Title Index

A
A Novel Phantom for Teaching and Learning Ultrasound-guided Needle Manipulation 21:152
A Pericardial Lesion 21:229
Amniotic Fluid Volume Assessment Using the Single Deepest Pocket Technique in Bangladesh 21:202
Anal and Rectal Endosonography in Clinical Practice: What is the Opinion of Clinicians Regarding Current Indication? 21:213
Application of High Frequency Ultrasound on Wrist Joints 21:119
Application of Ultrasound in Sports Injury 21:1

B
B-scan for the Diagnosis of Choroidal Diseases 21:123
Bascom’s Simple Pilonidal Sinus Surgery: Simpler with Ultrasound Guidance 21:97

C
Celiacomesenteric Trunk as a Cause of Median Arcuate Ligament Syndrome 21:39
Contrast-enhanced Ultrasound for Detection of Traumatic Splenic Bleeding in a Canine Model During Hemorrhagic Shock and Resuscitation 21:207
Cor Triatriatum in an Adult with Late Presentation of Symptoms 21:156

D
Dilated Cardiomyopathy: An Infrequent Cause of Posthepatic Portal Hypertension 21:32

E
Effect of Microembolization on Left Ventricular Systolic Wall Motion and Dyssynchrony Using Dipyridamole Stress Two-dimensional Speckle Tracking Imaging: An Experimental Study 21:189
Evaluating the Regional Myocardial Function by Left Ventricular Radial Myocardial Motion Velocity Gradient: An Omni-directional M-mode Echocardiography Study 21:71
Evaluation of Lower Limb Varicose Vein by Ultrasonic Venous Duplex Examination 21:76
Exercise-induced Acute Mitral Valve Chordae Rupture 21:159

F
Fateful Interaction between Biomedical Engineering and SUMROC 21:111
Finger Disorder 21:163

H
History of Asian Federation of Societies for Ultrasound in Medicine and Biology: Update in 2012 21:54

I
Imaging Findings of Splenic Paragonimiasis: Using Contrast-Enhanced Ultrasonography 21:36
Incidental Detection of Thoracoomphalopagus at Amniocentesis in a Twin Pregnancy 21:46
Increased Hepatic Arterial Dilatation 21:226
VI

M
Measuring Myocardial Deformation: Should We Go Back from Two and Three Dimensions to Linear Measurement? 21:173
Medial Knee Pain 21:169
Minimally Invasive Ultrasound-guided Synovial Biopsy Using SuperCore Biopsy Instrument 21:132
Multiple Proximal Pulmonary Artery Thrombi Detected by Transthoracic Echocardiography 21:100

O
Occult Papillary Thyroid Carcinoma Initially Presenting as Cervical Cystic Lymph Node Metastasis: Report of Two Cases 21:92

P
Potential of Ultrasound Nakagami Imaging in Clinical Tissue Characterization 21:51
Prenatal Diagnosis of Congenital Harlequin Ichthyosis with Two- and Three-dimensional Ultrasound in the Third Trimester 21:221
Problems in Applying Radial Myocardial Motion Velocity Gradient by Omni-directional M-mode Echocardiography for Regional Myocardial Function in Hypertrophic Cardiomyopathy 21:226

R
Radiofrequency Ablation in Nodular Thyroid Diseases 21:62
Repaired Ulnar Collateral Ligament of Elbow 21:165

S
Soft Tissue Mass 21:227
Sonography of the Normal Anterior Cruciate Ligament: A Preliminary Report 21:16
Spontaneous Regression of Infantile Hepatic Hemangioendothelioma 21:107
Spontaneous Septum Pellucidum Fenestration Complicating Posthemorrhagic Hydrocephalus in an Extremely Low Birth Weight Infant 21:103

T
The Impact of Phacoemulsification on the Physiology of Corneal Endothelial Cells and the Management of Cataract Associated with Corneal Endothelial Disease 21:121
The Imprecision of Sonographic Assessment of Jugular Venous Distension Among Novice Operators 21:143
The Predictive Value of Specific Emergency Sonographic Signs for Cholecystitis 21:29
The Use of Transient Elastography in Liver Disease 21:179
Three-dimensional Doppler Indices for Breast Masses: Systematic Review of Diagnostic Test Accuracy 21:126

U
Ultrasoundography in Assessing Oropharyngeal Dysphagia 21:181
Ultrasoundography-Guided Radiofrequency Ablation in Hepatocellular Carcinoma: Current Status and Future Perspectives 21:9
Ultrasound Appearances of Dermatofibrosarcoma Protuberans 21:21
Ultrasound Imaging to Predict the Prognosis of Small-bore Chest Tube Treatment for Empyema and Complicated Parapneumonic Effusion 21:176
Ultrasound-Assisted Sural Nerve Biopsy: Technical Note and Correlation of Ultrasound Imaging with Operative Findings 21:43
Unusual Testicular Ultrasound Findings in a Child with Henoch-Schönlein Purpura 21:217

V
Vibration Analysis of Circular Membrane Model of Alveolar Wall in Examining Ultrasound-induced Lung Hemorrhage 21:81
Virtual Cystoscopy Using 3D Ultrasound 21:146
Volume Changes in Gallbladder in Association with Intravenous Use of Nonionic Contrast Agents 21:198
