PREFACE

This bibliography lists publications of the NASA Planetary Quarantine Program under funded contracts and grants issued during the calendar year of 1969. The compilation follows the policy established for the previous issue by including certain non-NASA funded, but Planetary Quarantine oriented items.

The bibliography is designated The 1969 Supplement, which corrects a technical inaccuracy of past years where each annual publication was designated as an edition. The 19 November 1968 and November 1969 "editions" are in fact supplements to the basic document of 26 June 1967.

FOREWORD

Many of the documents cited in this supplement are augmented by the distributing facility designation number which is enclosed by brackets. This is done to aid the user of the supplement in obtaining a hard copy or microfiche of the referenced item. The cross hatch symbol, #, used in conjunction with the accession number indicates the item is available in microfiche as well as in hard copy.

Items with numerals preceded by only the letter "A" may be procured from the

Technical Information Service
American Institute of Aeronautics and Astronautics, Inc.
750 Third Avenue
New York, N.Y. 10017

References preceded by the letter "X" are usually limited in their distribution to NASA associated personnel. All other items are obtainable from the

Clearinghouse for Federal and Scientific Information (CFSTI)
U.S. Department of Commerce
5285 Port Royal Road
Springfield, Va. 22151

NASA contractors, grantees, and consultants may obtain many of the documents through their librarians from the

NASA Scientific and Technical Information Facility
P.O. Box 33
College Park, Md. 20740

Natural selection of microorganisms in extreme environments/	57
Parametric study to determine time-temperature-vacuum relati	89
Parametric study to determine time-temperature-vacuum relati	90
Planetary quarantine presentation/	170
Planetary quarantine program/	266
Planetary quarantine program/	267
Planetary quarantine program/	269
Potential effects of recent findings on spacecraft steriliza	272
Preliminary sublimation studies/	308
Life in extraterrestrial environments/	145
Rational model for spacecraft sterilization requirements/	5
Recovery of known numbers of microorganisms from surfaces by	12
Reduction of microbial dissemination	217
Reduction of microbial dissemination germicidal activity of	216
Release of microbial contamination from fractured solids/	230
Review of heat specifications/	225
Services provided in support of planetary quarantine require	231

VIABILITY (continued)		
	Spacecraft component survivability during entry into Martian	296
	Stability of viruses in foods for spaceflights/	107
	Sterilization/	117
	Study of aseptic maintenance by pressurization/	102
	Study of application of laminar flow ventilation to operatin	132
	Supposed role of microbiological aerosol stabilizers as an	289
	Survival of microorganisms in space/	190
	Systematic description and key to isolants from Chile-Atacam	72
	Systematic description and key to streptomyces isolants fro	73
VIKING		
	Investigation of methods for the sterilization of potting co	306
	(mission) Planetary quarantine program/	268
	Space programs summary no. 37-60, Vol. 1. Flight projects/	174
	voyage to Mars/1973	325
VIRAL		
	aerosols and bacterial aerosols/Evaluation of air filters	151
VIRUS		
	aerosols/Method for determining virus on surfaces contaminat	177
	on surfaces contaminated by them with aerosol method/Experim	27
	in foods for spaceflights/Stability of	107
	in liquids/Detection of bacteria and	208
VOYAGER		
	Interplanetary spacecraft decontamination operations and equ	8
WATER		
	1973 Viking voyage to Mars/	325
	activity: use of membrane filter support for test organisms	4
	Apollo lunar module engine exhaust products/	282
	by bacterial spores and its relation to dry heat resistance	260
	(content) Bacterial response to soil environment/	77
	(content) Environmental microbiology as related to planetary	74
	(content) Investigations into a diffusion model of dry heat	65
	cryobiologist's conjecture of planetary life/	270
	Dry heat destruction rates for microorganisms on open surfac	232
	Ecology and thermal inactivation of microbes in and on inter	243
	Ecology and thermal inactivation of microbes in and on inter	244
	Ecology and thermal inactivation of microbes in and on inter	245
	Ethylene oxide sterilization, current review of principles	178
	Frontiers in solar system exobiology/	264
	Ice caps on Venus/	35
	Investigation of methods for sterilization of potting compou	307
	Microbiology studies/	165
	Resistance of organisms to extreme influences in relation to	38
	Soil moisture, relative humidity, and microbial abundance in	96
	Television observations from Mariner 6 and 7/	185
	vapor in its atmosphere/Mars	223
	wide angle gas bearing gyro FGG3345/Sterilizable	88

JOURNALS PUBLISHING

PLANETARY QUARANTINE RELATED ARTICLES

Below is an alphabetical list of journals in which articles germane to the Planetary Quarantine Program of NASA's Bioscience Programs have been published. The number of related articles which appeared in each journal is indicated parenthetically.

