

Volume 208, Number 1 (1999), in Article ID dbio.1998.9182 “A Hypomorphic *Myogenin* Allele Reveals Distinct *Myogenin* Expression Levels Required for Viability, Skeletal Muscle Development, and Sternum Formation,” by Jay L. Vivian, Lin Gan, Eric N. Olson, and William H. Klein, pages 44–55: On page 49, the x-axis of Fig. 2C was incorrect as printed. For the reader’s convenience, the correct Fig. 2C and its corresponding legend are printed here.

This erratum is Article ID dbio.1999.9305.

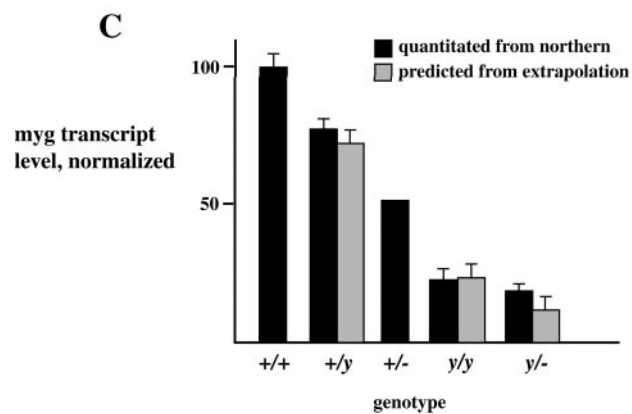

FIG. 2. *Myogenin* expression from the *y* allele. . . (C) Histogram comparing the total amount of functional *myogenin* transcript in each genotype with the amount of *myogenin* transcript predicted from extrapolation of *y* transcript level in *+/y* tissue.
