ERRATUM

Attention is called to an unfortunate error which occurred in the paper "Attempts on Passive Local Sensitization by Intracutaneous Injection of Cells from Freshly Excised Lymph Nodes of Eczema Allergies" by H. Haxthausen in volume 4, page 239, October 1953.

All the concentrations of the solutions used for intradermal injections are indicated as % (pro cent), but should be 0/00 (pro mille), i.e. one tenth of the concentration indicated.