Acta Agr Scand	(1)
Aeronautical Journal	(1)
AIHA Journal	(1)
American Industrial Hygiene Association Journal	(2)
American Journal of Epidemiology	(1)
American Journal of Hospital Pharmacy	(1)
Annals of New York Academy of Sciences	(2)
Annual Review of Microbiology	(1)
Antarctic Journal	(2)
AORN Journal	(1)
Applied Microbiology	(9)
Astronautics and Aeronautics	(2)
Biochim Biophys Acta	(1)
Biologiya i meditsina (Russian)	(1)
Biophysical Journal	(1)
Bulletin of Parenteral Drug Association	(1)
Contamination Control	(11)
Cryobiology	(1)
Dust Topics	(1)
Electronic Packaging and Production	(2)
Food Technology	(1)
Journal of Applied Bacteriology	(1)
Journal of Atmospheric Sciences	(1)
Journal of British Interplanetary Society	(2)
Journal of Dairy Science	(1)
Journal of Hospital Research	(1)
Laboratory Practice (U.K.)	(1)
Mathematical Biosciences	(1)
Nature	(3)
New Scientist	(1)
Public Health Monograph	(1)
Science	(6)

PROCEEDINGS PUBLISHING

PLANETARY QUARANTINE RELATED ARTICLES

Below is an alphabetical list of proceedings in which articles germane to the Planetary Quarantine Program of NASA's Bioscience Programs have been published. The number of related articles which appeared in each journal is indicated parenthetically.

- Advanced Materials and Process Engineering, Volume 14. Society of Aerospace Material and Process Engineers, 14th National Symposium and Exhibit, Cocoa Beach, Florida, 5-7 November 1968. North Hollywood, Western Periodicals Co.; 1968. (1)
- American Association for Contamination Control. 7th Annual Technical Meeting and Exhibit, Chicago, 13-16 May 1968. Boston, American Association for Contamination Control, 1968. (1)
- American Association for Contamination Control. 8th Annual Technical Meeting and Exhibit, New York, 19-22 May 1969. Boston, American Association for Contamination Control, 1969 (8)
- American Institute of Chemical Engineers. 4th Intersociety Energy Conversion Engineering Conference, Washington, D.C., 22-26 September 1969, New York, American Institute of Chemical Engineers, 1969. (1)
- American Society for Quality Control. 23rd Annual Technical Conference, Los Angeles, 5-7 May 1969. Milwaukee, American Society for Quality Control, Inc., 1969. (1)
- Bacteriological Proceedings of the American Society for Microbiology. 69th Annual Meeting, Miami Beach, 4-9 May 1969 (8)
- Bioastronautics and the Exploration of Space. 4th International Symposium, San Antonio, 24-27 June 1968. Brooks AFB, Texas, School of Aerospace Medicine, November 1968. C.H. Roadman, H. Strughold and R.B. Mitchell, editors. (1)
- Developments in Industrial Microbiology, Volume 10. Washington, D.C. AIBS, 1969. (1)

- Exobiology: Search for Extraterrestrial Life. American Astronomical Society and American Association for Advancement of Science, Symposium, New York, 30 December 1967. AAS Science and Technology Series Volume 19. Tarzana, California, American Astronautical Society, 1969. M.M. Freundlich and B.M. Wagner, editors. (5)
- Franklin Institute Research Laboratories, 6th Symposium on Explosive Devices, San Francisco, 8-10 July 1969. Philadelphia, Franklin Institute Research Laboratories 1969. (1)
- Life Sciences and Space Research VI. 10th COSPAR Plenary Meeting, Open Meeting of Working Group V, London, England, 27-28 July 1967. Amsterdam, North Holland Publishing Co., 1968. A.H. Borwn and F.G. Favorite, editors. (1)
- Life Sciences and Space Research VII. 11th COSPAR Plenary Meeting of Working Group V and Symposium on Biological Effects of Radiation in Space, Tokyo, Japan, 10, 14-16 May 1968. Amsterdam, North Holland Publishing Co., 1969. W. Vishniac and F.G. Favorite, editors. (4)
- New Horizons: Institute of Environmental Sciences, 14th Annual Technical Meeting, St. Louis, Mo., 29 April - 1 May 1968. Mount Prospect, Illinois, Institute of Environmental Sciences, 1968. (1)
- Space Projections from the Rocky Mountain Region. Denver, Colo., 15-16 July 1968. Volume 3. Tarzana, California, American Astronautical Society, 1968. (2)
