AUTHOR INDEX

Volume 8 (1984)

Aigner, M. and M. Fromme, A game of cops and robbers
Allouche, J.-P. and C. Reder, Oscillations spatio-temporales engendrées par un automate cellulaire
Assmann, S.F. and D.J. Kleitman, Characterization of curve map graphs
Astola, J., On the asymptotic behaviour of Lee-codes
Babayev, D.A. and F. Glover, Aggregation of nonnegative integer-valued equations
Bandelt, H.J. and J.P. Barthélémy, Medians in median graphs
Barthélémy, J.P., see H.J. Bandelt
Bertolazzi, P., C. Leporelli and M. Lucertini, Alternative group relaxation of integer programming problems
Colbourn, C.J., The complexity of completing partial Latin squares
Ehrenfeucht, A. and G. Rozenberg, On regularity of languages generated by copying systems (Note)
Farrell, E.J. and S.A. Wahid, Matchings in pentagonal chains
Fromme, M., see M. Aigner
Glover, F., see D.A. Babayev
Goles, E. and M. Tchuente, Iterative behaviour of one-dimensional threshold automata (Communication)
Greenberg, H.J., J.R. Lundgren and J.S. Maybee, Inverting graphs of rectangular matrices
Gusfield, D., Matroid optimization with the interleaving of two ordered sets
Hashimoto, H., Transitive reduction of a nilpotent boolean matrix
Hashimoto, H., Transitive reduction of a rectangular boolean matrix
Hock, J.L. and R.B. McQuistan, A note on the occupational degeneracy for dimers on a saturated two-dimensional lattice space (Note)
Hopkins, L.B., W.T. Trotter, Jr. and D.B. West, The interval number of a complete multipartite graph
Hsu, W.-L., see A. Naamad
Kleitman, D.J., see S.F. Assmann
Lee, D.T., see A. Naamad
Leporelli, C., see P. Bertolazzi
Lucertini, M., see P. Bertolazzi
Lundgren, J.R., see H.J. Greenberg
Martins, E.Q.V., An algorithm to determine a path with minimal cost/capacity ratio
Maybee, J.S., see H.J. Greenberg
McQuistan, R.B., see J.L. Hock
Naamad, A., W.-L. Hsu and D.T. Lee, On the maximum empty rectangle problem
Paoli, M., Comparison of mean distance in superposed networks
Péroche, B., NP-completeness of some problems of partitioning and covering in graphs
Reeski, A., A network theory approach to the rigidity of skeletal structures, Part II.
Laman’s theorem and topological formulae
