Boyle, Angie (2017) Resistance strategies and agency in adults who have experienced childhood domestic abuse. In: Integrating research and practice to combat violence and interpersonal aggression, 8 June 2017, Coventry University, UK. (Unpublished)

Downloaded from: http://insight.cumbria.ac.uk/3003/

Usage of any items from the University of Cumbria’s institutional repository ‘Insight’ must conform to the following fair usage guidelines.

Any item and its associated metadata held in the University of Cumbria’s institutional repository Insight (unless stated otherwise on the metadata record) may be copied, displayed or performed, and stored in line with the JISC fair dealing guidelines (available [here](http://insight.cumbria.ac.uk/3003/)) for educational and not-for-profit activities provided that

- the authors, title and full bibliographic details of the item are cited clearly when any part of the work is referred to verbally or in the written form
- a hyperlink/URL to the original Insight record of that item is included in any citations of the work
- the content is not changed in any way
- all files required for usage of the item are kept together with the main item file.

You may not

- sell any part of an item
- refer to any part of an item without citation
- amend any item or contextualise it in a way that will impugn the creator’s reputation
- remove or alter the copyright statement on an item.

The full policy can be found [here](http://insight.cumbria.ac.uk/3003/).

Introduction

Many facets of the experiences are unnoticed or distorted, particularly in relation to how one’s survival abilities develop among chaos and pain.

The experiences of children within the literature

- **Children classed as invisible or secondary victims** Daniel 2010, Eriksson & Näsman 2010
- **Children seen as passive recipients** Callaghan and Alexander 2015, Katz 2016
- **Children negatively affected** Black, Sussman and Unger 2010, Becker 2010, Daniel 2010
- **Limitations and bias** Anderson and Bang 2012, Katz 2016
- **Coping strategies** Anderson and Bang 2012, O’Brien 2013, Överlien and Hydén 2009
Adults who experienced domestic abuse as children

A more accurate indicator of agency and empowerment should take account of resistance strategies and how people mobilise themselves in response to the situation Hossain 2012

- **Survival strengths** Anderson and Bang 2012
- **A paradoxical resilience** Callaghan and Alexander 2015
- **Time and Space usage** Katz 2016, Anderson and Bang 2012, Callaghan and Alexander 2015
- **Active resistance** Anderson and Bang 2012, O’Brien 2013
