 December 1995, Bangalore, India ......................................................................................... 256
Sixth Great Lakes Symposium on VLSI, 22–23 March 1996, Ames, IA, USA ...... 261
First International Conference on Coordination Models and Languages (COORDINATION '96), 15–17 April 1996, Cesena, Italy ............................ 262
Seventeenth International Conference on Application and Theory of Petri Nets, 24–28 June 1996, Osaka, Japan ................................................................ 265
23rd International Colloquium on Automata, Languages, and Programming (ICALP '96), 8–12 July 1996, Paderborn, Germany ................................. 268

17. Agenda of Events. ........................................................................... 270

18. Reports on Computer Science Departments and Institutes
Department of Computer Science, York University, York, ON, Canada .......... 280

19. Technical Reports and Publications
University of Trier, Department of Computer Science, Trier, Germany .......... 283
University of Utrecht, Department of Computer Science, Utrecht, The Netherlands 289

20. Abstracts of Ph.D. Theses
P.J. de Bruin: Inductive types in constructive languages .............................. 292
C. Câmpeanu: Topological methods in descriptive complexity ........................ 296
M. Enciso: Temporal logic and automated theorem proving. Efficiency and parallelism ................................................................. 298
C.N. Galley: On the parallel complexity of combinatorial problems ............... 301
A. Gráf: Coloring and recognizing special graph classes ............................. 303
F. de Kogel: Equational proofs in tableaux and logic programming ............... 306
A. Roncato: On some models of computations: relations, feasibility and computational bounds ................................................................. 310

L. Roversi: Semantics of lambda calculi designed from intuitionistic linear logic ........ 312
T. Knuutila: On the inductive inference of regular string and tree languages ............. 314
T. Schwentick: On winning Ehrenfeucht games and monadic NP .......................... 318
T. Suel: Routing and sorting on fixed topologies ........................................... 322
T. Verhoeven: A theory of delay-insensitive systems ....................................... 326
G. Viehstaedt: A generator for diagram editors ............................................. 329
K. Weihe: Routing and flow problems in planar graphs .................................... 332

21. Moving Around ................................................................. 334

22. EATCS Leaflet ................................................................. 335

23. Cartoons ................................................................. 50, 64, 78
