

CORE Membership for organisations

CORE is a mission-driven and not-for-profit endeavour and we rely on the generous support of our members to support and sustain the service.

What is CORE membership?

Starting	Supporting	Sustaining

What does your membership support?

Our Supporting and Sustaining members are the pillars of our open scholarly infrastructure service. They enable us in delivering on our **mission**.

Supporting

Co-funds the maintenance of CORE services as they are.

Sustaining

Co-funds the maintenance of CORE services and their continuous improvement.

Some of our members

Members' benefits details

CORE Repository Dashboard

Monitor, manage and access statistics about how your metadata are exposed across the open access research network.

CORE Discovery

Benefit from our plugin which turns metadata only pages in repositories to pages with full text links, whenever an open access version of the document is available anywhere across the open research network.

CORE Search

Your organisation's research visible and discoverable by over 30 million monthly active users who rely on CORE.

General support

Our enthusiastic open access team ready to answer general queries about CORE.

CORE Recommender

Install our recommender plugin to help your users find related content within your own repository and from across the global open research network.

Download statistics

Access statistics about how many times papers from your organisation were downloaded (from CORE and directly from your repository - IRUS tracker integration required for the latter)

CORE Discovery Boost:

- PMC
- Recommended across the repositories network

- Open access full texts from your repository promoted to PubMed Central via their Link Out service. Increases the discoverability of your content.

- Your organisation's research discoverable from across hundreds of repositories who use the CORE Recommender plugin including high-profile repositories, such as arxiv.org.

Logos for your papers

Associate your research papers in CORE with your official organisational logo. This will be visible in CORE Search, CORE Recommender, CORE Discovery and from across the CORE Portal. Your logo can be uploaded from the CORE Repository Dashboard.

Logo banner

We highly value the generous support of our Supporting and Sustaining members. We proudly display banners acknowledging your sponsorship and support to the open access and open science mission.

Promoted / spotlight / featured articles

When research papers from your organisation would appear on pages 2-4 of CORE Search results, your paper gets promoted to the front of the first page and is highlighted as a featured article.

Personalised banner

Promote your research conferences, events, academic jobs and other mission-aligned communications on the CORE website.

Board of Supporters

Help shape our development roadmap by having a formal say on our Board of Supporters.

Technical support (≤5)

Guaranteed technical support of up to 5 technical queries per year for Supporting members.

Unlimited and prioritised support

Unlimited technical support and prioritised response times for Sustaining members.

CORE OA Compliance Dashboard

Tools for Open Access compliance monitoring and metadata enrichments.

Get your OAI identifiers resolved to your repository

Make OAI identifiers originating from your repository resolve directly to your repository instead of just to their pages in CORE.

API use for your university

Use of the CORE API for your organisation, including for non-research purposes (except for commercial purposes), subject to our T&Cs.

Dataset use for your university

Use of the CORE Dataset for your organisation, including for non-research purposes (except for commercial purposes), subject to our T&Cs.

Repository health check

Possibility of a data-driven metadata quality assessment consultation for your institution. We assess current level of metadata quality (including in relation to FAIRness) and provide guidance on how to improve it. (1 consultation per year included)

Hosted or interview style blog post on mission-aligned activities

We are keen to provide a hosted or interview style blog post about open access, open science and other relevant mission-oriented activities your organisation is conducting on the CORE blog. (T&Cs apply)
