942  Long-term outcome of left ventricular outflow tract after biventricular repair using Damus-Kaye-Stansel anastomosis for interrupted aortic arch and severe aortic stenosis
Shin Takabayashi, MD, Hideaki Kado, MD, Yuichi Shiokawa, MD, Kouji Fukae, MD, and Toshihide Nakano, MD, Fukuoka, Japan

944  A new cannula for innominate artery cannulation
Paolo Stassano, MD, Antonino Musumeci, MD, Gabriele Iannelli, MD, Giuseppe D’Alise, CCCP, and Michele Mottola, MD, Naples, Italy

946  Posterior pericardial approach for ascending-to-descending aortic bypass for anastomotic leak of infected interpositional graft
Masakazu Nakao, MD, See Lim Lim, MBBS, FRCS, FAMS, Kiang Hiong Tay, MBBS, FRCR, FAMS, and Yeow Leng Chua, MBBS, FRCS, FAMS, Singapore

948  Right ventricular outflow tract resection for treatment of refractory ventricular tachycardia in a 2-year-old child
S. Kanaan, MD, K. Shamsuddin, MD, M. Silka, MD, and W. Wells, MD, Los Angeles, Calif

Letters to the Editor

950  Does the introduction of off-pump coronary artery bypass into aortic arch aneurysm repair minimize the period of myocardial ischemia and cardiopulmonary bypass?
Hisato Takagi, MD, PhD, and Takaya Umemoto, MD, PhD, Shizuoka, Japan

Reply
Hitoshi Yokoyama, MD, Fukushima, Japan

952  Pressure gradient in hemodynamics: Is it measured in units of pressure?
Aristotle D. Protopapas, FRCS, Winchester, United Kingdom

Reply
Henry L. Waters III, MD, Detroit, Mich

952  Uses of the leukocyte-depleting filter
Donald Whitaker, FRCS(ED), London, United Kingdom
