The version of this manuscript published in print and online on December 4th, 2007, differs from the version previously published online in that a Note Added in Proof has now been included to acknowledge that while this manuscript was under revision, another group reported observations similar to those presented in Figure 1B and Figure S1. The following is the complete reference listing for that study:

Dong, J., Feldmann, G., Huang, J., Wu, S., Zhang, N., Comerford, S.A., Gayyed, M.F., Anders, R.A., Maitra, A., and Pan, D. (2007). Elucidation of a universal size-control mechanism in *Drosophila* and mammals. *Cell* 130, 1120–1133.
